London, Saturday, Sept. 27.

ARE THE ELECTIONS AT HAND? The activity of Ministers at the presen time points to an early dissolution of Par-

The time is no doubt thought to be op

ortune. In Ontario, Quebec and Manioba the farmers have been blessed with fairly good harvests-better, possibly, than can be looked for in all of these three Provces next year. Then the situation in the United States may be regarded as favorable. Congress is not likely to pronounce an opinion on the subject of reciprocity with Canada this session, but it is al-most certain to pass the McKinley Bill. Whatever the effect of this measure will be opinion on the subject of reciprocity ultimately, they cannot be seriously felt by Canadian farmers before the close of the present year. It is easy for the present to say, as Ministers and their friends are say. ing, that no harm is going to be done to Canada, and that if we so desire we may Canada, and that if we so desire we may readily find a good market for our products olsewhere. There is nothing like striking the dignified attitude and asserting our independence of the United States. Ministers will reason to them-pelves, "The people do not know any better; they cannot know better sooner than six months, anyway, and they will admire our pluck. Then if we go to the country before Congress has had a chance to declare for reciprocity we can say that the Americans do not want it, and point to the dropping of the Butterworth Bill and the Hitt and Sherman resolutions as proof that they do not." This, we firmly be-lieve, is at the present time the Ministerial programme, and it explains the activity of Sir John Macdonald, Sir John Thompson, Sir Hector Langevin and their col-leagues in various parts of the country. It has never been the First Minister's po to spend his energies for nought. At his time of life he cannot afford to campaign

time of life he cannot aford to campaign the country a year ahead of the general elections, and he has the advantage of knowing precisely what he intends to do. Meetings in Ontario, meetings in Quebec, meetings in the Lower Provinces, meetings In Manitoba, all going on at the same time, do not mean a frolic. There is going to be olution of Parliament and a general election this year unless Ministers find that public sentiment is running very strong

Meantime what are the Liberals doing Where are Mr. Laurier and Sir Richard Cartwright? Our counsel to them is to take the field at once.

A NEW MORMON REVELATION. Either the Utah commissioners, who are

Government for its efforts at their suppression. No one is allowed promotion in the church unless he professes open belief in polygamy as its fundamental doctrine and is ready at any time to violate the laws which have been made against it, and the commission recommends that still further legislation in support of existing laws should

be properly passed by Congress.

The Mormon Church President, on the cther hand, denies that plural marriages are The Mormon Guest that plural marriages are other hand, denies that plural marriages are still been marriaged by the church authorities, or that the church in any way now teaches polygamy. He admits that he heard of one such case having taken place in the Endowment House, but explains that it was done without his knowledge or consent, and one without his knowledge or consent, and one such case have down. The Mormon President concludes by reiterating that the church means to obey the law forbidding plural marriages.

Time will tell whether this declaration

is or is not made in good faith. If the chief of the Mormons tells the truth it is their time in promoting complete reciprochief of the Mormons tells the truth it is a strange thing that the Utah commissioners have been so badly misled. His declarations, which may have a wide effect are important to Canadiaus now that we have a genuine Mormon colony in the Northwest, with an ex-M. P. P. at its head -a polygamist in principle, and who de-fends plural marriages en every available occasion, though he has not yet ventured into maintenance. into matrimony of any description.

-Some idea of the exodus of Canadians to the States is afforded by the Lewiston (Me.) Journal, which prints a portion of its paper every day in "Canadian French." Maine is rapidly becoming Canadianized. This is practical annexation!

that it is the very thing which their souls have all along desired. Well, if that is true, why do they not intimate to the Goverament of the United States that they desire to establish friendly trade relations between the two countries? We are sure that the Liberal party in Canada will not interpose any objection, granting that the terms are reasonable and that free trade is

In so far as the Liberals are concerned, it is not a party triumph they desire, but a measure that will bring prosperity and con-tentment to the Canadian people and save them from the ruinous effects of high customs tariffs on both sides of the inter-national line. But it may well be asked, if the Government at Ottawa desired to promote free commerce with the United States why did they bring in and carry the Foster Bill? Why did they in this matter set a bad example to the Congress of the United States—an example which was promptly followed by the production of the McKinley Bill? And why, if they have always favored reciprocity with the United States, did they speak against and vote down the resolutions proposed in Parliament setting torth its desirableness in the interest of all classes of the Canadian people? Why did they allow a member of the Government, so late as last session to de-clare against any measure of reciprocity ber of the Baptist body, and Hon. Mr. Government, so late as last session to de-clare against any measure of reciprocity with the United States, and to say that even reciprocity in natural pro-ducts was a thing to be rejected by Canadians? They are not in favor of reci-procity. They are as hostile to it as they can be, and any professions recently made have no object but to deceive the people. There is foolish talk indulged of our

suffering no loss by the operation of the McKinley tariff, and that we have only to look for equally good markets in other countries to get them. We find that even Lord Stanley, the Governor-General, has been brought forward to speak upon this subject on the same lines as his Ministers. The Governor-General ought to know better, and the Canadian people will expect him to mind his own business. This is a matter that, so far as the interests of Canada are concerned, they intend to settle in the way which they think is best, and we can tell him and his advisers that the days of Foster tariffs are well nigh at an end.

THE M'KINLEY BILL BECOMES LAW. The Conference Committee of the two Houses of the United States Congress has agreed upon and reported the new Tariff Bill, leaving the taxes of special importance to Canadians substantially as they were when the measure passed the Senate. The taxes on horses and mules has been increased from 20 per cent. to \$30 per head; cattle over 1 year old from 20 per cent. to \$10 per head; cattle under 1 year, which have been free will now be taxed \$2 a head; hogs will be taxed \$1 50 a head instead of 20 per cent.; sheep over a year old will be taxed \$1 50 a head instead of 20 per cent.; under 1 year old, 75 cents a head, instead of 20 per cent.; all other animals remain as now -20 per cent. Hay will be taxed \$4 a ton, instead of \$2; eggs, now free, will pay a tax of 5 cents a dozen; barley, 30 cents a bushel, in place of 10 cents; flax seed, 25 cents a bushel. And so on, throughout the entire list. The taxes on oats, oatmeal, cheese, beans, onions, apples, potatoes, poultry, straw and every other farm product have been in-creased. Nickel will be free; that will help the mines at Sudbury, Ont., where there is agents of the United States Government, or Wilford Woodruff, "President of the Church of Jesus Christ of Latter Day Saints," are guilty of stretching the truth to an unwarrantable extent.

The report of the commission for the year ending 1st September, 1890, gives a far from flattering account of the results of legislation in suppressing the evils of polygamy. The church, it is pointed out, still holds to the perniclous doctrine of plural marriages and denounces the National Government for its efforts at their suppressions. a rich "find." A duty of \$ cent per pound port duty on logs imposed by the Dominion Government. The cost to the Dominion lumbermen of the continuance of the export duty will be \$1 per 1,000 feet on white pine boards.

It is provided that the new scale of duties shall take effect from Oct. 6, next. All goods in bond on Oct. I can remain in bond to Feb. 1, next, and may be withdrawn at any time on payment of the old duties where there has been an incept on payment of the old rate. No provision is made for goods on shipboard or in transit. All goods that arrive in port on

Oct. 6 will pay the new rate of duty. If the authorities at Ottawa had occupied laws to prevent Canadians from interchang-ing products with their neighbors, it might have been possible to save our people from

"Knoxonian's" contributions to the Can ada Presbyterian are always bright and interesting. In the last number he approaches the young man of the period with the pertinent inquiry, "How do you propose to spend the evenings of this coming winter?" The question deserves the most winter ?" The question deserves the most careful consideration. Anyone can 'put in the time" by going out nearly every even-

GIVE US RECIPROCITY.

If it is true that the Government at Ottawa favore free trade with the United States, why do they not take steps to obtain it? A chorus of Ministerial voices has recently been singing the praises of reciprocity, and telling friendly audiences that it is the very thing which their abuls have all along desired. Well, if that is in added stores of information, but in the development of self-reliance and self-con trol, and in the attainment of a serious pu

> PERSONAL AND GENERAL. -The world moves. Sweden has de clared in favor of free trade in the general lections just held.

-The advantage of working at lowly employment is that when you are thrown out of it you haven't far to fall.

\*\*\* -Queen Victoria is very tenacious of the rule that she shall hear at least once a week from members of her family absent in other lands. Do those members who are not absent letter alone?

+++
-The newspapers which have been stating that Hon. Mr. Harcourt, the new Provincial Treasurer, belongs to the Baptist Church, were mistaken. The honorable gentleman is a member of the Church of England, and, according to the Telegraph, published in Welland, Mr. Harco nome, he "takes an active interest in the Sunday school and other departments of church work, and also in non-sectarian evan-gelical effort." Hon. Mr. Dryden, another Bronson a Presbyterian. They are all good

-The Protestant Oka Indians, who have seen told by the Dominion Government that unless they move away from their old location in Quebec Province, or become members of the Catholic Church, they will get no further assistance from the Governnent, have sent a strong reply to Ottawa. They point out the inconsistencies in the various letters sent them from the department, and refuse either to change their religion or move to Muskoka, as the Government desires. They add: "We want you to tell us that you will treat us at Oka just the same as if were white people or as if we were Roman Catholics." ###

-May a clergyman interest himself in horse racing and baseball? A pastor in Saranac, Mich., has been enthusiastically supported by his flock in his contention that rse racing is not incompatible with the work of the Christian ministry. Of another sort is a congregation of Rockland, Pa., also a Methodist, whose minister's passion is for baseball. They, when they were invited to attend a game to be played for the benefit of the church, rebelled and locked their sporting preacher out of the meeting house. Whatever may be said in defense of an innocent fondness for horse races and base-ball contests, deprived of the accessories of gambling, drinking and swearing, it is certain that there is nothing which is doing so much to check the progress of the Church as the increasing disposition to make the opportunities for personal gratification in the pastoral life equal to those of any secular

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such af-fections.

News Items from the Canada Business

News Items from the Canada Business College, Chatham, Ont.

We must apologize for not sending any news items for the past three weeks. We have been so exceedingly busy since we returned from our summer quarters as Courtright that we could not find time. Everything is now in excellent running order in the whole school, and intending students would find it greatly to their advantage to join us as soon as possible. Many of those who were with us last summer have returned to take an extended term with us. We have now an excellent attendance for this season of the year, and the prospects are exceedingly bright for October. Many distant points are now represented with us, and applications have been received within the past few days from Northwest Territories, Montana, Manitoba and Illinois. Mr. Cauningham, of Hancock, Mich., brought his son here for a course of instruction with us a few days ago. Miss Gates, of Vyner, and her brother Thomas have recently commenced with us. She has entered the shorthand department, while her brother takes the business course. These make four we have had from the same family. Our work and our students prove our best advertisements. Miss Flo Smith, of Morpeth, has commenced a course with us to-day. Our attendance of shorthand students is fully double what it has ever been before at this season of the year. Miss Marie Weir, from Nissouri, Oxford county, has returned to complete her shorthand course. College, Chatham, Ont.

A full line of public and high school sooks are at Allaster's.
