

that which is the subject of this schedule, is, on the whole, the easiest to obtain and the easiest to record.

The following remarks, however, may be made:—The *home-made cheese*, mentioned in column 15, is here entered as in contradistinction to cheese made in cheese-manufacturing establishments, which is to be entered in Schedule No. 6. In the same way home-made fabrics are to be kept distinct from those made in cloth and linen factories. As regards column 18, it must be remembered that cloth and flannel are to include blankets, shawls, &c., and all other such articles reckoned by the yard.

SCHEDULE NO. 6.

Industrial Establishments.

This schedule is one of the three, of which it is not required that all the questions be put to every head of family; or negative answers recorded.

There is in it, moreover, no reference to Schedule No. 1; the proprietor's or company's name being here entered with the name of establishment in *column 1*. Entries in this schedule are only to be made when an Industrial Establishment of some kind is met with, but the enumerator is required to ask whether such does or does not exist, at every visit he makes.

An industrial establishment is a place where one or several persons are employed in manufacturing, altering, making up, or changing from one shape into another, materials for sale, use, or consumption, quite irrespectively of the amount of capital employed or of the products turned out.

A lime kiln, a cheese factory, a brick-yard, a ship-building yard, a grinding-stone factory, a sulphuric acid manufactory, a saw mill, a marble cutter's shed, a wheel factory, a pottery, a foundry, a meat-curing or "packing" establishment, an establishment to manufacture copper regulus or purify plumbago, a cloth manufactory, a carding mill, a grist mill, a planing and dove-tailing mill, a sash factory, as well as a shoe-making, harness-making, dress-making, tailor's, or blacksmith's shop, or carpenter or joiner's shop, &c., are all industrial establishments. Any establishment, we repeat, where materials are manufactured, made up, changed or altered from one form into another, for sale, use, or consumption, is an industrial establishment. All repairs, mending, or custom work, are understood to be industrial products; and are to be entered accordingly, by value, in the returns of industrial establishments. It must be well understood that hands employed on hire
