

# LISTERINE

The word Listerine assures to the Medical Profession a non-poisonous antiseptic of well proven efficacy; uniform and definite in preparation, and having a wide field of usefulness.

On account of its absolute safety, Listerine is well adapted to internal use and to the treatment of Catarrhal Conditions of the mucus surfaces.

## LAMBERT'S LITHIATED HYDRANGEA !

RENAL ALTERNATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abdominal Conditions of the Kidneys, through the earlier reports of Dr. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alternative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis  
Diabetes Hematuria, Bright's Disease,  
Albuminuria, and Vesical Irritation Generally.

**LAMBERT PHARMACAL CO., ST. LOUIS.**

## DOCTOR

Will you, in prescribing cod-liver-oil emulsion, write the name of the best one?

Don't leave it open. That gets one of the worst.

SCOTT & BOWNE, Toronto, Canada.
