ber of wounded in France is estimated at half a million. As evidence of the superiority of the French artillery, Dr. Guest says German soldiers treated in French hospitals are much more badly wounded than are French and British soldiers.

BERLIN FEARS PORTUGUESE IN AFRICA

The following despatch was received here tonight from Berlin by the Marconi Wireless Telegraph Company: "On Sept. 12 Portuguese troops left for Angola and Mozambique, Portuguese possessions in West and East Africa respectively. Each of these forces consisted of one battalion of infantry, one squadron of cavalry, one battery of mounted artillery, one battery of machine guns and an ambulance staff. Each force aggregated approximately 16,000 men. Two native companies, each of 240 men, have left Mozambique for Angola."

BRITISH STEAMER REPORTED SUNK

A despatch to Reuter's Telegram Company from Stavanger, Norway, says that the British steamer Glitera of Leith was sunk today 12 miles off the Norwegian coast by a German submarine.

The crew of the Glitera were ordered into the boats and the valves were opened. The name of the steamer Glitera does not appear in any available marine registers.

GERMANS REPULSED ON ENTIRE FRONT

PARIS, Oct. 20, 11.00 p.m.—The French official statement issued tonight says that the Germans, during the day, made attacks along the entire front and everywhere were repulsed.

"The day has been characterized by an effort on the part of the Germans along all parts of the front—to the extreme north, where the Belgian army has held remarkably, at LaBassee, where the German troops have attempted an offensive movement of particular violence to the north of Arras; at Mametz, between Peronne and Albert; at Vaucouleurs, to the east of the Argonne, and, finally, on the heights of the Meuse and in the region of Champan.

BELGIANS HOLD POSITIONS

The official French communique of this afternoon is as follows: "In Belgium, in spite of violent attacks on the part of the enemy, the Belgian army has held its position on the line of the River Yser."

"There have been other actions in the region of Ypres between the allied forces operating in this territory and the forces of the enemy. "On our left wing the Germans continue to hold strongly their advance posts around Lille in the direction of Armentieres, Fournes and La Bassee.

"On the Meuse the enemy has endeavored in vain to drive back the advance posts of our troops, who have moved out along the river bank of this stream in the peninsula of the Camp des Romains.

"To sum up on the day of Oct. 19, we have made progress at various points on the front. "In East Prussia, and on the Vistula River, there is no change in the situation. The efforts of the Austrians to cross the River San have been repulsed. The battle south of Przemysl is continuing under conditions favorable to the Russians."

OFFICIAL GERMAN STATEMENT

Direct Copyrighted Cable to The Toronto World. AMSTERDAM, via London, Oct. 20.—The following official statement was issued at Berlin today: "The Germans advancing along the coast from Ostend meet hostile forces at the River Yser, near Nieuport, where fighting has been going on since last Sunday. Yesterday the attacks of the enemy west of Lille were repulsed, the enemy suffering heavy losses. In the eastern theatre of war there has been no material change. In the Telgraf's correspondent at Sluis, Holland, reports that a battle is proceeding along the Belgian coast.

Thirty thousand Germans are entrenching from Middlekerke to Ostend. "Senator Strandes of Hamburg has been appointed civil governor of Antwerp.

"Two Belgian majors have related to a Dutch correspondent that one-half of the Belgian army has been interned in Holland. A quarter of the army has deserted, they declare, and the last quarter is so disorganized they are only a burden to the French and British armies.

"Nearly all of the Italian volunteers in the French army have returned to Italy. "French recruiting officers are sending much money to enlist the fisher population of the French and Belgian coasts. These men are to be organized as sharpshooters."

BERLIN REPORTS LILLE STILL HELD

BERLIN, Oct. 21, 12.15 a.m.—(Via The Hague and London)—Engagements near Nieuport, Belgium, and Lille, where the allied forces for several days have been attacking desperately in the vicinity of Lille, but according to headquarters bulletins all the attacks have been repulsed. It is announced that the allies have made a stand behind the River Yser in an attempt there to check the German advance along the coast. The result of the fighting, which has been going on for three days in this region, is not known.

There is no news from the rest of the battlefield, nor from the eastern field of the war.

NEWS MEAGRE BUT SATISFACTORY

PARIS, Oct. 20.—(Via The Hague and London)—News of the progress of operations is meagre, but satisfactory. The German heavy artillery, which, it was thought, was to be sent to the centre, apparently has been employed north of the region of Nieuport and Dixmunde, without much effect.

The French military authorities officially announce that the British warships are working in co-operation with the land forces. The news from the Atlantic frontier has caused general satisfaction. The German attacks in the neighborhood of Saint Die evidently were intended to take in the rear of the French line defending the passages of the Vosges Mountains, but it is not likely that they will succeed.

The aerial patrol of Paris is proving valuable. For instance: A German aviator attempted to reach Paris behind a veil of fog. A warning, however, had been sent from Compiègne of the aeronaut's start, and French scouts were ready for him. The German somehow heard of the danger and abandoned the project.

GERMANS PREPARE FOR RETREAT. The Daily Mail's Rotterdam correspondent says that three Zeppelin airship sheds are being built at Brussels and four at Antwerp. The correspondent adds that bridges have been erected over the River Meuse between Liege and Vise, preparing a way for a German retreat.

GERMANS REPULSED NEAR MIDDLEKERKE. The Amsterdam Telegram's Sluis correspondent says that apparently the Germans have been repulsed near Middlekerke. Their guns are now pointed east, which is still in the possession of the Germans, the correspondent adds.

NO DECISIVE RESULT

The Belgian minister of war announces that the battle continued throughout Monday in the region of Dixmunde and Ypres, but without decisive result.

TOTAL CASUALTIES NOW MILLION AND QUARTER

Special to The Toronto World. NEW YORK, Oct. 20.—Based on the official casualty lists of Great Britain, which shows a loss of 16 per cent in killed, wounded and missing, the total loss of all belligerent armies up to date is approximately 1,272,000. Again using the official figures given out by the British government as a basis the total of men rendered hors du combat for all armies is one killed, three wounded and ten captured. This would give a total of 90,858 killed, 272,972 wounded and 998,570 captured.

TASK'S TITANIC SAYS NAVY CENSOR

George Armstrong Writes to Sir Henry Pellatt Reflecting English Views.

WANT CANADIAN BORN

Are Your Men Joining Colors Wholesale? is Pointed Query.

Chief Admiralty Censor George Armstrong has written a most interesting letter to Sir Henry Pellatt, which admirably shows the martial spirit that has pervaded the Britishers of the old land, and asks whether Canadians are yet aroused to the responsibility of the Dominion. The letter in part says: "The Dominion is making a fine response to the call for men, but what we hope to see over here in the old country are regiments of men who are Canadian-born."

Mr. Armstrong asks "Are your young men joining the colors wholesale and are they doing so here? Is the farm hand leaving the farm, the counter jumper his shop, the artisan his laith, the mill hand his loom, the train conductor his clerical business men, leaving their offices and joining a private? That is what they are doing over here."

"I trust as Canada is a young man's country, you possess a higher average of young men in your population than any country in the world. Your levy of troops should therefore be higher than any other country."

"The fiercest struggle will be in the future, flanked by their own fortresses and occupying their own chosen positions. Let Canadians realize this. Her own existence, her own ability to carve her own destiny is at stake. The empire must sink or swim with the old country."

"I suppose the Canadian Government will play the game and do all in their power to temper the wind to the shaven head. I have shown their faith in the Dominion by their capital in its development. Your government will show the wisest statesmanship in so doing if they desire the tide of money to flow towards them after the war. This is not a matter of dead ends, not words, and the remark applies with particular force to commercial matters just now."

The writer concludes with the cheery remark, "Don't worry about the submarines."
