

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont. — "I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion." — Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont. — "I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse, sit down caused me pain and suffer and I would be so nervous sometimes that I could not bear to see any or hear any one speak. Little specks did float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial." — Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

THE VALLEY RAILROAD WILL NOT BRING NEEDED GRIST TO PARTY MILL

Contractor for Road Does not Owe "One Cent" to the Government.—Will Not be Bled to Furnish Campaign Fund.

PREMIER FLEMMING FEELS AGGRIEVED

The outspoken declaration of Contractor Gould of Valley Railway fame, last week is still the talk of the Capital. The attack of the "Gleaner" was not the first inking the supporters of the opposition had of what was in the air. During the session hints were not lacking that there were differences in the Government camp over the contracts in connection with the "Valley Road". The disappearance of Gould at a critical time was not reassuring. He is in California the government press said "re recuperating". When he returned Premier Fleming went to Montreal. Mr. Gould happened to be there. So did Mr. Hazen and the head officers of the C. P. R. are always there. It was a most fortunate coincidence. But the meeting was not so happy evidently for Premier Fleming returned "as grumpy as a bear with a sore paw" to use the language of one of his supporters. He wasn't in real good humor from that to the end of the session.

Now the reason is plain. Mr. Gould would not pay up. He had the contract signed, sealed and delivered, and to use his own expressive language "did not owe the government one cent". The Gleaner's dog was sent after him but the tall Maine Yankee was evidently used to curs of that sort and he failed to scare. Instead he lashed back and the puppy has gone to its kennel snarling under the whip for its ill-deserved lashing. Much of this may be mystifying to honest people who hate to meet with graft upon every corner. But the meaning is plain. The construction of the Valley Railway is about to begin. The cost will be many millions of dollars and out of that the friends of the government expect the contractor to give enough money to corrupt the electorate during the campaign to be brought on this year.

Contractor Gould says he does not owe the government a cent and has no interest in the New Brunswick elections. That means he will not be bled. That explains the attack of the unscrupulous Gleaner and many other things.

But why should this attempt at enormous graft surprise the people? It is simply a distinction without a difference. The small fry have been doing it for four years. Every bridge repaired or built has its graft, every public work has its "rake off". What the followers have succeeded in doing, the leaders are attempting. How humiliating must have been the exposure of their methods, and how distressing for those who believe in their honesty and good intentions to be deceived in so dramatic a fashion. It is not likely that Mr. Copp or any member of the opposition expected that their accusations of graft and recklessness would be proved so thoroughly and so soon after the session. In almost every speech they pointed out how reckless and wasteful had been the expenditure, and at every session of the public accounts committee there was abundant evidence of over charges which is one of the most familiar disguises of the worst enemy of the public, party graft.

But why should the followers hesitate to follow where the leaders lead? Premier Fleming stood in his place in the Legislature and spanned the public works by public tender policy he went into power upon. He said he would not give work to political opponents even if he knew they would do it at a lower price. He had that open invitation to put the price up? The position of Premier Fleming is the same as that of his Chief Commissioner of Public Works. His is the great spending department—the work on the roads and bridges, the wharves, the public buildings and he says to the government supporters "we do not believe in public tender". Yet this was one plank in the famous platform of Mr. Hazen in 1908 which read as follows:

"If returned to power we will put all public works to tender, and award the contract for the same to the lowest tenderer."

Contrast the position of the opposition party as defined by Mr. A. B. Copp its leader, after he had listened to Hon. Messrs. Fleming and Morrissey. Hon. Mr. McLeod had interrupted Mr. Copp when speaking and asked him if he would give a contract to the Gleaner newspaper if its tender was the lowest. Mr. Copp's reply showed his position.

"Yes, I would give the printing to the Gleaner newspaper if the Gleaner would do the work the cheapest. I want this House to understand, I want the people to understand that, should I in the near or distant future have anything to do with the government of this province, I am going to insist upon public tender, and irrespective of party, the man or corporation who will do the work for the least money will get the work to do."

That is something to stand by, something for the opposition to rail to the mast and ink or swim with. But that is not the only declaration Mr. Copp has made that is worthy of the same treatment. He has openly condemned party graft and served notice upon any in it favor in his own party, in a recent speech, when he said:

"If there is any man supporting the opposition with the hope that when it attains power he will reap his reward at the expense of the people I want him and all others to listen attentively to me when I say that there is no place for him in the ranks of the opposition and if that is his purpose, his place is among the grafters. If I have anything to say when the opposition comes into power there will be no opportunities for the 'rake off' men and no plunder for the grafters."
