Colonial Expenditure.

A discussion recently took place in the British House of Commons which possesses considerable interest, especially at a moment when the colonial policy of the empire is being watched with such painful anxiety.

there is the colony of Labuan, a most insignificant affair, nothing more in point of value, in fact, than a coal mine, and a very bad one at that; and yet it has, ever since its establishment, been a charge of £4,800, a year upon the Imperial Treasury.

The Montreal Herald has, it thinks, good reason for believing that the presence in Canada of Sir Francis Hincks is not so completely dissociated from the politics of the country as that distinguished gentleman sought to make people believe.

European Mail Summary.

Mr Gladstone has left London, for Wimer Castle—that pleasant castellated mansion which stands midway between the cliffs of Dover and the ancient fishing village of Deal, and which has been placed at his disposal by Lord Granville, the Lord Warden of the Cinque Ports.

Canadian Mail Summary.

Our Canadian files are to the 27th ult. It would appear that Sir John Young met with a very enthusiastic reception at Halifax, the miserable ill-mannerisms of the "Antis" to the contrary notwithstanding.

The reception accorded to His Royal Highness Prince Arthur at Halifax was indeed hearty and grand. The Prince having arrived on Sunday, the formal reception was postponed till the following day, and was characterized by the usual formalities appropriate to such occasions.

Australian and New Zealand.

The Melbourne and other colonial papers complain bitterly that the British Parliament has been asked to pay for the presents made by the Duke of Edinburgh during his recent visit.

Later telegrams from Galie give the chief items of news coming by the July mail. From Victoria we learn that the revenue is largely increasing, but that business was dull.

From Sydney it is reported that meat preserving for Europe is being largely carried on. Fresh discoveries of diamonds and gold have been made.

A new Ministry has been formed in New Zealand, whose policy towards the rebels was to be of a defensive character. The surrender of 200 rebels is mentioned.

The last Police Court Scene.

EDITOR BRITISH COLONIST.—In your account of the Court proceedings yesterday I WAS SURPRISED TO HEAR OF SUCH A DISGRACEFUL SCENE AS THAT WHICH TOOK PLACE AT THE POLICE COURT, WHICH I CAN PROVE TO BE SUCH, AS I EITHER DRANK OR IN THE PLACE HE STATED, WAS COMING OUT OF THE TELEGRAPH HOTEL AT THE TIME I MET HIM.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Balm there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLANTATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world.

As an antidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION BITTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.

Notwithstanding the large importation of St. Croix Balm, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utterly astonished the natives.
