Trade With United States of Much Heavier Volume in Past Year - French and German Statistics

OTTAWA, Dec. 13 .- The section of the annual report of the department of rade and commerce, dealing with trade etween Canada, Great Britain, France and Germany, has been issued. The re port shows that during the fiscal year which closed on March 31, last, Canada's total trade with Great Britain mounted to \$247,551,912, as against \$245,304,984 for 1910. A considerable in crease in imports of British goods and decrease in exports to Great Britain re shown. The total imports amounted to \$110,586,801, as compared with \$95,670,877 in 1910. Exports last year unted to \$136,965,111, as against

\$149.634.107. Canada's total trade with the United States for the same twelve months reached a total of \$413,812,003, as comared with \$352.221.327 in the previous year. Both imports and exports increased, the former from \$239,070,549 in 1910 to \$294,415,202 in 1911, and the latter from \$113,150,778 in 1910 to \$119,396,801 in 1911.

The duty collected on imports from Great Britain amounted to \$22,767.811 nd on imports from the lated Si tes

The figures of trade with Germany show a slight increase, the total for the year being \$12,750,216, as compared with \$10,459,455 for 1910. The figures show that while Canada bought | more largely from Germany, the increase in exports from Canaad to Germany was very slight, the figures being \$2,501,-191 for 1910 and \$2,663,017 for 1911. The trade with France increased both 755,403 in 1911, as compared with \$10,-170,903 in 1910, and exports \$2,782,092 in 1911 as against \$2,640,648 in 1910. Canada's total trade in 1911 amounted to \$769.443.905, as compared with \$693 -211,221 in the previous year, and the duty collected increased from \$60,709,-757 in 1910 to \$72,335,639 in 1911. Exnorts as well as imports of coin and bullion show very large increases, the mports being \$6,017,189 in 1910 and \$10,206,210 in 1911, and exports \$2,-594,536 in 1910 and \$7,196,155 in 1911.

# EX-MAYOR SCHMITZ

Judge Lawler at San Francisco Orders That He Be Brought to Trial on Old Indictments

SAN FRANCISCO, Dec. 13.-After more than four years of comparative idleness, indictments accusing Former Mayor Eugene Schmitz of bribery in connection with the municipal scandal that swept this city shortly after the fire of 1906, were given renewed importance today when Superior Judge William P. Lawler ordered that the defendant be brought to trial as soon as District Attorney Charles M. Fickert could prepare evidence.

That the order of the court came as a surprise, not only to the defense but to the district attorney, was evidenced and by Assistant District Attorney Fred Berry. The latter asked for a few days to prepare the case.

The indictments on which Schmitz will be brought to trial unless the district attorney convinces the court that there is no possibility of conviction, were returned by the grand jury in May, 1907. There were 14 indictments based on the trolley and gas cases. In the trolley cases Schmitz was accused of having accepted \$50,000 in gold coin, asserted as having been shipped here from the east by officials of the United Railroads, for the purpose of obtaining from the then mayor permits to operate cars by overhead trolley. These indictments have nothing in connection with the indictments that resulted in the conviction of Schmitz and Abe Ruef, the political boss at the time Schmitz was mayor.

## ACTION FAILS

vancouver Case of Grant versus

VANCOUVER, Dec. 13.-An action gainst Mr. A. F. McMillan, the wellknown jeweler, was dismissed by Mr. Justice Murphy in the supreme court this afternoon on a plea for non-pursuit made by Mr. McMillan's counsel, G. R. Russell. The case was heard before a ury, but was taken from them by the judge, who did not consider that there was evidence to warrant him in placing it before them.

The complainant in the case was H. Grant, a former clerk of Mr. McMillan's The evidence showed that \$5 had been missing one day on a sale made by Grant, and when the cashier had called Mr. McMillan's attention to it, he had called Grant into the diamond room, which closed with a spring lock, and told him that he must have the \$5 back. He suggested that Grant should borrow it if necessary from one of the other men, and he had gone out to

do so. Grant denied that he had ever had the \$5, which had probably fallen out of the cash carrier. He brought action to recover the money on the ground that It had been extorted from hm, and also sought damages for false imprisonment and wrongful dismissal.

# DECIDE ACTION

School Trustees Jay, Riddell, McIntosh and Christie Prove Unlucky in Lottery and Must Seek Re-election

With the luck against them, Trustees Jay, McIntosh, Christie and Riddell were, by the fortune, or ill-fortune of chance nominated to retire at the end of the present year from their offices of school trustees and appeal to the electors at the date of the forthcoming civic elections should they desire to again have a hand in the administration of the city's school affairs. They will all again be candidates, so announcing themselves after the result of the draw was ascertained at last night's meeting of the school

board. Owing to the upsetting of the civic elections by Mr. Justice Gregory last spring, following the successful action by Mr. B. J. Perry against Mayor Morley, the procedure to be followed by the school board in order to determine which members of the board should retire at the end of this year was fixed by the special legislative enactment under which a special election was held on April 22 last. The entire board was then returned by acclamation, but the regulation providing for the retirement of a certain number of members each year was, by the upsetting of the January election, so far made inoperative that the special act stipulated that in case of re-election by acclamation four members would retire at the end of the year, the retiring

members to be selected by lot. The appeal to the fates was made at the conclusion of the meeting. Seven envelopes containing cards on four of which the curt injunction "Retire!" was written, were shaken up and each member of the board drew one, Superintendent Paul officiating for Trustee Christie, who was unavoidably absent. It was with considerable amusement that the trustees made their respective iraws. Of the four retiring members Trustees Jay and McIntosh were elected last January and would, had the election not been declared invalid, have had another year to serve. Trustees Riddell and Christie would have retired at the end of this year in any event.

# SUFFRAGETTE SENTENCES

Many Condemned to Imprisonment for icious Destruction of Property During Recent Riot

LONDON, Dec. 13.-Twenty-two of the suffragettes arrested with 200 companions in connection with the demonstration at the house or commons or November 21, were indicted at the London session yesterday. Nearly 200 have been summarily sentenced before the police magistrate at the Bow street court. Those sentenced yesterday had on their first appearance been committed for trial at the sessions and were called upon to answer the more serious charge of maliciously damaging property. The women entered the prison ers' enclosure by twos and threes throughout the day. The evidence was monotonously identical and sentences of two months in prison were awarded to all the suffragettes, with the exception of two who were discharged,

After the initial announcement reached them they decided to demonstrate, and as the train has not yet arrived, and will not arrive until the 20th, they will now continue demonstrating until the engine conveying the first party of visitors arrives at the depot.

The significance of the first run on the new line to Port Alberni cannot be overestimated, and the people who are located in that town realize the Montreal is Formally Opened fact and are anxious to let others have a chance of doing the same thing. The By H. R. Having decided upon a service the Canadian Pacific seldom does things by halves and the present instance will be no exception to the rule. After the trial run has evinced the satisfactory condition of the road, as it will inevitably do beyond question, a tri-weekly service will be put into operation immediately, to be increased whenever the circumstances demand it. What three trains a week running into Port Alberni will do toward the opening up and settlement of the interventing country can better be imagined than described. All the adjoining country is rich in fertility and other resources and its untapped condition has been the sole barrier in the way of peopling it in the past. With that disadvantage removed effectually, as it must be by the nature of the service which the company proposes to inaugurate, a speedy upgrowing in that part of the country can be confidently looked for. Trains will leave Victoria and Alberni on alternate days. As the first train will leave here on Wednesday, it will leave Port Alberni on Thursday and thereafter trains will depart from this city on Wednesdays, Fridays and Mondays, returning Tuesdays, Thursdays and Saturdays.

# FOR ESPIONAGE

Prison Sentences for Men Arrested in Germany on Charge of Spying in Interest of Great Britain

### ALLEGED LEADER GETS SEVEN YEARS

Engineer Who Had Been Employed in Naval Shipyards Given Twelve Years—Others Shorter Terms

LEIPSIC, Germany, Dec. 13.-Heavy punishments were meted out today to the spies arrested at Hamburg March 18, and who have been on trial behind closed doors before an imperial court for several days.

Max Schultze, an English shipbroker, was sentenced to 7 years' penal servitude. One of his associates, an engineer named Hipsych, was condemned to 12 years in jail; an engineer named Wulff was sent to jail for two years, and a merchant named Von Maack and Max Schultze's housekeeper each received three years.

It was said during the trial that incriminating material was found in Schultze's possession. While this was not of an important character, it is believed that he succeeded in sending out of the country documents of value to those employing him.

The judge, in sentencing the men, said their arrest had broken up a group of spies, whose activities were dangerous in the highest degree to the safety of the empire.

Hipsych, particularly, who had been twelve years employed as an engineer in a naval shipyard, was able to collect designs and information from all the government harbors. This he delivered last January to agents of an English information bureau, thus exposing Germany's most important military secrets. Max Schultze had organized, accord-

ing to the judge, a network of spies throughout Germany. Hipsych probably was the lowest salaried spy of importance on record. He was paid only \$10 a week. Wulff,

it was stated, dealt with the question

# THREE BIG DEALS IN REAL ESTATE

Gisborne Property at Rockland and Moss and Two Other Deals Total \$161,000-Indicates Increased Values

An important real estate deal involving the sale of what is perhaps one of the most beautiful residential sites in the city has just been put through. The property is the residence and the adjoining five acres of land known as the Gisborne property, belonging to Mr. J. B. Hobson, and the purchasers are Mr. H. Macklin and Mr. Simon Leiser. The price paid for the property is given at \$65,000

It is the intention of the purchasers of this beautiful property to subdivide it and place it on the market in January. They expect to make about 15 or 20 lots out of the acreage and leave the house with perhaps an acre of land attached to be sold separately. It is understood that Mr. Hobson, who is a well known mining man, was prevailed upon to part with the property in order to facilitate his departure for California where he has been living for some time. For many years he represented the Guggenheims in Cariboo.

The house in question was built a number of years ago by the late Mr. Robert Irving, soap manufacturer, of Portland and it is stated that on the building alone he lavished the sum of about \$60,000. As the property is situated on the corner of Rockland and Moss streets, the house is favored with a commanding position overlooking the gulf, the intervening scenery and the perspective representing valuable assets to the property in a resi dential aspect.

# Another Deal

Another deal of considerable interest vas put through yesterday, when a 50-foot frontage on Yates street changed hands for \$75,000. This is at the rate of \$1,500 per foot. W. Vowell It is part of the site of the old Bishop's palace. Mr. Macklin, one of the purchasers

in the first mentioned deal was solely interested in another deal this week, the property in question this time being his own residence on the corner of Cook street and Rockland avenue. The property brought in a price of \$21,-000, and when it is stated that two years ago the same property was purchased for \$8,000 the tremendous rise in values in Victoria during that period will be understood. Baird & company put this latter deal through.

British and French War Vessels Go to Rescue of Passengers — Reported Drowning of French Bluejackets

LONDON. Dec. 13 .- England was hrown into a state of anxiety today by news of the disaster to the steam? ship Delhi, off Cape Spartel, with a royal party and a large number of passengers aboard. Fortunately the Delhi is fitted with wireless and was able to summon aid from Gibraltar and Tan-

Several warships were on the scene and despite very rough weather all passengers were safely landed.

The royal travellers, who included the Princess Royal, Louise Victoria, sister of King George; her husband, the Duke of rife, and their daughters, had an extremely unpleasant experience, one of the princesses narrowly escaping drowning through the capsizing of a boat.

Several French bluejackets were drowned by the capsizing of a launch from the cruiser Friant, which was assisting in the rescue. Queen Alexandra was deeply concerned, but had early news of the safe-

ty of her daughter. Details of Wreck.

GIBRALTAR, Dec. 13 .- Princess Louise Victoria, Princess Royal of Great Britain, sister of King George V., and her littband and daughters had thrilling experiences today when the P. & O. steamer Delhi, on which they were voyaging to Egypt, struck a reef off Cape Spartel, the northwest extremity of

While being taken ashore by a longboat of the British armored cruiser Duke of Edinburgh, they were thrown into the water by the capsizing of the boat, one of the daughters having a narrow escape from drowning. She was rescued by a sailor with the others, all suffering severely

from the bitter cold. The Delhi struck at 1 o'clock in the morning, in a thick fog. Immediately all the passengers aboard rose from staterooms, half-dressed, and put on life-savers. The water poured steadily into the cabins, while enormous seas, sometimes mast high, broke over the vessel. Signals of distress were sent out by wireless, and the first warship to arrive was the French cruiser Friant. It was long past daylight before the Briant's steam launch was able to come alongside the Delhi.

In the meantime preparations were made aboard the stranded steamer to send the women and children ashore. One of the boats of the Delhi was lowered and filled with passengers. The launch finally succeeded in getting this in tow and steamed to the British cruiser Duke of Edinburgh, where the frightened women and children were safely taken aboard.

# Remain at Tangies

The Duke of Edinburgh, with 38 rescued passengers, arrived here tonight. It was expected that the royal party would reach Gibraltar aboard the battleship London, but the latest report is that they have decided to remain for the night at Tangier, where they are housed in the British legation. One of the women passengers, in de-

scribing the wreck, said that there was not the slightest panic after the vessel struck. The passengers were summoned to dress and go on deck, but were assured that there was little danger.

Arriving on deck, they found the fog dense and the sea beating heavily against the ship. There was little confusion or excitement. They remained assembled on the deck till 10 o'clock in the morning, when the Friant's boats, after considerable exertion, succeeded in conveying some of them aboard the British cruiser. All provision had been made here for the reception of the royal party, which included the Duke of Fife, who, it was learned, remained aboard the Delhi until the most of the passengers had been transferred. Wireless despatches say they are in good spirits, but exhausted from their dangerous adventure, the ride on horseback to the lighthouse and the journey thence to Tangier.

The Delhi is reported to be in a critical position. She is broadside on the rocks. Salvage vessels have sailed from here with lighters, and will make an attempt to save the mails and luggage. The weather has moderated somewhat, but heavy seas still are breaking over the stranded vessel.
