

June 6/21  
General Sir Arthur Currie  
Montreal

Dear, Sir Arthur :- In the hurry of leaving home, I forgot to thank you for your great kindness in advising me about my trip over the battle-fields, and for the letter of introduction to Col. Goodland. I do so most heartily and sincerely now, for it has proved to be the most interesting trip of my life. It is not possible for me to particularize in this letter, and can only say that the Imperial Commission on France are doing a wonderful work under the direction of our good friend Goodland.

"Wings" of Vancouver went with me and they were old friends at Chillinshack. I, too knew many of his friends and he personally knew my nephew, who is buried at the Berlin Cemetery.

You may imagine what it meant to us to have an old friend of his experience and knowledge, and a Prince of good fellows to show us the land of Carnage,
