Warehouses For G.T.R.

Montreal, July 3.—The organization of a company to establish a chain of terminal warehouses from Montreal to the Pacific coast, in connection with the Grand Trunk and G.T.P. Railway systems, was announced yesterday.

The organization of the company, which will be known as the Grand Trunk Terminal Warehouse Co., Ltd., follows logically on the problems of railroad traffic congestion arising from the unparalleled activity in all lines of business throughout Canada. Contracts have been entered into between the new company and the Grand Trunk and Grand Trunk Pacific, by which the new company undertakes to establish and operate a chain of warehouses across the country, to handle the traffic of the railroads, and to agree to turn over to the new company all its warehousing business at the various points for a period of thirty years.

The capital of the company will be \$10,000,000, of which \$5,000,000 will be issued at the present time, and \$5,000,000 common stock.

Chamberlain Deplores Apathy.

London, July 3.—(C.A.P. Cable.)—Austen Chamberlain, presiding at a luncheon in honor of Hon. George E. Foster at the Constitutional Club yesterday afternoon, said that they were engaged in an effort to link up the Dominion by a system of Imperial preference.

"We blush to think," he said, "that for a moment you were prejudiced from the hope that the Motherland itself should take part in such a commercial union, but for a moment only." (Loud cheers.) "Before long, however, we will have a different Government. Each by-election reinforces the moral that before long there will be a Government that will grasp the hand you extended to us whose proudest duty it will be to co-operate with you in making these bonds of commercial union which will foster and cement the strength of the Empire."

Fates Reports on Fruit Crop.

St. Catharines, July 3.—Robert Thompson, a prominent fruitman and officer of the St. Catharines Cold Storage Co., stated yesterday that there is positively no foundation for statements appearing in the local press to the effect that the fruit outlook in the Niagara district is poor.

The report, he says, is entirely misleading. Grapes never looked better, according to Mr. Thompson, who is in a position to know. Tomatoes are coming in fine. Currants and gooseberries are reported as good.

Mr. Thompson states prices will be rather high owing to the increased demand of the warining and jam factories, which have no stock on hand and which are contracting for a large supply of fruit this year. A few growers are trying to raise the poor crop in order to obtain high prices.

Plot to Kill Kitchener.

London, July 3.—(C.A.P. Cable.)—A Daily Mail special from Cairo states that the British minister to the Ministry of the Interior, public prosecutor and commandant of the Cairo police, conferred with Lord Kitchener yesterday morning. It is understood the conference was connected with the discovery of an alleged conspiracy to assassinate Premier Kitchener and the Khedive, who is in London. Four persons have been arrested, and the investigation is being continued.

Methodist Minister Dead at Barrie.

Barrie, July 3.—Rev. Wm. Thornley, a retired Methodist minister, died here very suddenly yesterday shortly after breakfast, death being due to acute indigestion. He was in his 74th year. His wife and daughter at home survive him. Rev. A. K. Burks, of Dundas, is a nephew. Interment takes place at Newmarket on Thursday.

Brantford, July 3.—To-day's game here was a listless affair, but Brantford cleaned up on the series with Berlin by making it three straight. The Red Sox hit Connolly hard, while Baker was wild although he kept the hits scattered. Umpire Mr. J. Ira Davis made the game a burlesque here to-day by repeatedly talking to the stands, and he will be reported to President Fitzgerald. Reardon, the new Red Sox southpaw, reported here to-day. CHAMPION MAVARACS WIN AGAIN.

The Mavaracs added another scalp to their string of victories last night by defeating the Cubs by a 7 to 6 score, this being the second victory in two days, defeating New Hamburg 7 to 5 on the holiday.

Master, who pitched for the Mavaracs, pitched fairly good ball except in the third, when one hit and two walks forced in a run. In the sixth inning the Cubs got two runs and led by 6 to 5. The Mavaracs went in behind them, and after a few innings, scored two runs by clean hitting and forged ahead, 7 to 6.

In the seventh with two Cubs on bases and one out, Yankes relieved Master and held them down until darkness. The Mavaracs play Union Jack on Thursday night at 8.45. Come and see some real fast ball, admission free.

More For Toronto Harbor.

Toronto, July 3.—At a meeting of the Toronto harbor commissioners, held yesterday, a letter was read from Hon. F. D. Monk, Dominion Minister of Public Works, in which he expressed himself with being well pleased with the work so far accomplished by the new board and convinced of the great possibilities of Toronto harbor. He was fully alive to the necessity of the work in connection with Ashbridge's Bay and the other harbor improvements now being undertaken and promised to do all in his power to bring them to a successful conclusion. When they had occasion to visit Ottawa in connection with Toronto harbor improvements he would make it his business to see that they were well received.

Wants to Be Friendly.

Pekin, July 3.—Lu Cheng Hsiang, the new Chinese Premier, yesterday expressed to some of the foreign ministers here his desire to hold and strengthen the friendly relations between China and the Powers. He said he hoped the powers would shortly recognize the Chinese Republic.

The National Assembly yesterday passed the first reading of a bill providing for Chinese control of the post office, which will result in the dismissal of 150 foreign employees. However, that foreign management of the post office is essential, and expressed the hope that the Powers would intervene.

Pitcher Kubat Brought in as a Pinch Hitter.

Hamilton, July 3.—In a loosely played game here to-day, Guelph defeated Hamilton by a score of 6 to 5. In what would have been a hard fought pitchers' battle if it had not been for the numerous homebatted players on both sides, Guelph won a two-run lead in the initial inning by leaning heavily on Teed's delivery, but after that the runs all resulted from errors. Schuman, the big Guelph pitcher, seems to have the "ink" on the Hams, but he was lucky to win to-day as he was responsible for the most costly errors made. Killilea was ordered out of the game by Manager Lee in the sixth inning.

Close Race In W. F. A.

The race for the Western Football Association trophies is narrowing down. It is a long time since some of the districts have been so closely contested as this year.

In the central district the race is especially close, the standing at present being:

BIG BALLOON EXPLODES

Vaniman and Four of Crew Meet Terrible Death.

Aeronaut Who Planned to Cross the Atlantic Was Making an Exhibition Flight Before Three Thousand Persons When Sun's Rays Exploded Great Gas Bag, Hurling Occupants to Their Death.

Atlantic City, N.J., July 3.—While three thousand spectators stood too startled to utter a single sound, the big dirigible balloon Akron, was shattered by the explosion of the gas bag, and blown to atoms, at 6.38 yesterday morning, a half mile off shore, over Absecon Inlet.

Calvin Vaniman, who had built the airship, with the idea of flying across the Atlantic Ocean; Calvin Vaniman, his younger brother; Fred Elmer, Walter Guest, and George Bourhill, his crew, were instantly killed.

Calvin Vaniman, who started life as a teacher of music in Illinois College, later became a photographer and turned to ballooning to further his photographic work. He designed several balloons and was the chief engineer and the energetic spirit in the Wellman enterprise which failed.

The dirigible was sailing at a height of 1,000 feet, and had been in the air since 6.15. The huge envelope, containing 400,000 cubic feet of gas, was rent by the terrific force of the explosion, perhaps caused by expansion from the sun's rays. It burst near the middle. A mass of flames hid the ship from view.

For a space of possibly ten seconds the half million dollar dirigible was invisible, while the air about the spot where she had been hovering seemed to be all flames. The fire dissipated and then the ship's outline against the sunrise was seen to fall like a plummet.

First the understructure, or car, in which were perched the unfortunate men, held in by a mesh work put on after the second trip of the balloon three weeks ago, unable to escape, broke away from the envelope. It up-ended, the how turning first in a slow arc. Then it reversed suddenly and plunged downward. Directly above, twisting in a long spiral was the gas bag, a smoking mass of rubber and silk, with flames shooting out from its torn sections as it collapsed.

It fluttered a moment and then streaked down after the car. In the recent, something which appeared to be the body of a man, shot out to the left of the wreckage and hit the water before the rest of the descending mass. It was reported that this was the headless body of Calvin Vaniman. At 8.20 a.m. a message was relayed ashore from rescuers that this body had been recovered, and that the other four members of the crew were entangled in the wreckage in 18 feet of water. Thousands of persons from every

War Against Strikes.

London, July 3.—War against the strike as a weapon for workmen has been declared by some of the old time labor leaders of Great Britain, including men who have heretofore advocated extreme measures to obtain better wages and conditions.

Philip Snowden, one of the cleverest of the Socialist members of the House of Commons, was among the first to sound the warning that the men were gaining nothing by continuing strikes.

Now Keir Hardie, his more extreme colleague, says he is more than ever convinced that legislative action would produce more permanent results than could be hoped for from strikes.
