Can Any Canadian City Beat This?

HE mild and equable all-year-round climate of Victoria on Vancouver Island—a climate which is bringing so many Canadians and Americans to the beautiful Empress Hotel—is demonstrated most convincingly by the record of the thermometer. According to figures supplied by the meteorological office of the Dominion Government the lowest point reached during the year 1920 was 25 degrees Fahrenheit in the month of January, while in only one month, namely July, was any higher point reached than 84 degrees. The mean in the best summer month of August

was 61 degrees while the mean over the whole year was 50 degrees. The winter months of January and February show mean temperatures of 39 and 42, although temperatures in both months were recorded as high as 53 degrees. No wonder that the grass is always green and that Spring comes early in this equable and delightful climate. Victoria is par excellence Canada's City of Flowers, and the Empress Hotel as its social centre is a perennial attraction for young and old.

Strengthen Your Business "Morale"

Soldiers know what it means when an army's "morale" is shattered.

The fighting spirit is gone, the men invite defeat. What is true of military forces is true of some industrial armies.

At the first serious jolt their morale weakens—hope flies, courage disappears—their fighting spirit is lost. There is no place in business today for the "calamity howler." He is drawing salary or wages under false pretences. More distressing still, he is weakening the "morale" of other workers, and of the business itself.

Strengthen your business morale.

Take stock of your men as well as your goods.

Venture into new fields for business.

Trade and Prosperity are interdependent. The sooner Capital, Labor and Management realize this the quicker will conditions improve.

STEAL LIQUOR? CAN'T BE DONE, SAYS JUDGE

Atlanta, Feb. 21.—Thieves may steal your liquor without fear of prosecution. That is what Justice Humphries of the Superior Court ruled to-day at the trial of a city detective charged with stealing liquor from a self-confessed bootlegger.

The judge ruled that liquor has no legal status and cannot be protected by the laws. Consequently one cannot be arrested for stealing it. He said that the owner of liquor might prosecute as a violation of the Prohibition law, but not for stealing.

Their Medicine Chest For 20 Years

It is characteristic of those who have lived long and well, to look back over the years that are gone and thoughtfully live them over.

I find myself, at event-tides, frequently drifting back a quarter of a century, when I recollect in the little drug store owned by Mr. J. H. Lewis, of St. Louis, Mo., that I was then only a boy, and that I had just bought a box of Red Rose Tea.

For many years while I was perfecting my training as a doctor, I was in the habit of taking a box of Red Rose Tea every day, and I found it to be a most valuable and reliable remedy for all the ailments of the stomach, liver and bowels.

It is a comforting thought, my friends, for a man at my age to feel that since from his boyhood he has used Red Rose Tea, he has never been troubled by any of the ailments of the stomach, liver and bowels.

My knowledge of medicine and the results of my own family and among my friends, before I ever offered it for sale, caused me to look great faith in Red Rose Tea.

And now I find myself nearing the age which I must bow to the inevitable and go to another life, my greatest pleasure is to tell you that I have used Red Rose Tea for ten, fifteen and twenty years, and how true and reliable it has been.
