THE DAILY MISERY OF ILL-HEALTH

Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

MR. GASPARD DUBORD

109 Avenue Plus IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured.

At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-a-tives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid—all of which I owe to 'Fruit-a-tives'.

MODERN MIRACLES BEING PERFORMED

Plenty of Men and Women In Various Parts of the World Defy the Laws of Nature

Mrs. Annie Hunter, a Bournemouth medium, has been upsetting the recognized laws of nature, by carrying about in her bare hands a blazing log of wood, yet without the skin showing the slightest sign of blistering.

This performance took place on a day in November last, in broad daylight, and before an audience including a reporter from a well-known London newspaper. The latter attempted, himself, to handle the burning log, but found it utterly impossible.

This is nothing new. Besides Western mediums Hindu mystics and Buddhist priests in Japan are able, in some way not yet scientifically explained, to render themselves proof against fire and do other things even more mysterious. These performances have been seen by Europeans time and again.

Dr. Pascal has written a very full account of one such, which he witnessed at Benares on October 26, 1898. A great trench was dug, three yards long by two wide, and in this were laid fifteen large tree trunks. These were fired, and allowed to burn until they were a mass of glowing embers.

More than fifty Hindus, many of them children, then proceeded to walk across this miniature volcano. Now and then one would stop and plunge his hand into the bed of fire. One came out with a flaming ember as big as a hen's egg sticking to the calf of his leg. He did not even notice it until someone mentioned it, when he pulled it off and threw it away.

None of these people were in any way damaged or burnt or blistered. But the same thing has been done in England long before the present day. In France state both Edington and Home were able to handle fire without injury.

Home could perform other miracles even more amazing. He could upset the laws of gravity. Sir William Crookes has described how more than once, he saw Home "levitate" that is, raise himself from the ground, and hang suspended in mid-air.

The most amazing of all these cases occurred on December 16, 1868, in London, and there were present Lord Lindsay, Lord Adair, and Capt. Wynne. These people saw Home, in a state of trance, suspended in mid-air outside the window of the upper room in which they were sitting. The moon, shining brilliantly, showed his figure as plain as day. He remained in this position for several seconds, then eluded in again through the open window, feet foremost, and set down.

There are over one hundred cases on record of Home levitating himself, and many in which he caused other people or heavy objects to rise in similar fashion.

The well-known Italian medium, Eusapia Palladino, gave proof of being able to rise herself into the air in the same way that Home did. One case at Naples in 1899 was performed before reliable witnesses.

Hindu Yogis can in some cases die or expire at pleasure, reviving again after a certain period. One proposed himself by a process which, he said, temporarily annihilated the power of digestion, stopped with wax all the apertures of the body except his mouth. He then turned his tongue back, so as to close the gullet, and elapsed into a state of insensibility.

His body, stripped, was soon in a linen bag; the bag was placed in a deal box or coffin, and buried. The earth was trodden down, and a crop of barley sown over the spot.

At the end of ten months this man was dug up, and found to be in exactly the same state as when first buried, except that his tongue was stiff, and took time to restore to its proper position.

Revived with hot water and oil, he was soon himself again. This experiment was carried out under the supervision of Europeans, among them Capt. Wade, political agent at Loodhiana.

An Englishman, Col. Townshend, who had for long studied the method of the fakirs, was eventually able to "die" and come to life again. He performed the experiment in the presence of three doctors. One held his wrist, a second kept his hand upon his heart, while a third held a looking glass before his lips.

Their report was that the heart completely ceased beating, and that all trace of respiration ceased. Col. Townshend himself declared that the whole thing was affected by an effort of will.

Without doubt, miracles have been accomplished in the way of healing disease, of turning cripples

into sound men, of restoring hearing to the deaf, and sight to the blind.

Modern science will eventually tackle these seeming miracles and explain them. It must be remembered that there is no such thing as "super-natural," and that the use of such a word is foolish.

FAIRVIEW CEMETERY

The annual meeting of Fairview Cemetery was held April 25th. Representatives from Lawrence town, Williamston and Clarence were present. The meeting was in favor of a forward movement in relation to the Cemetery. After reports were read the following officers were appointed:

President—Col. Arthur Bishop. Vice-President—A. J. Wilson. Secretary—Wm. Fitz-Randolph. Treasurer—Mrs. J. B. Hall. The following is an outline of the business:

A row of Maple trees has been set around the whole grounds. Hitching posts have been set near the gate. Malcolm Sinclair, B.Sc., has been engaged to draw a plan of cemetery. A man will be engaged to work in the cemetery a portion of the summer. Steps will be taken that will insure the perpetual care of lots. It was agreed that a tax of five dollars on each lot be collected at once for the further improvement of the cemetery. All lot owners will offer a favor by forwarding five dollars to the treasurer, Mrs. J. B. Hall at once.

The location of the cemetery lends itself in a marked degree to ornamentation—with shrubs and flowers. Already private enterprise is looking forward to placing a fountain in the cemetery. The resting places of loved ones have ever been made the most beautiful and ornamental spots in all civilized countries. The officers are prepared to do the best. Shall we help them in this noble work?

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculee Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville, Ontario.

THE ONDULEM OF THE AGES

My mind confronts a riddle. Whenever I take note. Of the fishing tales of fellows, When hard luck got their goat.

My sleep's upset by anxious doubt. Since I have heard the tales. About the fish that slipped away. "The fellows big as whales."

I'm in a fearful quandry. What can a fellow do. When every friend will swear on oath. "A monstrous fish slipped through."

Now who can solve my problem. And grant my lifelong wish. "Are fishermen all big liars?" "Or do only liars fish?"

STICKY

The Sunday-school teacher had been reading about Canaan, the "land flowing with milk and honey."

"Now," she said to the class, "what do you think a land flowing with milk and honey would be like?" "Please, teacher," was the instant reply, "sticky!"

Relieves caked bag, garget, spider or infection of the teat, also thrush in horses' feet, fistula, etc. Stops bleeding at once. Removes proud flesh, soreness and swelling. At all Dealers and Druggists. Manufactured only by DOUGLAS & CO., NAPANEE, Ont.

NEW HOSTEL AT MONCTON

Modern Residence Completed for Girl Employees of Atlantic Underwear Limited

One of the most modern girls' hostels in Canada has recently been completed by Atlantic Underwear Limited, for the accommodation of their girl employees at Moncton, N. B. The hostel for employees is an innovation in the Maritime Provinces, and the Atlantic Underwear Company is to be congratulated upon its progressiveness in thus providing congenial and wholesome quarters for their girls. The building occupies a commanding view of surrounding country, is of brick fire-proof construction, and the lighting and sanitation are modern to the last degree.

The residence was planned by J. W. Fraser, A.R., I.B.A., of Moncton. It contains a library, living and rest rooms, a first-aid and hospital ward, well-lighted and aired bedrooms, ample bathrooms and a well equipped laundry for the use of the girls. The hostel is in charge of a matron, and is chief supervisor the kitchen. Food and lodging are provided at cost, and will not be in excess of five dollars a week.

Recreation facilities have not been overlooked, for the company realizes that good food and good rooms are not sufficient for the welfare of the employees. The girls will be permitted to entertain their friends, and in addition to a good dance floor and musical instruments, games, etc., are provided for this purpose. For outdoor amusement tennis courts and croquet lawns will be completed by early summer.

The Atlantic Hostel is a commendable effort to elevate the living conditions of the girl workers and to provide them with all the comforts and facilities of a home. Its influence will undoubtedly be reflected not only among the employees themselves but throughout the community.

It has always been the policy of the company to attract the best class of help maintainable to their employ, and the present large investment is a practical working out of the theory, that only when employees are well provided for physically and mentally, that the highest quality of workmanship can be obtained.

ANSWERED

Mrs. Hughes, wife of the Australian premier, is very fond of children and has a fund of anecdotes concerning them.

One she is fond of telling concerns a visit she paid to a certain elementary school in Melbourne shortly before starting for England. Among the questions put by the mistress to her little pupils was the following:

"Supposing we had boarded a ship last night and steamed a hundred miles due southwest, where should we be now?" The correct answer being, of course, "Off the coast of Tasmania."

There was a moment of breathless silence, and then a tiny girl in the front row, who had just recently, it transpired, returned from a rather rough and stormy sea trip, piped out shrilly.

"In the cabin, ma'am, sick."

COMPLING ADJECTIVES

In a rural school of Maryland, a teacher was endeavouring one day to make clear to her class the degrees of comparison of adjectives. To make sure she was understood, the teacher called on each pupil in turn to give comparatives and superlatives of adjectives which she named. One little chap was asked to name the comparative degree of "sick."

"Worse," The teacher decided that she could best show him his error by letting him go on, and asked, sweetly, "Well, if 'worse' is the comparative of 'sick' what would you give as the superlative?" "Dead," was the instant answer.

SLIGHTLY TWINED

He approached a policeman and asked: "Would you kindly tell me which is the other side of the street?"

"Why, over there, of course," said the policeman. "That is funny," muttered the tipsy one. "I have just been over there, and they told me it was this side."

HER STAR

"Aim high! Hitch your wagon to a star!" shouted the lecturer, pointing dramatically toward the ceiling.

"I'll do it!" bravely resolved one young lady present, and sure enough, the very next week she was married to the leading man in an "Uncle Tom's Cabin" Company.

Every Can of B-H Adds Value to Your Home!

A Tempting Offer to Sell the Old Home

If well preserved, an old family residence always possesses an extra valuation over and above its property value. It has something which a new house can never claim, and the man who is fortunate enough to inherit the home of his forefathers, knows that proper surface protection means, ultimately, a much larger selling price.

A comparatively small outlay for paint is repaid many times over in the added value of your home as an investment.

B-H "ENGLISH" PAINT 70% Pure White Lead (Standard Grade 15) 30% Pure Zinc 100% Pure Paint

The outstanding record of B-H "English" Paint's enviable reputation as a surface saver is its guaranteed formula right on the face of every can we manufacture.

These important basic ingredients (70% Brandram's Genuine B-H White Lead and 30% Pure White Zinc) give to B-H "English" Paint its remarkable covering capacity and durability—it ensures that your house will be covered with a smaller quantity of paint than you would have to use if you bought a paint of lower quality.

Do not be extravagant, therefore buy B-H "English" Paint, for then you will be sure of real economy and real surface protection.
