### "DIPS" WORK THE L. & P. S. TRAINS

Three Persons Report Loss of Their Money

MAY BE MANY OTHERS

Trains Crowded and Pickpockets Had Easy Time

Pickpockets were busy yesterday between St. Thomas and London, operating on L. & P. S. cars. As far as is known three men were "touched," but the police believe that many others were victims. Thomas Wiley, of St. Thomas, lost \$72 in bills; W. Crittiss, 629 King street, lost a roll of bills containing approximately \$60, and J. McLaren, R. R. No. 1, London, lost a purse with \$12 and a bank book.

"It was an easy matter for the pickpockets to work yesterday. Every car was crowded and it would be a difficult thing for the victims to detect when his pockets were being picked," said Sergeant of Detectives Thomas Nickle last night. Local detectives visited Port Stanley, but found no trace of the pickers, who are said to be out-of-town men.

Wingham Citizens Band and the Henderson Civic Klites provided the music during the day, and united in an open-air musical program to-night. The weather was unpleasantly warm, but there were no prostrations or accidents. This morning the Teaswater baseball team defeated Lucknow by a score of 8 to 2. ### OLD WARSHIPS ON LAKE VOYAGE

Two United States Vessels Pass Sarnia, Bound Up

SARNIA, July 1.—(Special to The Free Press.)—Two of the ships of Uncle Sam's navy passed Sarnia today, both picturesque examples of the craft built in days gone by to protect the Stars and Stripes. The first one was the old Michigan, believed by Capt. H. C. McCallum to be the oldest ship in the navy to-day. The boat is known as the Wolverine, her name having been changed at the time the battleship Michigan was added to the fleet. The boat is now a training ship for cadets. According to Capt. McCallum, who is a recognized authority on marine matters, the old Michigan was built at Pittsburgh, Pa., in 1844. A little later she was taken apart and moved to Erie, where her hull and machinery were reassembled. The second historical steamer to pass the city yesterday was the Yantic, which will be remembered as the boat that once made a trip to the North Sea on a voyage to rescue Admiral Schley, who had gone hunting for the North Pole.

### ONE DR. MICHAEL LAUDS THE OTHER

Dr. Clark Pays Warm Tribute to Dr. Steele.

FORMER AT ST. MARYS

Addresses Audience on Trade, Tariff and Taxes

ST. MARYS, July 1.—Dr. Michael Clarke, M. P. or Red Deer, was the chief speaker at a meeting here to-night which was attended by nearly 2,000 people of the district. Hon. Peter Smith, Andrew Hicks, M. P. P. F., H. B. Smith, of the Farmers' Sun, and Robert Berry, U. F. O. candidate for the Federal House also spoke. The chair was occupied by Alex. Frayne. During the course of his address on the three T's, trade, tariff and taxes, Dr. Clarke referred to Dr. Michael Steele, M. P., for South Perth.

"He is a most estimable gentleman," said the speaker. "I have but one objection to him—he rarely will vote in my lobby, and he has never convinced me I should vote with him. Our differences are not of a personal nature, Mr. Meighen is a protectionist. So is Dr. Steele. I am not."

Dr. Clarke gave utterance to one statement, which was resented by the audience. He was speaking of "Toryism," and was correcting himself in an explanatory way. "No, not 'Toryism,'" he said, "Toryism died with the Tories. At this point there were many gasps of a defiant nature and the speaker hurried to correct himself, and in order to have the situation made fit, 'Toryism died with the things of the past.'"

Hon. Peter Smith defended the Government expenditures. He admitted the debt has been increased. In one instance he said the previous government had left a "baby" on the doorstep, in the shape of the Hydro-Electric system. If the system were to be developed money must be spent. He charged that the former government passed acts and did not live up to them. One he cited was the Teachers' and Inspectors' Superannuation Act. The previous government left a debt in this connection of \$1,650,000, and the U. F. O. had paid out \$480,000 under this act. The rate of exchange had cost the Government \$789,000 he said. Mr. Smith said the farmers were facing a serious situation, and that there was only one rate open, and that was organization, both politically and commercially.

### CANADIANS IN N. Y. CELEBRATE

F. C. T. O'Hara Principal Speaker at Dinner

NEW YORK, July 1.—(Canadian Press Dispatch)—No public ceremonies were held by Canadians resident in New York in celebration of Dominion Day, though many of the folk from the Dominion met at informal affairs planned by various Canadian organizations here. Albert Oliver, president of the Canadian Club, was at a dinner to a number of the members of the club this evening. F. C. T. O'Hara, deputy minister of trade for Canada, was the principal speaker. Among the guests were H. Gloster Armstrong, British consul-general in New York; Mark Sheldon, trade commissioner for Australia; Frederick Hudd, Canadian Government agent here; Dr. Walter E. Lamber, president of St. George's Society, and Arthur Knowson, president of the Canadian Club. Informal gatherings were held by members of the Canadian Women's Club, the British Veterans' Association and other Canadian organizations here.

A number of Canadians arranged special parties to attend the "all-Canadian" performance given by "The Dumbags" at the Ambassador Theatre by way of celebrating the day.

### MACKENZIE KING SPEAKS AT BROME

Liberal Leader Takes Some Flings at Government

BROME, Que., July 1.—(Canadian Press Dispatch.)—Speaking at the Dominion Day celebration here this afternoon, Hon. Mackenzie King, leader of the Liberal opposition in the Commons, said "Toryism" was the ill from which Canada was suffering in government, and that Liberalism was the need of the present and the future. The great war had, he said, as in the case of England, 100 years ago, inevitably led to the ascendancy of Toryism in Canada at its close. The political power of the Liberal party was at a comparatively low ebb. Developing his parallel, Mr. King said Canadians were beginning to discover wherein the liberties they had previously enjoyed had been parted with a degree never dreamed of before. The people saw themselves deprived of the rights of a representative parliament and a responsible ministry. They saw the functions of government "carried on by a usurper, who exercises his authority, not in virtue of any power derived from the people, but solely as the outcome of arbitrary enactments and political might. They see this usurpation of the authority of government maintained through a combination of political autocracy brought into being by war conditions and fostered through war necessities."

IMPERIAL CONFERENCE.  
Speaking of the conference of overseas premiers in London, Mr. King gave it as his view that of all the premiers there assembled, Rt. Hon. Arthur Meighen was the only one who had come without any authority from the people of his country, and he added that Canada was the only country among the nations which comprise the British Empire, the election of which had denied the right since the termination of the war of choosing a representative government to deal with post-war conditions. Resolutions moved by him in parliament, the first urging that there should be no change in the relations of Canada to other parts of the empire and action taken at the conference implying any obligation on the part of Canada to undertake new expenditures for naval or military purposes. This was defeated by Mr. Meighen and his following.

The second resolution, asking the fullest publicity on all matters of public importance, was also defeated. In view of these facts, Mr. King claimed that Mr. Meighen should have preserved a befitting silence with respect to the rights of the people to full information when he was abroad.

In conclusion, he said that the imperial conference might well have taken into account the relations that had existed for 100 years between the United States and Canada, and he urged the solution of the United States, Great Britain and Japan in regard to the limitation of armament on the Pacific Ocean.

### U. S. SOLDIER IN HILARIOUS MOOD

Comes to Windsor and Tears Things Loose

CHALLENGES EVERYBODY

Kicks Side of "Prison" and Shows Follows

WINDSOR, July 1.—Private Leo Rosenthal, a United States regular stationed at Fort Wayne, had a good time in Windsor Thursday evening. He came over to imbibe and did, and returning to the ferry boat, became full of glory and patriotism. He announced loud and repeatedly that he could lick any Canadian whatsoever. Nathaniel Newman, Windsor patrolman, took up the challenge, and tried to arrest Rosenthal, but it soon became apparent that if Rosenthal's boasts took in a lot of territory, Newman was not the man to disprove his claims. Immigration officers rushed to the officer's aid, and after a severe struggle, Rosenthal was locked up in a tiny police booth back of the immigration office, where he noisily proceeded from the booth, and presently the whole side dropped out, kicked by the soldier, who dashed through the police station, and finally ran him down. The police patrol being out of commission, Rosenthal was taken in a taxicab to the police station and locked up. A charge of drunk and disorderly was booked, and police say other charges will be laid.

### 20,000 ALABAMA VETERANS LOSE VOTE BY COURT'S RULING

MOBILE, Ala., July 1.—Approximately 20,000 ex-service men in Alabama, it was estimated yesterday, are disqualified from voting and electing, county and municipal government by a decision of the Supreme Court at Montgomery. A writ of Alabama never legally ratified the amendment exempting soldiers and sailors of the world war from payment of poll tax if they served four months or more. It is estimated that at least 20,000 failed to pay their poll taxes and are therefore disqualified from office throughout the state are believed in danger of being ousted through this technicality.

### FRANCE'S POPULATION OVER 36 MILLIONS

Official Figures Show Loss of Nearly Two and a Half Millions During the War.

PARIS, July 1.—The population of France on March 6, 1921, was 36,084,206, according to the figures which the official journal published to-day of the census taken on that date. The previous population, taken in 1911, gave the population as 38,683,913. Thus the population decreased nearly two and a half millions during the war.

It is explained, however, that the 1921 figures do not include the soldiers, marines and sailors outside of France, in the Rhineland, the Near East, Upper Silesia and Morocco on that date.

### BOY DROWNED WHILE RETURNING WITH FRUIT FOR MOTHER

OTTAWA, July 1.—On his way home after working for hours in a broiling sun to gather a huge basket of wild strawberries for his invalid mother, 12-year-old Henri Beprade was drowned in the Ottawa River at Buckingham yesterday afternoon.

The lad had become overheated and took cramps. Ropes were thrown him after he got into a strong current, but he was too weak to grasp them. Adelle Lacelle, a strong swimmer, managed to bring the lad ashore after a thrilling fight with the current, but after an hour's efforts at resuscitation life was pronounced extinct.
