EMBARGO HITS SOME NOVA SCOTIA PRODUCTS

(Halifax Herald)

Halifax, Feb. 26—The embargo on certain goods entering Great Britain will not have very serious results as far as Nova Scotia is concerned. Lumber, lobsters and apples are the 3 principal items affecting this province. For some weeks there has been an embargo prohibiting the selling of lumber to private concerns in Great Britain but the demands of the admiralty have been taking all the supplies so the new ruling will not change the situation.

The lobster embargo is more serious. It affects not only the small quantity of last year's pack left, but makes it difficult for the packers to decide what to do for the coming season which is so soon to open. A meeting of those interested in the lobster industry has been called to discuss the matter and to come to some decision as to what is the wisest thing to do under the circumstances.

The fruit growers of the Valley are too accustomed to sudden and important changes to become panic stricken over anything. They take the present situation quite coolly and point out that what applies they have on hand are good keepers. W. H. Chase, one of the foremost exporters of apples in Nova Scotia, has made shipments from this port for Great Britain as late as May 10th and had the apples arrive on the other side in good condition. The United Fruit companies, which centralizes the operations of forty co-operative companies, and which still has a considerable quantity of the later varieties on hand, is finding quite an extending market in Montreal, Toronto and even farther west. The general manager of the company, A. F. McMahon, is at present in Halifax and says the news of the embargo did not come as a surprise and will not have any harmful results so far as the valley is concerned with this season's crop.

He says that all the growers are confident regarding the coming season and because of the embargo there will be very few who will slacken in the least the care of their orchards. In the first place they are supremely confident that the war is progressing favorably. Secondly, they know that they have the advantage of all competitors in the English markets, and lastly the steady improvement of local and western markets provides a profitable outlet for a vast quantity of the fruit.

Another very interesting feature of conditions in the valley is the fact that all records in the production of wheat will be broken the coming season if the harvest is in keeping with the sowing. Large quantities of seed wheat has been secured. In 1916 there was a much larger acreage of wheat than was ever before raised in the valley and on the mountains and the flour mill established at Berwick by the Woodworth mills, subsidized by the government, cannot keep up with the demand on its capacity even by running night and day.

Marmalade
 I made it with my same old recipe but I used

Lantic Sugar

On account of its Fine granulation it dissolves instantly making a clear jelly.

ST. VITUS DANCE AFFECTS MANY CHILDREN

This Trouble Can be Cured Through the Use of Dr. Williams' Pink Pills.

St. Vitus Dance is much more common than is generally imagined. The trouble is often mistaken for mere nervousness, or awkwardness. It usually attacks young children, most often between the ages of six and fourteen—though older persons may be affected with it. The most common symptom is twitching of the muscles of the face and limbs. As the disease progresses this twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hands or walk steadily, and in severe cases the speech may be affected. The disease is due to impoverished nerves, owing to the blood being out of condition and can be cured by the use of Dr. Williams' Pink Pills, which enrich the blood, strengthen the nerves, and in this way restore the sufferer to good health. Any symptom of nerve trouble in young children should be promptly treated as it is almost sure to lead to St. Vitus Dance. The following is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Miss Hattie Cummings, R. R. No. 3, Peterboro, Ont., says:—"I was attacked with St. Vitus Dance. Both my hands trembled so as to be practically useless. Then the trouble went to my left side, and from that to my right leg, and left me in such a condition that I was not able to go out of the house. I took the doctor's medicine without getting any benefit. Then I tried another remedy with the same poor results. At this stage I was advised to try Dr. Williams' Pink Pills and did so, with the result that they fully restored me to health, and I have not had the slightest symptom of nervous trouble since. I can recommend these pills to anyone who is suffering from nervous trouble, and hope they will profit by my experience."

You can get Dr. Williams' Pink Pills from any drug dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The death of Mrs. Paul Yates has occurred at Digby. She left her husband who is an artist and photographer well known throughout the Province and two children, William and Paul. The funeral took place on Tuesday afternoon.

Mrs. George T. McClearn died at Liverpool on Monday, aged 38 years, leaving her husband, one daughter and two sons to mourn the loss of a loving wife and mother. A. F. Davison and F. H. Davison of Bridgewater are brothers of the late Mrs. McClearn.

Leon D'Eon an aged and estimable resident of West Pubnico, passed away on Wednesday last week. He leaves a son, who is a railway mail clerk in the Nova Scotia Division, and three daughters. His wife predeceased him about a year ago.

Restriction in Canada is also the Proper Thing

Ottawa, Feb. 25—Warmly endorsing the speech of the British premier, the Right Hon. Lloyd George, and commending the restrictive measures which are to be enforced on the other side, Sir George Foster, acting premier, has issued a noteworthy statement in which he brings home to Canada the lessons the war is teaching to the Mother Country and intimates that it may be necessary, by means of similar restriction, to follow the example of Britain. Referring to the need of Canadians sacrificing pleasures and indulgence and expensive unnecessary and modes of living Sir George says that "Later—and perhaps not very much later—it may become compulsory here, or it surely is not right for us to diminish by extravagant and wasteful methods of living, and by declining to submit ourselves to restrictions which touch no essential point of health or real comfort, the precious and essential supply of food and other materials that are becoming so necessary for the success of the war."

Sir George voices the opinions that the high cost of living might be essentially reduced if Canadians consumed 75 per cent less of luxury and 25 per cent less than the essentials of living. Discussing the general effect of the restrictions Sir George says they will affect exports of timber, fruits, fish and agricultural implements, but on the other hand all Canadian staple food supplies will be required to the maximum of production.

Intense Feeling Has Been Provoked in Holland

London, February 26—News disatches from Holland to the London newspapers emphasize the continued indignation aroused among the Dutch by the recent destruction of Dutch ships by German submarines. The despatches say that there is a complete absence of noisy protest, the gravity of the situation having "a marked silence, amounting to a sense of solemnity." All reports agree that nothing which has happened hitherto in the war has provoked such an intense feeling.

"Shipping interests are extremely concerned and talk of the stoppage of all Dutch shipping is general. It is suggested here that one way of bringing Germany to a sense of her misdeed would be to seal the Dutch frontier so that Holland could be utilized no longer as a purveyor of foodstuffs for Germany. The expulsion of thousands of German spies and an embargo on the scanty resources of grain would also be wholesome measures. The Dutch, however, are a long-suffering people, where Germany is concerned and extremely cautious."

Blockade Lifted When Cnstantine Carries Out Compact

Paris, Feb. 25—Definite announcement was made here today that the blockade of Greece will be lifted when King Constantine gives complete satisfaction to the demands of the Entente Allies.

Germany is Satisfied With Submarine Results

Amsterdam, Feb. 26—In an interview in the Taegliche Bundschau, Albert Ballin, director-general of the Hamburg-American line, says that Germany can be most satisfied with the success so far of unrestricted submarine warfare. Herr Ballin says that the object of the campaign was not to sink ships, but to stop commerce with England, and that this had been fully attained, as neutral traffic was stagnating.

Referring to the German ships lying in United States harbors, Herr Ballin said that a treaty existed between Germany and America which did not allow confiscation; and that he had no ground to assume that the United States would not observe this treaty. President Wilson, he added, had based the rupture of diplomatic relations of international law, and therefore he considered it quite impossible that the president would himself disregard international agreements.

"Germany's aim," he continued, "is to issue from the war victorious. With victory she will have won all with it she will have lost all."

Tuberculosis

Plenty of fresh air, sleeping out-doors and a plain, nourishing diet are all good and helpful, but the most important of all is

Scott's Emulsion

It is the standard treatment prescribed by physicians all over the world for this dread disease. It is the ideal food-medicine to heal the lungs and build up the wasting body.

WIT AND HUMOR

A Slam.
 Sponger—Do you know what I would do if I had a million dollars?
 Sharp—Buy your own cigars, maybe.

The small boy being reproved by his mother.
 "Why can't you be good," she asked.
 "I'll be good for sixpence," he said.
 "Ah!" responded the mother, "you want to be bribed. You should copy your father, and be good for nothing."

Minard's Liniment Cures Diphtheria.

Great Britain levies a sixty per cent tax on all war profits. By the end of the fiscal year this tax will have produced \$500,000,000 in revenue to the treasury.

Our Expressive Language
 Did the boss raise your salary last week?
 No; but my wife lifted it as soon as I got home.

The death occurred at Rogersville, N. B., on Saturday of Annie, the three and a half year old daughter of Jerome A. Gallant, Conservative candidate in Northumberland. The child found some patent medicine tablets and ate several before being discovered, and died an hour afterwards in convulsions.
