

16. In September 2002 many of us will be meeting in Johannesburg for the World Summit on Sustainable Development, to reinvigorate our commitment to sustainable development in pursuit of enhancing economic growth, promoting human and social development and protecting the environment as interdependent objectives. We will consider how APEC, which has undertaken a broad range of activities in this area, can contribute to the success of the World Summit and take forward the outcomes in its work program.
17. We realize that there is an ongoing public debate on the benefits and costs of globalization. Such debates are healthy when they are informed by rigorous and comprehensive analysis of the impact of globalization. The time has come for APEC to come forward and lead the public debate in a constructive manner. We instruct Officials to convene an APEC Dialogue on Globalization and Shared Prosperity, focusing on, among other issues, structural adjustment and its impact. At the same time, APEC should reach out to business and other stakeholders to communicate APEC's objectives, activities and benefits to ensure that they participate in and benefit from the APEC process and globalization at large. In particular, we thank APEC Business Advisory Council (ABAC) for its report and value the interaction with the Council and other business representatives. We also direct our Ministers and Officials to develop and implement programs to give effect to the APEC Communications and Outreach Strategy as well as the conclusions of the Ad Hoc Group on APEC Interaction.
18. Noting that sustainable growth in the APEC region also requires the ability to feed a growing and increasingly prosperous population, Leaders call for accelerated implementation of the APEC Food System initiative. Recognizing the benefits of biotechnology in improving productivity, increasing nutrition, and reducing the environmental impact of agricultural production, we reaffirm the importance of safe introduction and use of biotechnology products based on sound science. We also welcome the initiative to hold a policy-level dialogue on agricultural biotechnology and call for more related capacity building activities.
19. We take satisfaction at the significant progress made, through the leadership of the Ad Hoc Group on Gender Integration, in the capacity of APEC to address gender equity in its work. Our commitment to a wide distribution of the economic opportunities of our era requires the application of gender perspectives in APEC's work, we welcome the decision to hold a Second Ministerial Meeting on Women in Mexico in 2002, as an opportunity to make further progress.
