Steele's horse was then recovered while the Jackson animal was left at Dutton. On Tuesday the magistrate will give his decision.

The summer frontpiece of the American Agriculturist for August is a pretty fishing scene; a woodland nook, quiet and cool, where the lights and shadows of the trees play over the still surface of the stream and lily-pads float on the water. A young fisherman sits among the grass on the bank with fishing line cast out and one finger lifted in suspense at the instant of "A Sure Catch." The girl behind him looks over his head with breathless interest, and even the dog guarding the lunch-basket is spell-bound with the importance of the crisis. The picture is the introduction to a number full of bright ideas and practical interest.

**THE ONTARIO AND QUEBEC WILL NOT GO THROUGH ST. THOMAS.**—From the statements made in the London papers Saturday, it is evident that the extension of the Canadian Pacific to the Detroit river will be made from London. It appears that the company have filed in the registry office plans of its western extension through the city, west from Richmond street crossing diagonally both Richmond and Ann streets, crossing George street just north of Mount Pleasant, and striking Oxford street at a point north of Carling's brewery, and crossing the river just north of the present Oxford street bridge.

Revs. Crossley and Hunter will visit Windsor in August.

SEAFORTH, July 17th, 1888.

Editor of the ENTERPRISE:—

With your permission, I would like to address a few remarks to the teachers and pupils of West Elgin on the Entrance Examination. This year's examination, though it has not been by any means an easy one, has, I think, been in many respects an excellent one. If we except the Arithmetic, which was, without doubt, too severe for entrance pupils, there has not been a single "bad" paper. Not only was there an entire absence of catch questions, but some of the papers were a liberal education in themselves. The eighth question of Section I. in English Literature, for example, contains more culture than whole books on "Department."

Now, as to the answers these papers called forth, a word may not be out of place.

The general style of answers was certainly worthy of commendation; literary and composition in particular being much above the standard of a year or two ago.

While this is so, and the teachers of West Elgin are to be congratulated that it is so, still I think they will not take it amiss, if I point out one or two particulars where there is still room for improvement.

Firstly, then, as to spelling. In many cases it was simply deplorable. This is the more to be regretted, as spelling, if not mastered before the Entrance Examination, will more than likely never be mastered, and prove an ever recurring source of misery.

As you are aware, the department requires the examiner in every case to deduct a mark for each misspelled word, wherever found. Twelve marks was a common deduction on one paper; sometimes an ambitious candidate reached twenty. This applies equally to those who failed and to those who were successful. In all papers, moreover, mistakes of omission of a letter such as spelling "same" "sam," and errors in the more difficult proper names were not counted. Such attempts as "Pit" and "Duton" were common.

Quite as serious as these mistakes was the utter lack of punctuation. Many had not the remotest suspicion of the use of periods or capital letters; others again divided words such as "white" if they occurred at the end of a line, thus "w-hite."

Then, too, the symbol "&" occurred again and again in literature and composition, subjects above all others which should be models of style and free from everything not in good literary form.

Another serious defect, and one that deducted seriously from neatness, was the lack of all distinguishing marks between two questions. Not only was there no space left after one question was finished before commencing the next, but in many cases question nine would end and question seven begin on the same line.

Of course it is always understood that there were many papers quite free from reproach in the respects referred to above. A little attention to these points, however, and some previous drilling on the part of the teacher would remedy these defects where they exist and make the papers of the pupils of West Elgin compare favorably with the best in the Province.

Thanking you for your paper, I remain,

Yours truly,

JAMES SHORT.

### THE WALKING DELEGATE.

MONTREAL, July 20.—Judge Dandurand to-day rendered judgment in the case against Walking Delegate Dalton of the Knights of Labor, accused of besetting ship laborers at the present strike on the wharf. In rendering judgment the judge said:

"The law for the protection of both is as perfect as any law can be. The defence did not deny that the accused was watching and besetting and here came in a most extraordinary privilege that has been extended to labor—that is, the right in case of a strike to obtain or give information. Our law on this point is exactly the same as the English law."

"The whole question rested on the motive of the accused. The men the prisoner represented wished for higher wages. He asked that a raise be granted. This was refused and his men then left the ship. None of the information he had a right to have. Did he leave then? No, he stayed and asked the non-union men not to go to work in the name of God."

"His presence there under the circumstances threatened the liberty of the non-union men and the liberty of the subject will always be maintained in this court."

As this was a test case he would impose a nominal penalty of \$2 or eight days.

An appeal will be taken.

A burn or cut will heal quickly and leave less scar if Victoria Carbolic Salve is applied at once.

### UNDENIABLY TRUE.

"I have used Dr. Fowler's Extract of Wild Strawberry and found it a sure cure for summer complaint. I was very sick and it cured me entirely." Alexander W. Grant, Moose Creek, Ont.

**CROP PROSPECTS IN THE NORTH.**—Senator Ogilvie, of Montreal, who has just returned from a trip to the Pacific coast, says: "The crops from the boundaries of Manitoba to the west, where they have usually been short, are simply splendid, and better I never saw. I saw wheat in the ear standing four feet high, and as thick as it can stand for hundreds of acres. The farmers have usually complained of drought, but this year there has been plenty of rain, if not too much, but the appearance of the crops is totally beyond anything I ever dreamed of. It was a truly a hopeful man of Manitoba."

### Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and until Ayer's Sarsaparilla did its effective work as an Alterative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to severe headaches, the result of stomach and liver disorders. A perfect cure has been effected by Ayer's Sarsaparilla.

**Permanent Relief.**  
"Every Spring, for years," writes Lizzie W. DeVeau, 262 Fifth st., Brooklyn, N. Y., "I commenced the use of Ayer's Sarsaparilla last March, and have not had a headache since that time."

"I suffered from headache, indigestion, and debility, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A. St., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lykens, Pa., writes: "For years I have suffered dreadfully, every Spring, from headache, caused by impurity of the blood and biliousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

When Mrs. Geneva Belanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect.
