Council declares that the first clause of the Pharmacy Act requires each partner in a firm to be registered. - Carried.

Mr. Gregory moved, seconded by Mr. Stork. That the Registrar be requested to issue printed notices forthwith to all druggists in Ontario, who have not already made application, calling their attention to the requirements of the law and requesting them to register immediately, and enclosing a blank declaration of their eligibility, to be signed before a magistrate.—Carried.

The secretary said that he had received a letter, wishing to know the course to be taken with reference to branch establishments. After discussion it was moved by Mr. Saunders, seconded by Mr. Hodgetts, that in the case of registered druggists opening branch establishments, a duplicate certificate may be obtained on application to the Council, by the payment of one dollar annually, provided sufficient evidence is given that such business is to be managed by a competent person.-Carried.

The applications received by the Registrar were submitted, and that of Mr. J. Trueman, Hamilton, withdrawn by order of the Council, and the Registrar instructed to apply for the necessary declaration before a magistrate in the case of some others.

It was then on motion of BIr. Bickle, decided that the Toronto members of the Council, be a committee to decide on the eligibility of applicants for registration.

Meeting adjourned.

HENRY J. Rose, Sec.

MONTHLY MEETING.

The regular monthly meeting was held at the usual place, with Mr. Miller in the chair. Minutes of last meeting were read and adopted.

Mr. Shuttleworth asked if it would be in order to have the minutes of the preliminary meeting of Council read, as he understood the Council had taken action regarding Poison Books, &c.

The Chairman consented, and the minutes were read.

from a member of the Council, and placed him in a very awkward position indeed, as he had been appointed, along with two members of the Society, a printing committee to obtain a scal and get the poison books printed, and that part of the work allotted to them had been done-indeed, but for the news of the action of the Council, would have been by this time completed -while a committee of the Council had been appointed for the same purpose, without any reference to, or acknowledgent of the labors of the committee appointed at the monthly meeting.

He also understood that there had been a proposal to add to the committee the name of the chairman of the one already appointed, but the proposal was met with the reply that no outsiders would be appointed, although this did not appear in the minutes. He thought that if the Council took matters up with such a high hand—slighting the labors of those who had exerted themselves for the benefit of the Society-it would cause a natural feeling of opposition to the Council, and be the cause of unpleasantness.

The Secretary said that he had some recollection of Mr. S.'s name being proposed to be added to the committee, but there was no motion in writing handed to the chairman with Mr. Shuttleworth's name, otherwise it would have appeared, and as to the exclusion of outsiders, it was thought that the Council had no power to appoint any one but their own members on the committee.

Mr. Hodgetts said that their was no intention of slighting the other committee or its chairman in not appointing them on the Council committee, and the fact of no acknowledgement being given was doubtless owing to the hurried nature of the meeting, many members being anxious to leave by the afternoon train.

The Chairman said that the verbal report of the Council meeting to Mr. S. had conveyed a wrong idea if he thought that any slight had been intended to him or the committee. The meeting was called of all the members of the Council to decide on questions which the monthly meetings declined to dispose of on their own authority, and, so far from slighting the Toronto members, had placed so much confidence in them as to leave the question of printing in their hands as to details. He thought that the gentlemen appointed at the monthly meeting were only to procure designs for certificates, &c., but on reference to the minutes of the February meeting it was found that they were authorized to obtain poison books and designs for seal and certificates. He thought the remarks reflecting on the members of the Council quite uncalled for.

After further remarks by the members present, Mr. Hunter moved, seconded by Mr. Love, That the Conneil having appoint-Mr. S. said that these minutes confirmed a ed a committee for printing purposes, the report which he had received of the meeting | committee appointed at the February meeting be authorized to act in concert with the Council committee in the matter of certificates, &c. Carried.

Meeting adjourned.

U. J. Rose, Secy.
