

TRADE AND COMMERCE

COMMERCIAL JOURNAL OFFICE. Tuesday Morning, September 29.

VICTORIA.

Trade has continued of satisfactory activity and volume during the week. The exhibition, which is now in progress, is not likely to improve matters. The season now has advanced so far that the wholesalers and jobbing dealers can forecast the trade with reasonable definitenest, and a majority of them while not very much elated at the prospect are quite confident of an outcome that will prove fairly satisfactory, everthing considered.

London exchange is a trifle easier, owing to the large shipments, at this time of the year, of sealskins and salmon.

Owing to the holidays during the week business generally in Vancouver has been broken up, and there has been a quiet time. In shipping circles trade has been brisk. The steamship Empress of China arrived from China and Japan on Wednesday with a heavy cargo, and a full cargo is ready for her on the return trip. The sawmills still keep running, and there are now two vessels loading at the Moodyville mill.

SALMON.

The bark Serica cleared Sept. 28 for London with 38,623 cases of salmon, valued at \$200,782, which is the first shipment of this season's fish for the United Kingdom. The Callao will also sail shortly. The Rothesay Bay, which arrived Sept. 27, 150 days out from Glasgow, is under charter to load salmon for the United Kingdom, direct port, at 43s. 6d. Up to the Sept 18, arrivals of Alaska fish, at San Francisco, were 331,609 cases, against 281,539 cases for 1890 and 220,094 cases for 1.89. Salmon is being rushed forward, but it is probable that final figures will be about equal to last year. From the fact that preparations were not extensive, it is expected that in some quarters the final figures may show a smaller pack than heretofore. The impression is gaining ground that the entire pack of the Pacific coast will be about equal to former years, but the factor of the Alaska pack is a very uncertain one as no reliable information is to be had, this statement must be received with caution.

The San Francisco Commercial News The Enderby mills have again lowered says: It is reported that salmon packers have come to the conclusion that, if they expect to come out even this year, heroic remedies are necessary. The packers have held one or two meetings, with the idea of forming a combine, pooling stocks and
