MPORTANT OIL POOL

Rockwood Company Ships About Five Thousand Barrels During July.

Hamilton B. Wills, in his weekly narket letter says: "For years the Province of Ontario has occupied foremost position as a producer of nickel, silver and gold, and its minera. nickel, silver and gold, and its mineral resources have done more to make this country far-famed than any other of its industries. To this list may now be added oil, and a quality of the highest grade. From what I saw on Friday last, on which day I visited and carefully examined the Rockwood oil & Gas Company's holdings in Glencoe, Ontario, I am firmly convinced an oil pool of major importance has been pierced in the Glencoe field. What impressed me as I walked along the jerker lines was the fact that each of the six wells was pumping forth its liquid gold, and the need of greatly increased storage tank capacity was clearly proven. As I stood beside one of these big tanks, filled to the brim, both markets on Saturday revealed a both markets on Saturday revealed a loss of the second state of

U. S. Steel Weakens at Close Shorts in General Motors Squeezed.

New York, Aug. 3.—The hollow character of today's stock market may be sauged from the fact that transactions in the two hours of the session barely touched 70,000 shares. Of this small total United States Steel furnished about 20 per cent., relinquishing its half-point gain at the close. Other equipments of the same class moved with similar circumscribed limits.

Pools perpetrated another drive against the shorts in General Motors at an extreme advance of 6½ points, most of which was retained, and Nova Scotia Steel, ordinarily one of the most inactive issues, made a net gain of 7 points on sales/of fewer than 1000 shares.

Rails were dull to the point of extinction, but a few specialities, such as tobaccos, oils, coppers and issues of no definite description, gained 1 to 2 points. Reception of the brilliant war news might have been more pronounced on any other day than the week-end, altho sentiment was slightly upset by reports of a forthcoming war tax schedule imposing heavy penalties.

The bank statement threw no light on the week's heavy financial operations, actual loans showing only a nominal increase, while actual excess reserves decreased by slightly more than \$17,000,000. Bonds were steady, Libeng 3½'s again reaching par, altho successing issues eased slightly. Total sates par value, aggregated \$2,800,000. Old United States bonds were unaltered on call during the week.

FURTHER DECLINES

Good War News and Weekend Liquidation Have Effect.

Chicago, Aug. 3.—Auspicious war news and week-end liquidation brought about the early continuous downturns today in the value of corn. Prices closed nervous, 1½c to 2½c net lower, with August \$1.55½ and September \$1.57½ to \$1.57½. Oats lost 1½c to 2½c, and provisions 5c to 35c. General selling and lack of support characterized the corn market throut the session. A majority of longs apparently took the view that both the military outlook and the crop status had made the time opportune for unloading without any attempt at delay over Sunday. The increasing rapidity of the allied successes in France and the indications that dry sections of the corn belt would be relieved by rain were equally sources of weakness, and in particular to holders who had bought on yesterday's advance regardless of extra bearish advices from the battlefront. In today's trading the only rallies which occurred were brief, and seemed to be due altogether to profit taking by shorts.

Free hedging of the new crop weakmed the oats market. Receipts here were heavy, and for the week totaled more than twice the amount a year ago.
