LOCAL NEWS.

OBSERVING THE HOLIDAY—There was no session of the Legislature on Good Friday.

UNIVERSITY SPORTS—The University Athletic sports are to be held on Thursday, May 15th.

FOR EASTER—The city schools and the university closed on Thursday for Easter holidays.

VICTORIA HOSPITAL—The city council have increased the grant to the Victoria Hospital from \$200 to \$300.

PREPARING FOR NAVIGATION—Capt. Duncan and two mechanics are down at Swan Creek, getting the Florenceville ready for the opening of navigation.

HOLIDAY CONVENTION—A convention for the promotion of Bible Holiness is in session at Upper Caverhill. Among the ministers present are Revs. Wm. Kinghorn, B. Colpitts, G. W. McDonald, and G. B. Traflet.

TURNS—Turnips are on the rise in St. Andrews. Buyers there have been giving all the way from \$1.50 to \$2 per barrel the past week. The dealers say they will be surprised if they reached \$4 per barrel.

IN AID OF VICTORIA HOSPITAL—A concert in the City Hall, on Thursday, 10th inst. An excellent programme is promised. There should be a large attendance as the institution is in need of funds.

ALL EXCEPT HARRY WILKES—The agricultural committee of the House of Assembly have recommended the government to sell all the horses except Harry Wilkes, the purchasers to give bonds to keep the horses in the province.

DEATH OF STEPHEN CARMAN—Stephen Carman, an aged and highly respected resident of the city, died at the residence of his son-in-law, Cyrus Burt, on the 3rd inst. Deceased was for many years a resident of St. Mary's and was well known and universally esteemed.

ENTERTAINMENT IN ST. DUNSTON'S—An entertainment under the management of Mrs. T. A. Sharkey is to be given in St. Dunstan's Hall on Monday evening. The entertainment will consist of tableaux and a splendid programme of music, and promises to be most enjoyable affair.

ENGAGEMENT CANCELLED—Mrs. Chant, who was announced to lecture in the City Hall, Monday evening, has been obliged to cancel her engagement here and all her later engagements in the province. Constant travel and speaking since she crossed the ocean has rendered this necessary.

PROPERTY TRANSFER—J. A. Edwards, the enterprising proprietor of the Queen Hotel, has bought the old Groves farm, a valuable property at St. Mary's, recently owned by John McCoy, paying it is stated \$4,000 therefor. Alexander Burchill has purchased Dr. McAllister's residence for a sum between \$3,500 and \$4,000.

THAT SHIP—No doubt many of our readers have heard of the beautiful ship, "The ship that never returned." Did she ever? She has returned, however, and can be seen in J. W. Weddall's window. It is needless for us to state that the Daisy is then laden with a fine stock such as is always found in Mr. Weddall's store.

POTATO DUTIES—The duties collected on provincial potatoes at the Custom House in Hamilton for the past month of March, amounted to \$100. A very large gain over previous months, which indicates that the custom officials are on the alert for smugglers and that the latter choose to pay duties rather than to take the risk and expense of seizure.

TEACHERS MEETING—The city teachers have inaugurated a plan for regular monthly meetings for the mutual discussion of all questions affecting the profession. Principal Mullin was chiefly instrumental in organizing the system. James W. Palmer of the collegiate school has been elected chairman, and J. F. Rogers, of the model school, secretary.

MEDICAL—At the annual meeting of the Council of Physicians and Surgeons of New Brunswick here last week, the following officers were elected—Dr. Thos. Walker, President; Dr. J. W. Daniel, Treasurer; Dr. J. Z. Currie, Secretary. A number of applicants were registered, among them being Dr. Hetherington, a homoeopathic physician, and son of Mr. Hetherington, M. P. for Queens.

SUMMER GOODS—Joseph Walker, through the advertising columns of THE HERALD, directs the attention of the public to his well-known tailoring establishment at the upper end of Queen street. He has got in a line of spring and summer goods that cannot be beaten for variety and assortment in the city, and as he guarantees a perfect fit every time, those in need of clothes—and most people are—would do well to give him a call.

SUDDEN DEATH AT KEWICK—The many friends throughout the county of Tyler Jewett, of Jewett's mills, Kewick, were shocked to learn of his sudden death at his home on Wednesday evening. Deceased was taken ill the night previous. He was well and favorably known throughout the whole county, and his sudden death will be a loss to the entire community. He leaves a wife and daughter who have the sympathy of many friends in their deep bereavement.

MARYVILLE REVIVAL—The Intelligence says the work at Maryville is progressing with much power. There is a very deep and widespread interest. A large number have declared themselves as seekers of Christ. The meetings are largely attended, the church being filled every evening, and on Sabbath many could not get inside. At the close of the Sabbath afternoon service Bro. Downey baptized six converts. In the evening ten received the hand of fellowship, becoming members of the church.

YOUNG NEW BRUNSWICK DOCTORS—McGill medical college closed on Saturday. The New Brunswick students who graduated and received the degree of M. D. were Messrs G. A. B. Addy and A. Lewin, St. John; J. Broderick, H. D. McManis, Fredericton; Curtis Hartland and W. A. Wilson. Among the second year men who passed in chemistry were Messrs Gunter, McNally, Peake and Mackenzie, Messrs Peake and McNally were also successful in physiology. J. D. Harrison, of Fredericton, was among the third year students who passed in pathology.

CITY ASSESSMENT FOR 1890.

Table with 2 columns: Item and Amount. Includes Sewerage and water works, Public Health, Victoria Hospital, Almshouse and Support of Poor, Maintenance of Fire Dept., Administration of Justice, Lighting the Streets, Government and Contingent expenses, Maintenance of Roads Streets and Bridges, Public works generally, School purposes, Assessment for 1890.

POISON OR THE PISTOL.

The Weeks-Sutherland poisoning case. Some startling developments came out in the Weeks-Sutherland poisoning case which was resumed Tuesday morning.

The Stewart girl testified to having been in Mrs. Weeks' house in the fall of 1888. She said at one time in her evidence "While there, Mrs. Weeks, when talking of Mrs. Sutherland, asked me how much I would take and poison her. I asked her if she was in earnest. She laughed and said she guessed I could not be paid to poison Mrs. Sutherland. She did not offer to pay me nor did I agree to do it. At another time Annie, my sister, who was a servant there, and Mrs. Weeks had a talk in the kitchen. Mrs. Weeks said the woman in Sutherland's kitchen window at night, proceeded up stairs and into the bedrooms and took some papers out of Sutherland's pocket. She removed a bottle of whiskey from the pantry and came down stairs. The Sutherlands did not see her as they were asleep, and she had gone in and out without being heard. It was before I went to stay there that this was done."

Lizzie, in describing her efforts to escape the officers, said: "I stayed at P. S. Brown's the first night, after being taken to town, and was taken from there to Francis McKenna's, Queen street, for a day. Then Mrs. Weeks picked me up at his place, at Trion, where we stayed two weeks. My sister Maggie was with me. We had no money, but Mrs. Weeks was going to buy our tickets. We made three attempts to get on board. Our hair was while at the Myers. We paid no board at any of the places. Richard Curran took us to Brown's."

W. P. Carter, who was on the train from the Cape with Mrs. Weeks, was recalled and said Mrs. Weeks asked him if Sutherland went back on her if he would lend her a revolver to shoot him. The taking of evidence was concluded Thursday afternoon. Mr. Peters addressed the court in the afternoon on behalf of his client and Mr. Malcolm McLeod for the crown. Mr. Peters asked the court, before he began his address, if it would decide to send the prisoners up for trial that an adjournment be made until Saturday morning so that all might be proceeded. The court was accordingly adjourned.

Lizzie Stewart is kept closely guarded at Malcolm Bradley's house and it is understood the court will ask bail for her as well. The Late James Tibbitts. Monday's Quebec Chronicle has the following notice of the late James Tibbitts Esq. M. P. P., father of Deputy Provincial Secretary R. W. L. Tibbitts: On Friday last the mortal remains of the late James Tibbitts Esq. were committed to their last resting place in Mount Hermon cemetery. For many years the deceased was a prominent figure in the mercantile community. He was a man of great physical and mental energy, and of unbounded enterprise; always willing to risk in public enterprises the money which was mostly of his own venture. One of his last enterprises was in the excellent ferry service we enjoy with the south shore. He was the first to demonstrate the feasibility of a steamer cutting its way through the masses of ice which obstructed the navigation opposite the city during the winter. Like many others of our enterprising merchants, Mr. Tibbitts died poor. Quebec owes his memory a debt of gratitude which might well have been slightly repaid in a public funeral. It is, however, such a long time since Mr. Tibbitts resided in the city, the generation that succeeded are hardly aware of the services rendered by the deceased. It is not fitting, however, that they should be lost sight of.

The University Sports. The students at the university are making active preparations for their sports on May 15. About twenty are training daily in the gymnasium. The no-prize programme of last year was found unsatisfactory, and this year a number of valuable articles will be offered. Two of the old events, throwing the ball, and the tug-of-war, will be omitted. The boys continue to expect to see some records broken. Peake, who ran in the A. A. sports, is running in fine form and will likely smash the mile record. The pole vault record is 9 ft. 10 in., and already J. G. In. has been cleared in the gymnasium. Street, Peppers, McLeod and Mowatt have each the anticipation of wearing the championship belt. The students on Wednesday received a communication from King's college at Windsor, inviting them to compete at the sports to be held there on 23rd June, and it is probable that a number of U. N. B. athletes will cross the by to uphold the honor of their Alma Mater.

Change of Time.

A new time table goes into effect on the N. B. Railroad on Monday. Under the new arrangement trains will leave Fredericton as follows: Express for St. John and intermediate points, Vancouver, Bangor, Portland, Boston and points west, St. Andrews, Hamilton, Woodstock, and points north at 6:05 a. m., accommodations for Fredericton Junction, St. John, etc., at 11:30 a. m., accommodation for Fredericton Junction and St. John, connecting at Junction with fast express for Montreal and the west via C. P. R.; also for Woodstock and Hamilton, at 2:30 p. m. The arrivals will be at 8:55 a. m., 2:00 and 7:30 p. m. On the Gibson branch the train will leave Gibson for Woodstock at 8 a. m., returning will arrive at 5:55 p. m. All standard time. This will be much more satisfactory to Fredericton than the present arrangement.

Lumbermen's Day.

The annual meeting of the St. John river log driving company, was held in the Queen Hotel on Wednesday morning. The following directors were elected: H. Murray, C. P. Woodman, Franklin Stetson, Geo. B. Dunn, W. B. Beveridge, W. H. Murray was elected president and J. Fraser Gregory secretary and treasurer of the company. The sale took place in front of the court house at three o'clock. The drive was sold to Robt. Connors at the following rates, there being no competition: Grand Falls, 24 cts. Aroostook Falls, 24 cts. Salmon River, 18 cts. Totique River, 18 cts. All points below, 10 cts.

The Short Line.

Mayor Allen has returned from Ottawa. At Tuesday night meeting of the city council he made a verbal report on the prospects of the short line via Fredericton. Speaking candidly his worship said that he could give the citizens very little encouragement in regard to the construction of the line via the Harvey-Salisbury route. He had found the opposition to this route very general and formidable at Ottawa, and they had been able to get little satisfaction or encouragement from the government. He felt, however, that they had succeeded in showing the fallacy and disadvantages of the projected Edmundston route, and it was doubtful if parliament would take action in the construction of either road.

Imports and Exports.

The value of exports from the port of Fredericton for the month of March amounted to \$2,243 as against \$11,437 for the corresponding month of last year. The exports consisted principally of potatoes and bark. Of potatoes \$3,386 worth were shipped, and \$4,887 was the value of the bark. In March of last year the value of potatoes shipped aggregated only \$1,557.

The value of goods entered for consumption at the port of Fredericton for the month of March was \$16,024, and the duty paid, \$4,485. For the corresponding month of last year the value was \$15,215, and the duty \$4,938.70.

CURRENT TOPICS.

Political and Otherwise—The Boolester.

The heaviest part of the session is now over, and the cautious element of the assembly are just beginning to realize that, after all, the chief duty of a legislator does not consist in being public business, by kicking at everything and anything that emanates from the government benches.

The policy of obstruction which the opposition adopted early in the session (the only policy they seem to have pursued) and which reached its climax and its fall, over the road appropriation, has dwindled into carping and tiresome criticism about postage, the market price of poultry, and the amount paid for public printing.

By the way, it was an untimely want of judgment and foresight in the leader of the opposition, that he allowed the editor and proprietor of the Moncton Times to commence half a day in a vain endeavor to regard that the policy of the government in regard to the public printing was an extravagant and unnecessary extravagance in the Times is one of the biggest newspaper boolesters in Canada, and, as was truthfully pointed out by the provincial secretary, receives more money from the Dominion government every year for printing than is annually paid by the province of New Brunswick altogether.

In another column will be found a synopsis report of the address of the chief commissioner. It is a concise and unanswerable reply to the many ungrounded charges that have been made by the opposition, through the press and on the floors of the house, of over-expenditure and extravagance in the department of public works.

It is not improbable that the house will progress in the course of a week or ten days at the most. Since the commencement of the session and the stereotyped opposition recitatives against granting supply, the work of legislation has been going on with comparatively little friction. The supplementary estimates were brought down by the chief commissioner in the early part of the week and passed without any serious opposition. The work of grinding through bills is now going on. Among the more important bills introduced during the week was a bill to legalize the elections held in January last, in the city and county of St. John and in the counties of Carleton and York. The object of the bill is to legalize any irregularities arising from the omission of the chief commissioner in the early part of the week and passed without any serious opposition. The work of grinding through bills is now going on.

Mr. Hanington is quietly feeling the members of the new house on their attitude towards a lien bill. It is understood that the make-up of the Assembly this year is more favorable towards the passing of this much needed act than ever before. If this be the case Mr. Wilson will be to the front with his lien bill again this year.

The provincial secretary has announced that the stock, etc., on the government farm is to be sold on April 24th, and the institution abolished. This movement on the part of the government is a most interesting one, including the details and the room was built by days work. One difficulty in the way of having the work done by tender was that it had to be completed during vacation.

Mr. Hanington—Was the new room in the French department built by tender? Hon. Mr. Ryan—No. It would have been had it not been for the details and the room was built by days work. One difficulty in the way of having the work done by tender was that it had to be completed during vacation.

Mr. Hanington—Was that an iron bridge, Chief? Hon. Mr. Ryan—Yes. Then, again there was the Moncton bridge which we thought might be washed up by the sea, but it was impossible. We contracted for a new bridge at a cost of \$4,000, and as the contract was not finished until late in the year, the matter had naturally to come into the next year's expenditure. The cost of the bridge was \$4,000, and they are well worth the money.

Dr. Stockett—You did not pay for all these bridges last year? Hon. Mr. Ryan—Not all. The cost of the construction of these bridges was \$17,028 and the iron in them was worth about \$10,000. He would not say anything more just now but he would be very happy to answer any questions, his department has to do with the house and country the very full information on all matters connected with his department.

The Cantata of "Esther the Beautiful" in the Gibson Baptist church, on Wednesday evening, was a decided success. The entertainment was given by some of the ladies and gentlemen of the church, assisted by friends from Fredericton. The house was filled and upwards of \$40 realized. The exercises opened with prayer by the Rev. B. N. Hughes, after which came the reading of historical parts of Esther by Rev. Dr. DeBolis, and music, the following ladies and gentlemen taking part: Mrs. H. H. Lugin, Miss Lizzie Miles, Miss Amanda Babbitt, Miss Maggie Yerxa, Miss Mary Yerxa, Miss Peterson, M. S. Hall, William Crowdon, son, Mr. Wetmore and Frank Burpee. Miss W. J. Bridges, Lower Sheffield, Sunbury County, is the accompanist, and M. S. Hall as conductor.

ACKNOWLEDGEMENTS.

Subscriptions to THE HERALD during week ending April 5th, 1890, from following parties are hereby acknowledged: W. J. Bridges, Lower Sheffield, Sunbury County, \$1.00.

THE PUBLIC WORKS.

A Candid, Honest Statement from the Chief Commissioner.

When Chief Commissioner Ryan arose to address the house on the expenditure in connection with the department of public works, he was cheered from both sides of the house. The condition of the hon. gentleman's health prevented a lengthy speech, but in a plain, straightforward manner, he laid before the committee a statement of the expenditure in connection with his department which forbade any criticism. He stated that the total expenditure in connection with his department for the past year, was \$162,861.99. Of that sum \$112,445.73 was paid for roads and bridges. The report of the supervisors would explain fully this item.

In connection with the public buildings the sum of \$10,738.06 had been spent, particulars of which are also given in the report referred to. He understood that an impression prevailed that all that sum had been expended for repairs on the buildings. This was incorrect, as reference to pages 8 and 9 of the report would show. Take the parliament buildings, and it would be seen that while the total expenditure was \$5,848.32, a very small portion of it was spent on repairs.

Was Spent on Repairs. \$700 was paid the janitor; \$800 was given to the engineer; the sum of \$275 was paid for insurance. There was also an item of \$1,446.67 for fuel. In addition to these sums, there were amounts of \$140.36 paid for labor on the buildings, \$100 for the building. Besides these amounts there were the water rates and expenditure in connection with light, which made the total \$28,000, or leaving only a little more than \$1,000 for the repairs on the building. There were many other improvements in and about the building, all of which cost money.

Coming to the Normal school we find the expenditure to be \$3,242.75; of that amount the janitor and assistant were paid \$700. At one time there were two men engaged about the building. The salaries of the two men amounted to \$800. The other one man could do the work and allowed him a salary of \$500. After a time it was found that it was impossible for one man to properly attend to the duties in connection with the Normal school, and it was decided to allow him \$300 for an assistant, making \$700 in all, or a saving of \$200 in the salaries of these officials.

Then again, we paid insurance last year on the building amounting to \$1,000, nearly all the insurance on the building coming due last year. The full bill of the Normal school last year was \$688.08, making a total of \$1,688.08, to be deducted from the sum of \$2,688.75, the whole expenditure. In addition to the general repairs there was an extra expenditure in the French department where a large room had been fitted up at a cost of \$600. That sum was included in the bill for the charter of the Normal school, and the new class-room and providing for the salaries as well as the other expenditures went to paying for the taking care of the grounds and for the repairs upon the building. And let it be made a point of honor that the amount was quite small.

Mr. Hanington—Was the new room in the French department built by tender? Hon. Mr. Ryan—No. It would have been had it not been for the details and the room was built by days work. One difficulty in the way of having the work done by tender was that it had to be completed during vacation.

Mr. Hanington—Was that an iron bridge, Chief? Hon. Mr. Ryan—Yes. Then, again there was the Moncton bridge which we thought might be washed up by the sea, but it was impossible. We contracted for a new bridge at a cost of \$4,000, and as the contract was not finished until late in the year, the matter had naturally to come into the next year's expenditure. The cost of the bridge was \$4,000, and they are well worth the money.

Dr. Stockett—You did not pay for all these bridges last year? Hon. Mr. Ryan—Not all. The cost of the construction of these bridges was \$17,028 and the iron in them was worth about \$10,000. He would not say anything more just now but he would be very happy to answer any questions, his department has to do with the house and country the very full information on all matters connected with his department.

At Acton, York Co., on the 25th ult., Alex. Hood, in the 89th year of his age, a native of London, Ireland.

At Carleton Place, York Co., on the 3rd ult., John Cunningham, aged 72 years.

At Russagaming, Sunbury Co., on the 10th ult., Mary A., widow of the late John Allen, aged 65 years.

NEW ADVERTISEMENTS.

A. LIMBRICK & CO.

FREDERICTON, April 1st, 1890. THE SUBSCRIBER begs leave to return his sincere thanks to his many friends and the public generally for the liberal patronage bestowed on him for the last fifteen years in the Tin and Plumbing business, and now begs to inform them that he has sold out his stock and trade to Messrs A. LIMBRICK and GEORGE W. DUNCAN, who will take charge on the 5th day of April, and would request all parties having accounts against the firm of A. Limbrick & Co. to render the same for payment, and all persons indebted to the firm will have their accounts rendered when immediate payment is requested. All accounts of one year's standing will be placed in the hands of his attorney for collection. Having a large stock of creamers, boilers, and Pails in stock, I will sell until the 5th May.

Creamers, 85 cents. Pails, 45 cents. Tin Boilers, one dollar. OTHER TINSWARE in proportion. A. LIMBRICK.

HARRY WILKES, 1896.

THE Standard-Bred Stallion, Harry Wilkes, 1896, will stand during the SEASON OF 1890. AT THE Government Stables in Fredericton.

TERMS: \$25 for the season; \$10 to be paid at the time of Booking the Stallion at the Time of Service. Mares coming from a distance of twenty miles and upwards will be kept for three weeks without charge. Mares will not be taken until the 1st of May. Harry Wilkes, 1896 ( sire of B. and W. Wilkes, 2nd by George Wilkes, 3rd by Sam DeLoe, 4th by Whitehall, by North America).

PERSONAL.

Concerning People Known to Most Readers.

H. L. Sturdee of St. John, was at the Queen on Thursday. Dr. Inch of Mt. Allison College was in town this week. Allen Ritchie of Newcastle, was in the city the early part of the week.

Thomas Lucy, of Fredericton, has gone to British Columbia to enter into business. Prof. C. G. D. Roberts of Kings College, has been elected a fellow of the Royal Society of Canada.

Post Office Inspector King and Dr. F. E. Barker of St. John registered at the Barker during the week. J. L. Stewart, editor of the Chatham World, has been chosen vice-commander of the Miramichi Yacht Club.

Dr. Harry Gregory late of Stanley, has commenced the practice of his profession in Newcastle, Canada N.S. Robin Jack has returned from Newfoundland where he was engaged on Government railroad surveys for several months past.

The many friends of Hon. Judge and Mrs. Fraser will be pleased to learn that they reached home from Dorchester this week. The health of His Honor continues to improve. Rev. B. N. Hughes (Baptist) has been spending a few days among his friends in Fredericton and vicinity, and he has many of them. He preached at Gibson and in the F. B. church of this city, with much acceptance.—Intelligencer.

Among the lumbermen in town during the week were Robert Connors, Wm. Beveridge, Adam Beveridge, Geo. Barnhill, Hon. James Holly, W. H. Murray, Fred. Moore, C. W. Moore, J. A. Hale, F. Stetson, C. F. Woodman, George McAvity, Ebenezer Williams, T. H. Phair, Geo. B. Dunn, J. R. Warner, F. W. Gibson, and others.

Benjamin Dayton, who for the past few years has been one of McAdam Junction's most excellent citizens, has removed to his old home in St. Mary's. He has, says the Carleton Sentinel, since the railway shops were opened there, occupied the position of a machinist, and now leaves because of conscientious scruples as to work on Sundays, which is sometimes in an emergency required of the men.

A Heavy Load. A correspondent writing from Bronson, Minnesota, to the Newcastle Advocate, gives the following description of a load of lumber: The load contained 21,230 feet of lumber, and was hauled a distant of four miles from skidway to the landing on one sled, by four horses, and would weigh seventy-four tons and three hundred pounds, equal to about 500,000 lbs. The following is a description of sled used: fourteen feet bunk, with eight foot runners, weight about two tons five hundred pounds, including chains, making a total weight of seventy six tons eight hundred pounds.

The Dominion Illustrated has a very readable sketch of the life of Senator W. D. Murray, who has just become one of the leading men of the North-West.

A law has just gone into effect in the state of Wisconsin prohibiting the teaching of any language except English in the common schools.
