Aug. 1, 1906—31

## Students, Attention!

### Rare Chance to Secure a College Education.

We have made arrangements that enable us to place within the reach of a limited number of deserving students, opportunities for securing, on easy terms, a classical or commercial education. A little work during the vacation season will secure this for the one worthily striving for such a boon, but who may not be in possession of sufficient money to realize his heart's desire. The facilities at our disposal enable us to offer a year's board and tuition at

### St. Dunstan's College

to any three young men who will fulfill the necessary, easy conditions required. These may be beginners, or former students of the College who have not been able to complete their course. In addition to this we have at our disposal four scholarships at the

### Union Commercial College

of Charlottetown. A full course in this excellent Commercial College may be won by any four young men or women, in town or country, who will fulfill the easy conditions we require. Whenever anyone satisfies the requirements in either of the cases enumerated he or she will be given a certificate entitling the holder to the educational advantages offered. A rare opportunity is here placed within reach of those desirous of acquiring a good education, and no time should be lost in taking advantage thereof. Only a little work is required in order to secure the coveted boon, and all can easily be accomplished during this summer's vacation, so that the winners may enter either college at the opening of the next academic year.

For particulars apply in person or by letter to the editor of the HERALD, P. O. Box 1288, Charlottetown, P. E. I. June 20, 1906—41

### LOCAL AND OTHER ITEMS.

Stephanus Paul Kruger Smit, grandson of the late President Kruger was arrested the other day in Rostenburg district for murder.

At Oyster Bay, the other day President Roosevelt received from Walter Wallman at Hammerfest the first wireless message from the Arctic regions.

Marshal Field's executors in Chicago, will be asked to pay taxes amounting to \$2,800,000 by far the greatest tax ever levied on the property of an individual taxpayer.

The Nyasa, a tramp steamer sailing from Montreal to Glasgow with a cargo of lumber went ashore at Vercheres, twenty-one miles east of Montreal on Saturday. This is the first mishap to an ocean going vessel between Montreal and Quebec this season.

What is said to be the largest iceberg ever seen in the Atlantic Ocean was sighted and measured from the steamer Ionian on a recent trip from Montreal, just outside the Straits of Belle Isle. It measured two hundred feet high, and was moving southward right in the track of navigation.

There was a fair attendance at the market yesterday. Potatoes were 35 to 40 cents a bushel; oats were quoted 50 to 52. Other staples did not vary much from last quotation. Raspberries sold for 15 cents a quart and a few quarts of cherries sold for 25 cents.

A cloudburst, accompanied by lightning, destroyed the church of Les Chaveaux, about thirty-five miles from Chambury, France, on Thursday last melting the church bells into a solid mass, in jarring a number of persons and causing an enormous amount of damage along the Franco-Italian border. Railway traffic by the way of Mont Cenis is interrupted.

Duclos, who tried to kill Desrochers, the insurance agent in Montreal and was sent to an insane asylum, has escaped from the institution, an automobile being in waiting for him at the gate. It looks as if his insanity was feigned. In fact Dr Villeneuve, Superintendent of the Asylum declares that Duclos is all right and that he will report to the Attorney General to this effect.

The armament of the new battleship Dreadnaught, the largest and most powerful warship in the world, will consist of ten 12-inch guns, 27 12-pounder quick-firing guns for use against torpedo boats, and five submerged torpedo tubes. Six of the 12-inch guns will be mounted on the center line of the ship, and the other four in pairs on either side. Thus eight of them can be fired in either broadside, and four, or possibly six, can be fired simultaneously ahead or astern.

George Rorette, a Syrian leper, whose presence at various points lately agitated Philadelphia and the people of Western Maryland, and the West Virginia towns is now at Goldenridge, Md., where he was examined by the City physician who after a microscopic examination of the diseased tissues taken from the man's body pronounced that the case is one of genuine leprosy. The health authorities will carry Rorette as well as possible to Goldenridge until arrangements are made for his conveyance to one of the leper colonies.

A tragic drowning accident happened at the dock yard Halifax Friday afternoon by which Harry Adams, who lived in the dock yard lost his life. The little fellow was eight years of age. The boy was playing around the yard, his father having left him to go out in a boat. The boy's mother not hearing him about went down to the waterfront to investigate and was horrified to find the cap of her child floating in the water. Assistance was secured but not before life had fled, all efforts at resuscitation being fruitless.

The body of Nicholas Brown, forty-eight years of age, was found Friday afternoon in Pickford & Back's dock, Halifax. Brown had been missing from home since July 15th. He was a stevedore and usually found employment on Pickford & Back's steamers. About four o'clock a man who was grappling in the dock for junk brought up the body and thus cleared the mystery regarding Brown's disappearance. The body was considerably decomposed.

Mr J M Courtney, Deputy Minister of Finance has resigned, his resignation to take effect on the 1st of November. He is to be succeeded by T C Boyle, who has been in the Finance department for a quarter of a century. Provision was made at the last session of Parliament for the appointment of an assistant Deputy Minister and it is understood Mr Henry T Ross Barrister of Bridgewater, N.S. is slated for this position.

Not one dollar of the sixty millions, more or less, left by Russell Sage of New York is to be given to charity. The whole of his fortune, with the exception of a small amount to his only sister, Mrs. Chapin, who died two years ago, is left to his wife unreservedly. The numerous relatives of the dead financier are dazed at the will, and are preparing to contest it on the ground that he was dominated entirely by his wife, during the last ten years of his life, and lacked the mental capacity of making a valid will.

London advices of the 27th July say: The agitation against the excessive naval construction program has proved successful and Edmund Robertson Parliamentary Secretary of the Admiralty announced in the House of Commons today that only three new battleships of the Dreadnaught class would be laid down, instead of four as originally proposed. Two ocean-going torpedo destroyers will be built instead of five and eight submarine boats instead of twelve. The total expenditure involved by the new program was thirty-four millions, instead of forty-six.

A woman who a few days ago took two buckets of water from the sea at Boulogne, France, to bath a child, in accordance with a doctor's orders, was astonished to receive an official warning from the custom officers threatening to fine her for a breach of the law. It has been discovered that there is an unrecalled law of Louis XIV forbidding the taking of sea water, lest those taking it extract the salt, and thus defraud the revenues from the salt tax. The woman was obliged to submit, but has written a declaration of the purpose for which the water was obtained, in order to secure an official permit to use sea water.

### LOCAL AND OTHER ITEMS.

His Lordship Bishop McDonald is at present on a confirmation tour in the western part of the Island.

Rev Fathers Roche and Ryan, of the cloose of St John's, Nfld, who had been on a week's visit to this Province left here for home on the Bonaville on Monday.

Rev Father Francis, a Maronite priest from New York, who looks after Syrian Catholics in these parts of America, is at present on the Island.

Rev Thomas Cullen of the diocese of St Paul, Minn., is on a visit to his parents and friends in this city. He preached a very excellent and eloquent sermon at the high Mass in St Dunstan's Cathedral last Sunday.

In the National Lacrosse Union game at Toronto on Saturday afternoon, seven thousand people saw the Tommies beat Montreal's leaders by 6 to 3.

Daniel A McDonald, Barrister of Portage La Prairie, Manitoba, a Prince Edward Islander has been appointed a Judge of the Supreme Court of Manitoba. Judge McDonald is a native of Belfast and studied law with the late John Longworth.

Thos A Edison leaves New York on August 1st on a 2,000 mile automobile tour, provided with appliances for outdoor life. He will go through Canada, making a thorough search for cobalt, which he wants to use for his storage batteries for automobiles.

Sixteen crazed Dookhobors, who had been on a fanatical pilgrimage, were committed to jail the other day to enter on a term of incarceration. The warrant for their arrest was made out on request of Peter Virgen, their leader.

Fifteen people were injured two others in the head, by a collision on the Toronto and York Railway five miles outside of Toronto on Saturday morning. One motorman took his car past the switch on which he should have waited until the car on the main line passed him.

The Prince and Princess of Wales narrowly escaped death in a runaway accident on Thursday in Bedford, where they had gone to attend the opening of the Blisworth school. The horses of the royal carriage became frightened at the shouting of the crowd and bolted, dashing the carriage against a tree by the roadside. The royal couple escaped injury, however. A score of the spectators rushed forward and prevented the carriage from overturning.

Rev Dr McCarthy of Halifax, received from Rome on Saturday official notification of his appointment as Archbishop of Halifax. It will be remembered that the announcement of his appointment had been made about three weeks ago. This official announcement confirms the press despatches of that time. The consecration will probably take place in about a month's time.

The Dominion census enumerators have completed their work in Winnipeg and from information it is believed the returns will show a population of between ninety and one hundred thousand. There is somewhat of a disappointment as many believed these figures would be exceeded. The enumerators had a most difficult task in the foreign section. The people there showed great disinclination to furnish the necessary information, fearing conscription or increased taxes might result.

It is announced that two thousand Hindoos will be at Vancouver shortly. Dr D B Davichard has a contract with a number of his agents to accompany to Vancouver the Hindoos, who are coming to work in the mill in the foreign section. Most of these are British army reservists and they are found better for work in the mills than Chinese and Japanese. The white laborers protest against the importation of the men from India. However the millers say it is impossible to get enough white men.

Three cars of live stock broke away from the shunting engine at Mimico near Toronto yesterday, tore down the grade and met the G T R express which was running under good speed. The crash was terrific, demolishing the engine and pitching cars from the track. The engine jumped and sustained serious injuries. Fireman Kenneth Campbell had not time to escape and his body was buried beneath the engine. The fire which followed the wreck became so fierce that it was impossible to rescue Campbell and he was slowly burned to death. The fifty or more passengers on the train were not hurt beyond a shaking up.

A severe storm, accompanied by rain, hail, thunder and lightning, passed over Western Canada a few days ago. The storm was felt severely in Macgregor, Manitoba. The hail strip was three miles wide, and the crops in that belt were totally destroyed. At Snowflake, Man, the grain suffered from the effects of the storm, but, as the grain heads are as yet at present very heavy, the stalks will soon stand erect again, and not much harm will have been done. At Broadview, Sask, the storm ruined the crop on several fine farms, and unfortunately for the majority of the owners, very few of these were insured. The storm swept from the west and did not travel very far in the district. A few of the losers will be recompensed by the Government Insurance of \$4 per acre.

At Springhill, N. S., on Thursday Sandy Barrett was committed for trial at Amherst, and for smarting under evidence that had been given against him by Wm Stevens he gave information against Stevens for breaking into Alva Nelson's store on the night of the 29th of June and told policeman Smith that Tom Brown would also be a witness against Stevens. The store of Brown and Stevens was arrested, one for burglary and theft, the other for receiving stolen goods. Both were committed on charges against them. They were lodged in the town lockup to be taken to Amherst next day. They broke jail and fled from the limits of the town. The authorities were dismayed at this unexpected proceeding, but took all measures that could have been taken at the time. Police officials along the railway were notified and a sharp lookout maintained in several places with the result that both the accused were captured as they were attempting to board the circus train in that town. They were lodged in Amherst jail and when they came up for trial in October it will be with more serious charges than those on which they were committed at first.

### FIRE INSURANCE.

Royal Insurance Company of Liverpool, G. B. Sun Fire offices of London. Phoenix Insurance Company of Brooklyn.

Combined Assets \$100,000,000

Lowest rates and prompt settlement of Losses. JOHN MACEACHERN, AGENT. Mar. 22nd, 1905.
