RHEUMATISM

After two years of overwork I was taken down with nervous prostration and inflammatory rheumatism in June, 1834. After two weeks the rheumatism assumed chronic form, leaving me dependent on crutches and unable to walk far even with these. I heard of the Electropoise through a friend, and began using it in August.

NERVOUSNESS After two months I not only dispensed with regular treatment and only used it at signs of relayer. Since last March I am wholly restored; have on occasion walked a dozen miles, and hieyeled forty-tive miles at one time.

While cutting me of rheumatism the Electropoise also cured extarth of the bowels.

### A YEARLY INCOME FOR LIFE.

The writer of the following letter testifies to the handsome results payable under his Invest-ment Policy in the North American Life Assur-

ance Company:
HALIFAN, N.S., Oct. 5th, 1896.
To the North American Life Assurance Company,

Toronto, Ont.: Gentlemen,—As chairman of the Nova Scotia Board of Directors for your Company, and one of the original policy-holders, I have always taken a great interest in its prosperity and progress. I have much pleasure to-day in acknowledging the splendid results that have accrued to me on a life policy herein referred to, of \$10,000. It was issued on the Ordinary Life rate, with a 15-year inrestment period that terminates to-day. The cash value now offered me is nearly equal to the face of the policy, \$9,065.44, and I have been insured under a life contract in the meantime, showing that the results have almost turned my policy into a 15-year endowment.

The paid-up policy, provided by these results, is \$12,240.00. The life annuity, provided by the surplus (if I accept that basis of settlement), not only extinguishes all future premiums on this policy, but provides an annual income besides of near \$100.00, so that I am pleased to say to you, in 15 years not only has this life policy become selfsupporting, but is now the producer of a yearly

Such results could only be attained by the most careful management, and certainly speak volumes for the success that has invariably at-tended the North American Life Assurance

Yours truly.

(Sgd.)

A. G. JONES.

### FAMINE IN INDIA.

me of the famine that is already making itself felt here. Wheat is selling here at two cents a pound, and north of us at two and-a-half cents a pound; and yet we are just on the edge of it. What it will be when it has time to assert itself, it is hard to realize. He asked if we would be willing to take charge of the children that will in large numbers probably be decasted by their assert. this I said that so far as we had mean; we would do so, and that I would write to ask you how far you thought we should undertake this work. He has already sent us two boys, whom we are seeking to train as best we can. Will you kindly let me know, as soon as you can, what you as a Committee think of the matter? To the south of us, they are dying in large numbers; and so one Society in Bombay has taken up the work, and has removed there at least one batch of fifty girls. Some of them died on the way, and all had, when they reached Bombay, to be fed with milk and they reached Bonibay, to be led with misk and that very sparingly, for several days. Last evening I went around some of our Christians about the time they were cooking their food, and was pained to find in some cases how nearly to starvation they are. There will be much suffering before the next rains even amongst them. The Ledinghams, with their new baby, and Misses Oliver and Ptolemy, reached here on Saturday, and we intend to have the communion on Saband we intend to have the communion on Sabbath. I hope it may be a helpful service. It is still very hot through the day; but we have it quite cold at night, and so we shall soon probably have it cooler through the day too—the cold season. Work is going on as usual.

Yours very sincerely.

JOHN WILKIE.

Friends of THE CANADA PRESBYTERIAN are asked to help us to get 5,000 new names to mark the semi-jubilee of publication. If each old sub-scriber in renewing for 1897 will only send us a NEW name with three dollars the thing is done. The large reduction in price should be noted; but we are celebrating our twenty-fifth year of publication.

## Five Thousand New Names Wanted

It would be a desirable thing to celebrate our twenty-sixth year with an ad dition of Five Thousand new names to our list. With the hearty co operation of friends of the paper this number can be easily reached, and more, too. If each present subscriber, in renewing for 1897, sends us one NEW name, with three dollars for the two, the end is accomplished, and our power for usefulness vastly increased.

And now a word or two about our club rates. We make a big "cut" in

To a Club of Four Names—half new—one year, \$6.00; and a free copy of paper to getter up of club.

To a Club of Eight Names-half new-one year, \$10; and a copy of the famous Bagater Bible (Mr. D. L. Moody's favorite), in clear minion type; circuit binding, with all the "helps," illustrations, maps, etc., etc, to getter

up of club.

To a Club of Twenty Names—half new—one year, \$20, a free copy of the paper, and a Bagster Bible, similar to above, to getter up of

In each case balance of year free to new subscribers.

The following rules must be observed:

1. No old subscriber in arrears can be included in club. To be eligible arrears must be paid.

2. Club subscriptions must terminate at end of 1897.

3. All the names for club should be sent in at one time along with the money; and in every case half the names should be those of

New subscribers.

Registered letters at our risk; but a money order is the best mode of remitting.
