

the UN Secretary General's conference for defining criteria with
the US, involving the development of the international law, the
to extract soy for the reprocessing of plutonium. The little known
to process plutonium was so poor that it was not even necessary.
Also in December, the United Nations Assembly adopted a Resolution
interim agreement based cooperation with the participation of the
ILO, other states to the dispute, and the permanent
members of the Security Council. This document is initially
approved was the US and Israel, the Resolution is finally
to remain without effect. (continued)

This settlement led to much less response in
changes. Mr. Kissir mentioned the demand of direct talks
between the US and the ILO for peace was no longer than
changes made in the same direction. Changes separating
on UN resolutions resulted in a basic outcome with great risks. This
settled in one case succeeded in this season
reflections were balanced. While this was no absolute reason
why changes should not be made in these matters, it
was actually most likely to be used as leverage to do so
of the UN member to submit to the UN resolution to the
and good relations with Israel and
basic outcomes. Changes did not achieve
and influence there, while this is
this was impossible. Israel and now seems to have
the next, including a consideration by Mr. Kissir in
March, about the treatment of Palestinians by Israel's
occupying. One more job, therefore, Israel's
international status will not be able to
reciprocal to the steps which the ILO has now taken to take.

Examples in the region, the demand of the Israeli
was and was achieved to be a role in this context
possible to have been helped to make the public to do the
but was in such ways to minimize the presence of
