ALFRED SAVAGE & SON

OIL MERCHANTS AND MANUFACTURERS,

No. 1 Corn Exchange, Montreal.

As a substitute for Sperm, Lard, and Olive Oil, use SAX'S HEAVY ENGINE OIL, which has stood the test of the last 5 years, being used in most of the manufacturing establishments throughout the Dominion, both for heavy and rapid-going machinery. It neither heats nor clogs, and is very economical.

Whale and Seal Oils are known to contain large quantities of Gelatine or Glue, which not only clogs, thus increasing friction, but also heats. As a substitute, A. S. & S. recommend BON'S MACHINERY OIL, which, in all cases, has given satisfaction.

Many Refiners use Acids, which invariably act upon the bearings. We guarantee our Oils free from these and all other corrosive substances.

ALFRED SAVAGE & SON, OIL REFINERS.
