PHILADELPHIA.

PHYSICIANS who desire that their patients should use some form of Hamamelis, or Witch Hazel, can be sure of obtaining a preparation which is unvarying in its strength and always to be relied upon for its efficacy and purity by specifying **POND'S EXTRACT** in their prescriptions. This precaution is necessary because of inferior preparations of witch hazel, frequently recommended by druggists as just as good as POND'S EXTRACT.

POND'S EXTRACT is indicated for pains, bruises, sprains and many troubles of an inflammatory character in which a soothing and healing lotion is desirable. It has also very valuable properties as a styptic and astringent, and is, therefore, especially useful in checking hæmorrhage. It is besides antiseptic, entirely without danger from poisonous effects, and can be used in any quantity without fear of harmful results. It is scientifically prepared and always uniform.

It is, therefore, recommended to the medical profession as a safe and useful preparation. *A bottle will be sent free to any physician on application.*
