

Ninety Perish in Wreck of Steamer on Chilean Coast.

Santiago, Chile, June 26.—Only one man on board the Santiago, wrecked in a heavy squall 50 miles north of Corral, was saved. The rest of the crew of 90 persons, including 12 English officers, perished.

One boat launched was dashed to pieces on the rocks after drifting for several days.

ARE YOU SUBJECT TO STIFFNESS

Perhaps it is in the neck or shoulders. First thing is a good rub with Nerviline. No more speedy remedy can be adopted. When applied to the muscles Nerviline gives them flexibility and vigor, inflammation, soreness and stiffness disappear. "Whether in the chest or throat nothing can surpass Nerviline," writes O. E. Denton, Lumber Merchant at Oak Bay, N. B. "Rubbed on at night, the trouble is gone by morning. I have peevish Nerviline a great medicine." Everyone says the same, and Nerviline always makes good. 25c. bottles sold everywhere.

HEALTH FOR RUN-DOWN WOMEN.

From the experience of Mrs. John Pank, Saskatoon, nothing compares with Ferrozone. "At times I was confined to my bed and couldn't do any work. I was run down in flesh, my strength, my appetite failed, my color was pallid. Weak and cast down, it seemed I couldn't catch up. Ferrozone started a new kind of life in my blood, built me up, vitalized and strengthened my nerves, and finally cured my heart and stomach pains." Ferrozone is a re-builder that has special virtues in female ailments. Sold everywhere in 50c. boxes; try Ferrozone.

To Examine Coast Defences.
London, June 26.—(C. A. P.)—The admiralty is sending expert officers to Canada, Australia and New Zealand in order to prepare a report upon the coast defences and advise generally upon ships or squadrons at present stationed in their waters.

It is said the report is expected to constitute a basis for the naval program of 1908.

Nervousness, Dyspepsia, Indigestion and kindred ailments take wings before the healing qualities of South American Nervine. Thomas Hoskins, of Durham, Ont., took his preacher's advice, followed directions, and was cured permanently of the worst form of Nervous Prostration and Dyspepsia. He has recommended it to others, with gratifying results. It's a great builder.

Judge Landry Will Not Postpone Emmerson Libel Suit.

Counsel Moves For Crockett's Discharge—Indictment Not Dismissed—Case Goes Over Until January—Defendant's Recognizance Taken—His Honor Criticizes Position of Crown in the Matter.

Fredericton, N. B., June 26.—The Emmerson-Crocket case has been postponed again, and it now looks like the last postponement unless His Honor finally grants the request of the prosecution.

Yesterday morning His Honor Judge Landry was not fully decided as to whether he had better allow a postponement until after the reserved case is argued before the full bench of the Supreme Court of New Brunswick. The crown has announced that if their demand to the plea of the defence is not allowed, they will stand the case on. Judge Landry has refused the demurrer to stand, and the full bench, it is expected, will sustain his decision.

In the meantime His Honor is going to look up some authorities, in order that he may give the question the closest consideration.

To Please Everybody.
His Honor expressed a willingness to give his decision at four o'clock yesterday afternoon, but Mr. J. D. Hazen, the leading counsel for the defence, had an engagement in Sudbury County yesterday afternoon, where he is entertaining the members of the County Council, and he asked to have it put off until six o'clock. His Honor preferred to take time after tea to give out the decision, and when Mr. Hazen suggested seven o'clock, Mr. J. R. Barry, K. C., counsel for the prosecution, wanted to have it made eight o'clock. His Honor split the difference and made it 7.30.

As was the case Monday, Mr. Emmerson was not in court. It is stated he has gone to West Virginia. Mr. Crockett was on hand, and occupied a seat near his counsel. Mr. Barry was the only one of counsel for the prosecution present, and Mr. Hazen and Mr. O. S. Crockett, M. P., were the lawyers present for the defence. Mayor McLeod having left yesterday morning for Camp Sussex, in command of the 71st Regiment, of which he is senior major. There was no stenographer present to take notes of the proceedings of the court. Special Stenographer McPeake, who was on the job Monday, having also gone to Sussex, as captain of one of the companies of the 71st.

Why the Delay?
Explained Judge Landry, in giving his reasons for postponing the giving of his decision. "I had I could have given my decision as to the question of postponement this morning, but I was engaged here in the afternoon until after six o'clock, and was not able to look up certain authorities which I wanted to consult. I feel that it is due to myself to wait further time to look up these authorities."

Afterwards His Honor told the jurors that they need not be in court unless ordered to come by the sheriff, until Aug. 20, when civil business will be again taken up, and in the course of his remarks His Honor said that the court would adjourn in the evening until that time. He corrected himself in a moment, and then it was that the idea was given that he may order the prosecution to proceed with the Emmerson-Crocket case when he takes his place on the bench this evening.

May Order Case On.
"When I said that the court would adjourn this evening," said His Honor, perhaps I said something that I should not have said. I cannot anticipate what will happen. However, the jury need not come back before the 20th of August unless ordered to do so by the sheriff."

Postponement Refused.
The last has been heard in the court of the Emmerson-Crocket libel case until January next, with the possible exception of an argument on a legal point or two. Perhaps it should be said that it is all over now.

Judge P. A. Landry last evening refused to allow the application of the crown for postponement.

The court was crowded. The judge, in his decision held that the article was written in the public interest, and again decided that the defendant's plea should stand and that the demurrer of prosecution should not stand.

When court was adjourned and Mr. Crockett was held in his own recognizance, to appear in January next—"if there should be an indictment against him"—it was generally felt among the crowd that the last has been heard of the case.

The defence claim that Judge Landry having refused to grant a postponement, and the crown prosecutors refusing to proceed with the case when a postponement is not allowed, the indictment is killed.

If it is decided by the prosecution to have the point on which they have been granted a reserve case argued before the supreme court, that argument will not take place until November.

"In my opinion," said the judge, "the right of the crown to get a postponement of trial remains the same as though no reserved case existed, leaving aside, therefore, the consideration of the reserved point, no case has been made by the crown for a postponement. Hence I must refuse it."

"I do not think I am called upon to note or consider in this application what the representative of the crown said on Friday last, viz., that the crown would not go on with the trial till the decision given was reversed."

"If the meaning of that declaration was that the crown would be able to convince me that it had sufficient reasons for asking and obtaining the

postponement, it has so far failed to present those reasons. "If the declaration meant that the crown had means to postpone the trial without an order for that purpose from the presiding judge, then I leave it to the crown to exercise those means or to go to trial. In the meantime the case stands before, so far as the crown is concerned, as a trial, and demanding from me a disposition of it."

Harry Thaw Very Ill.

New York, June 26.—Harry Thaw is desperately ill in the Tombs, and grave fears are entertained for his life on the verge of collapse. Application will be made to the Supreme Court of Justice for bail for Thaw, on the ground that his life will be endangered if he remains in prison.

That the roots of many plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well known. Even the untutored Indian has learned the curative value of some of these and taught the early settlers their uses. The Indian never liked to work, so he wanted his squaw to get well as soon as possible, that she might do the work and let him hunt. Therefore he dug "papoose root" for her for that was their great remedy for female weakness. Dr. Pierce used the same root called Blue Cohosh—in his "Favorite Prescription," skillfully combined with numerous other agents that make it more effective than any other medicine in curing all the varied weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvellous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time.

HOUSE COLLAPSES.

Seven Persons Killed—Buried Under Tons of Debris.

New York, June 26.—Seven persons, six of them members of one Italian family, were killed yesterday in the collapse of a ramshackle tenement in the downtown Italian quarter. Three other members of the same family were rescued from the ruins. An old man was rescued from a two-foot ledge 40 feet from the ground by firemen.

The building was a four-story affair, built over 50 years ago. It had been in a dangerous condition because of excavations next door. The constant rumbling of subway trains a block away was too much for it.

The seven persons who lost their lives were buried under tons of debris. Some had been instantly killed, but others escaped death in the first crush only to be smothered by bricks, broken timbers, plaster and dust.

Some of the younger occupants of the house who reached home shortly before two o'clock yesterday morning, warned by the severe shaking of the house, ran through the building and warned sleeping tenants of impending disaster, and dozens of persons ran into the streets in their night clothing.

CHURCHMEN WANT PEACE.

British Dean Heads Deputation to Hague Conference.

The Hague, June 26.—The President of the Peace Conference, M. Nelidoff, yesterday received a deputation from Christian churches throughout the world, headed by Very Rev. Wm. Henry Fremantle, Dean of Ripon, who presented an address urging the conference to ensure peace, justice and humanitarianism. The address was signed by all the leading churchmen of Great Britain, except the British Catholics, who refused to participate, even indirectly, in a conference to which the Pope was not invited. Nine American Catholic Bishops signed the address.

M. Nelidoff thanked the deputation for the interest taken in the work of the conference, to which he said the address would be communicated, adding that everyone earnestly desired the success of its work.

BALLOONIST FALLS IN RIVER.

After Good Exhibition Airship Meets With Accident.

New York, June 26.—A big cigar-shaped airship sailed across the bay from Staten Island yesterday, circled around above the high office buildings in Brooklyn and then swept across East River and alighted gently in the midst of a crowd numbering thousands, which had gathered in Battery Park.

A few moments later the operator set the machine in motion again and the ship rose to an altitude of about 500 feet and started northward over the skyscrapers of Manhattan Island. The ship was in charge of Lincoln Beachey, who seemed to have perfect control of the big machine.

After passing over Manhattan Mr. Beachey sent his airship up over East River toward Long Island Sound. In some manner it collided with a spindle which marks a ledge at the sunken Meadows and the airship was badly damaged and he was thrown into the water, but was rescued by a boatman.

Right Breathing Cures Catarrh

Simple Way to Kill Catarrhal Germs in Nose, Throat and Lungs.

If you cut your finger, you don't attempt to heal it by swallowing a pill or a dose of medicine.

It is just as foolish to try and cure catarrh of the nose and throat with pills and stomach dosing, for catarrh is a local disease, and needs special local healing treatment.

The only natural and common sense method known for the cure of catarrhal troubles is Hy-o-mei. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air-cells of the nose, throat and lungs, killing all catarrhal germs, soothing the irritated mucous membranes, and restoring a healthy condition.

If you suffer from catarrhal troubles, such as offensive breath, raising of mucous, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing, or a feeling of tightness across the upper part of the chest, you should begin to use Hy-o-mei at once. It will destroy all disease germs in the nose, throat and lungs, and provide the blood with additional ozone.

The complete Hy-o-mei outfit with C. H. Gunn & Co.'s faith in the power of Hy-o-mei to cure all catarrhal troubles, that with every dollar outfit they give an iron-clad guarantee to refund the money unless the remedy gives satisfaction.

Getting Ready For War.

New Orleans, June 26.—A despatch from Port Barrios, Guatemala, says that the forces at the east coast ports held in readiness to repel invasions number 500 men at each place, each battalion of this size having six rapid-fire and six siege guns.

The despatch also confirms the reports that the coast fortifications are being erected at several ports. The Guatemalan Government is reported to be negotiating for a 400-ton steamer of 18 knots speed to be armed with eight rapid-fire guns.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths like to flesh again. That is impossible. But I can now surely kill the pains and swellings of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient I successfully treated many cases of Rheumatism; but now, at last, I can cure all curable cases of this heretofore much dreaded disease. These and like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as does sugar when added to pure water. And when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no Rheumatism to act up to suffer longer without help. We sell, and in confidence recommend
