Passing of Mrs. Maddock.
Mrs. Mary Maddock, beloved wife of William Maddock, died at her late residence on Monday, July 30th, 1906, at the age of 81 years, 3 months and 30 days.
Decase near Tabbett, Scotland, and immigrated to Canada with her parents the late Margaret and Donald McLean, of Moss, in the year 1831.
In the year 1852 she was married to William Maddock and settled on lot 21, con. 19, Brooke, which at that time was a wilderness, and where she and her partner made the home for themselves and family in which she lived till the time of her death.
She leaves to mourn her loss, a loving husband, who for the past three years has been an invalid; two sons, John, of Brooke, and Dan, who resides on the homestead; and four daughters, Mrs. John Johnston, of Thamesford; Mrs. Henry Johnston, of Alvinston; Mrs. Kate McLachlin, of the Alvinston Public School staff, and Miss Isabella, who has been the constant and loving nurse of her aged parents. Besides these she leaves one brother, Malcolm McLean, of Moss, and four sisters, Mrs. John McLean, of Glencoe; Mrs. P. Campbell, of Metcalfe; Mrs. Donald Ferguson, of Moss, and Mrs. D. Livingston, of Alvinston.
The funeral took place from her late residence at 2 o'clock last Wednesday afternoon, short service being conducted by Rev. Mr. Craig, pastor of the Alvinston Baptist Church. Interment took place in the Alvinston cemetery.—Free Press.

A REQUISITE FOR THE RANCHER.—On the cattle ranges of the West, where men and stock are far from doctors and apothecaries, Dr. Thomas' Electric Oil is kept on hand by the intelligent as a ready made medicine, not only for many human ills, but as a horse and cattle medicine of surpassing merit. A horse and cattle rancher will find matters greatly simplified by using this oil.

Astonishing Vigor.
The British Grocer comments on these facts in a recent issue as follows: "As an exclusive trade the Canadian bacon trade still falls a long way behind that of the United States, but considering its comparative youthfulness, it affords evidence of astonishing vigor and vitality, and must therefore be reckoned with as an important fact in determining the probable course of the bacon trade."

Complaints made some time ago about negligent health officials at Dresden, Township of Dawn, by Medical Health Officer Hall, of Chatham, have resulted in an investigation by Dr. Bell, inspector for the Provincial Board of Health, who found the complaints fully justified. One family suffering from smallpox moved from the Township of Dawn to the city while the disease was at its height, and no medical attendance was procured. In the township many cases were looked upon as chickenpox, and infection was carried widely. Neither vaccination nor disinfection was employed, but as a result of Dr. Bell's visit precautions have been taken.

Big Money in Cheese.
Not one man in a hundred ever gives a thought to our great and growing cheese industry that has opened this year with a whoosh that has opened this year with a whoosh exported 2,121,101 boxes of cheese that had a value of over \$18,000,000.
So far this year cheese has been selling 2 cents a pound higher than last year, while the exports so far are many thousands and boxes in excess of the record to date 1905.
This means that our export cheese business this year will realize over \$20,000,000.
The prosperity of the cheese industry (and besides that, butter) is going to mean good times for the Provinces of Ontario and Quebec.

Cold Settles In The Back.
It hits people in a tender spot and makes it mighty hard to brace up. Nervine takes that kink out of the spinal column in short order; it soothes, that's why relief comes so soon. LITTLE BELL BIOGRAPHIES
Bach
JOHANN SEBASTIAN BACH was born in 1685 and died in 1750, aged 65. From childhood he grew up, as all should grow, in an atmosphere of good music in the home. He made such rapid progress in his music lessons that he soon knew more, could play better and compose better than all his teachers.
Bach is the greatest musician that ever lived. He was the inventor; all who came after him were followers or imitators. He wrote nearly 1,000 compositions, founded modern orchestral music, perfected organ methods and choral composition, discovered most of the methods in instrumental composition, rearranged the 24 scales, making it possible to play in every key, and established the chief principles of modern piano playing. No one can hope to become even a good concert pianist who has not first mastered Bach's Inventions, Well-tempered Clavier and Fugues.
To practice or play on Bach had only the clavichord, an instrument small in dimensions, limited in scale, thin and weak in tone as a mandolin, and poor in construction as an old-fashioned melodeon. He had no such beautiful and marvellous instrument as
The Bell Piano
But seated at the sweet, rich, pure toned Bell Art Piano, with its greatest of modern improvements—THE ILLIMITABLE REPEATING ACTION—Bach would have brought forth music lovelier than any the world has yet heard. To all musicians the great Schumann's advice, had he lived in our day, would undoubtedly have been "Make Bach and the Bell Piano your daily bread."
The full series of "Little Bell Biographies" in booklet form, illustrated, will be mailed free on request by
