Do not forget to read our notice to Subscribers in reference to increase in price to all who fail to pay in advance. People who fail to find one dollar to pay us in advance are apt to complain that they are not able to pay when two years or more fall due. June is the month in which every subscriber can settle in full for the cash rate \$1.00. After July 1st, the higher rates will apply to all who are in arrears. Last week one subscriber was determined not to pay more than the usual rate and remitted us to 1915. We would like hundreds more to follow suit. Try, and see how easy it is.

The united congregation in the Baptist church last sabbath evening had the pleasure of listening to a masterly address delivered by the Rev. A. F. Newcomb M. A. B. D. Secy. of the C. B. Society. Mr. Newcomb is a native of Kentville and since he has entered upon his public life he has filled several very important positions. His presentation of the word of the Canadian Bible Society was eloquent and well calculated to stimulate interest in the work this great agency is carrying on in giving the scriptures to foreigners as they come to our shores and in spreading the word of God throughout the world. A generous offering was received at the close of the address which proved that Mr. Newcomb had aroused more than ordinary interest in the work he has in charge. We can bespeak for Mr. Newcomb a crowded house when again he visits his native town.

Keep Down The Black Spot

Court week has been the means of bringing a very large gathering of farmers into Kentville.

Next to the criminal charges on the docket, spraying seems to be more talked of than anything else. About every fruit grower seems to think the present wet weather is bound to result in making spotted apple this year, unless careful spraying is kept up. One prominent grower says the rain comes so frequently that it is difficult to get the spraying done.

There are others who are taking

opportunity by the forelock and getting ahead of the rain.

Mr. George McLean of Lakeville tells us that he finished up the Codling Moth spray on Tuesday last. He considers that fruit growers should not wait until the blossoms fall but spray even when the trees are in full bloom rather than wait until the spots get ahead.

Spraying is the farmer's password this year.

Mr. and Mrs. J. I. Lloyd and family accompanied by friends spent the King's Birthday at their cottage, Kingsport.
