WEDNESDAY, Nov. 13, 1912.

That Explanation

To-day we publish the letter from
Sir Edward Morris, which we an-
nounced yesterday.

A perusal of it will show that it
deals with a statement he made in the
House of Assembly, last session, in the
course of a reply to a speech of the
Leader of the Opposition, Sir Robert
Bond.

Part of the statement was as fol-
lows:—"I have never had an interest,
direct or indirect, near or remote,
in any timber or mineral wealth. I
have never made an application for a
piece of timber or a mineral grant."

On a number of occasions we drew
attention to this avowal of the Prime
Minister and asked him, how he could
tolerate in his Executive the presence
of the Hon. Donald Morison if the
statement under consideration, con-
tained the rule to guide the conduct
of a Minister of the Crown.

To this query Sir Edward deigned
no direct reply. But there was an
inferential reply in his retention of
the Hon. Donald Morison in his Min-
istry, and in his attempt to justify it
in his correspondence with the Gov-
ernor on the F. P. U. Memorials.

Five months ago we drew attention
to a document filed in the Registry of
Companies here, which shows that
Sir Edward Morris had 40,000 shares
in the St. George's Lumber Company.

Then we went on to make this state-
ment which we quote, word for word
as it appeared, omitting not a word.
"This latter statement is apparent-
ly in direct conflict with Sir Edward's
statement in the House of Assembly
last February, viz:—

"I have never had an interest direct
or indirect, near or remote in any
timber or mineral wealth."

It will be observed that we drew
attention to the apparent conflict be-
tween Sir Edward's holding of the
40,000 shares in the St. George's Lum-

ber Company and his statement that
he had never had any interest, direct
or indirect, near or remote, in any
timber wealth.

Now mark the dishonest misquoting
in Sir Edward's letter. Read it and
you will find the following:
"You further observed this state-
ment is apparently in direct conflict
with my statement in the House of
Assembly last February that 'I have
never had any interest, direct or in-
direct, near or remote, in any timber
or mineral wealth. I have never made
an application for a piece of timber
or a mineral grant.'"

If our readers will turn now to
what we state is in apparent conflict,
and they can verify it by turning to
our issue of June 12th last, they will
observe that we did not bring in the
sentence, "I have never made an ap-
plication for a piece of timber or a
mineral grant." We did not quote
this as being in conflict with the
statement in the Registry. We did
not quote it in all in any such con-
nection as Sir Edward Morris un-
fairly and improperly does, in his
letter to us and Mr. Prince.

We did not say there was an ap-
parent conflict between his state-

RAILROAD MAN HAD TO LAY OFF

Until He Took GIN PILLS

Buffalo, N.Y.

"I have been a Pullman conductor on
the C. P. R. and Michigan Central for
the last three years.

About four years ago, I was laid up
with intense pain in the groin, a very
sore back, and suffered most severely
when I tried to urinate.

I treated with my family physician
for two months for Gravel In The
Bladder but did not receive any benefit.
About that time, I met another railroad
man who had been similarly affected
and who had been cured by GIN PILLS,
after having been given up by a pre-
minent physician who treated him for
Diabetes. He is now running on the
road and is perfectly cured. He strongly
advised me to try GIN PILLS which I
did—with the result that the pains left
me entirely."

ment that he has never applied
for any timber land and the state-
ment in the Share List. What has the
contents of a Company Share List to
do with the name of the applicant for
a license to cut timber? We have
never stated directly or indirectly,
openly or by innuendo, that Sir Ed-
ward's statement as to never apply-
ing for timber land was in conflict
with any fact.

Why has Sir Edward falsified our
statement, both in his letter to us
and in his letter to Mr. Prince. Why
has he raised a false issue? Why has
he attempted to confuse the issue?

Our statement was that there was an
apparent conflict between his statement
of never having an interest in timber
wealth and the record in the Com-
pany's Office.

Now Sir Edward, is there not a con-
flict between the two records? Does
not the Company record show that
you had shares in the St. George's
Lumber Company? Is it not a fact
that the St. George's Lumber Com-
pany had a license to cut timber? Did
not the Company possess timber
wealth? Were you not a shareholder
in that timber wealth? How then
did you come to say that "I have never
had any interest, direct or indirect,
near or remote, in any timber wealth."

Now what is the testimony:
(1) There is the official record of
your statement in the House which
you admit;
(2) There is the testimony of the
Company's Office record;
(3) There is the admission of Mr.
Prince, the promoter, about the 40,000
shares;
(4) There is the admission of Sir
Edward Morris yourself.

The last three prove conclusively
that Sir Edward Morris had 40,000
shares in the St. George's Lumber
Company. The last two prove that he
got them in lieu of cash for legal ser-
vice. Mr. Prince proves that the Lum-
ber Company held timber limits at
St. George's.

Surely then there is overwhelming
evidence that a marked, clear, and ir-
reconcilable conflict exists between
Sir Edward Morris's statement in the
House of Assembly last February,
which was particularly and limit-
ed, and set forth by citing these words:
"I have never had any interest, direct
or indirect, near or remote, in any
timber wealth," and the actual
facts. Sir Edward Morris has not
reconciled the discrepancy we
pointed out. He has not even at-
tempted to reconcile them. On the
contrary he has trailed a red herring
across the field of evidence and
chased a false trail of his own mak-
ing.
