#### A Harmonious Background for Your Social Life

Such Should Be the Dining-room in Your House, and After the Difficult Question of Decoration Has Been Settled, Furniture Claims a Place of Importance in the Scheme

BRILLIANT crystal, gleaming silver, the finest of napery and fragrant flowers lose all their effect unless framed in a worthy setting. Given that the success of your dinner is a foregone conclusion and the company a merry one, as friend Pepys would say.

No man understands these psychological details more thoroughly than the furniture expert, and in consequence particular attention has been given to the dining-room suite in our August Sale. Designs to suit every period and taste—from the impressive William and Mary suite to the slender

grace of the Hepplewhite motif, or the stately formality of an Adams design—insinuate themselves into the good graces of prospective purchasers by the sheer beauty of their lines and finish.

In the suite of the picture one is specially impressed by the harmonious lines of the oblong table, with an unusually happy treatment of the legs—indebted to the Corinthian pillar one would imagine for their flutings and acanthus leaves. Then there are the chairs, with their shield backs, leather slip seats and tapering legs, a buffet with concave front of sweeping curves, china cabinet and serving table, making up a total of ten pieces. All the details dear to the housewife have been considered, for the buffet has no less than three drawers—a long, top one for napery, and the second divided and lined for flat silver, with a third deep drawer for all the small linen. The soft blue of your willow pattern, or the dull reds and golds of Royal Worcester will beckon

entingly from behind the glass doors of the china cabinet, and there is a wide ledge on top, too, where some precious vase may find a resting place. In mahogany finish, the suite of ten pieces is priced for the August Sale at \$632.00. In walnut finish, with the addition of a long mirror on the buffet, the price is \$650.00.

Chippendale forms the inspiration of an American sample ten-piece suite, which shows the curved cabriole leg and familiar ball and claw foot. An interesting cable effect encircles the round table, and the chairs have the ribbon panel back, with slip leather seats. A long linen drawer, with sliding shelf and two small drawers and cupboards, make up the complement of the buffet, and there is a serving table, with full length drawer and lower shelf. An interesting divergence is the panel bottom of the china cabinet, which makes an extra cupboard, and also a successful finish to the glass doors. \$550.00 is the price of this ten-piece suite.

Dining-room suite in Queen Anne motif, black walnut, buffet has full length divided mirror back, 54-inch heavy double top, 4 drawers and 2-door cupboard. Price, \$78.50; china cabinet with 2 glass doors, \$56.00; extension table has 52-inch round top, \$65.00, and 5 small and 1 arm chair with slip seats covered in leather. Sale price, \$78.50.

Dining-room suite in black walnut, William and Mary motif, showing the character-

istic cup and saucer turning and lower cross stretcher supports, buffet is 60 inches long. Sale price, \$90.00; china cabinet has full length drawer, \$79.00; oval top extension table extends to 8 ft. Sale price, \$68.50; set of 6 chairs. Sale price, \$97.50.

Buffet, large massive design, quarter-cut oak, fumed or golden finish, has scroll shaped back, with full-length bevel-plate mirror, built up top, 48 inches long, double door cupboard with shelf, 2 small and 1 long drawer for cutlery and linen, fitted with wood knobs. Sale price, \$85.00.

Extension table, quarter-cut oak, fumed finish, 45-inch round top, with lock, bevelly tapered legs, extends to 6 feet, with easy running slides. Sale price, \$31.50.

#### TO ERECT NEW HOTEL UPON CATTO PROPERTY

Building With Five Hundred Rooms to Be Built on King Street.

That the United Hotels Company of America, proprietors of the King Edward, is about to assist Toronto in solving the hotel and general accommodation problem is evidenced by the statement made to The Sunday World yesterday by George H. O'Neill, general manager, to the effect that within twelve months Toronto will have a new hotel with 600 bedrooms. The additions at present being made to the King Edward will give that hotel alone 600 bedrooms, so that when the new building is completed there will be one thousand rooms in all, and everyone with a bath. Asked particularly with regard to the new hotel, O'Neill said the plans were already being prepared for a palatial building to occupy the property where the John Catto Company is now situated. "The buildings," Mr. O'Neill added, "will be 92 feet frontage on King street and 138 feet in depth. In addition to the 600 bedrooms there will be a convention hall capable of seating 2000 people, a restaurant to accommodate one thousand, and a

roof garden commanding a delightful outlook over the bay. The hotel will be fifteen stories high, and the total cost will be approximately \$2,000,000. "Work," said Mr. O'Neill, "will be started inside of three months in the tearing down of the old buildings. When completed the King Edward Hotel will be the last word in hotel-dom."

#### DID FRIENDS AID IN ESCAPE FROM ASYLUM?

It is a prevailing idea among those in touch with the Isaac Estrean escape from the Hamilton asylum that the latter's escape from custody was engineered by his friends to secure his permanent address. Estrean, his friends say, is sane now no matter what his condition may have been when he shot his sweetheart, Annie Garlock, on Adelaide street, in 1915. It is also believed that Estrean will be surrendered to the authorities if his sanity after an examination by an outside alienist can be substantiated. Some months ago the friends of the escaped man consulted a well-known lawyer and asked him to set the necessary machinery in motion to have the man examined, but nothing could be done, and from all accounts the friends have brought him to Toronto, where alienists will examine him. With the certificate of sanity it is believed that Estrean's release would follow in short order.

#### DOCTOR THREATENS TOWNSHIP COUNCIL

Demands That Dust Nuisance in Oakwood Be Abated.

Dr. W. R. Newman, of 160 Oakwood avenue, has written to the York township council, threatening action unless steps are taken to abate the dust nuisance on Oakwood street. He writes the council that an oiling-keeps the dust down about one day and thereafter until the next oiling, the dust, laden with germs, makes living almost unbearable on the street. Speaking to The World this morning, Dr. Newman said that there are an unusual number of people living on the street who have throat trouble and this he attributes to the bacteria in the dust. Many people, he says, are anxious to sell out and move because of this. Notices, he says, were sent around about the 1st of July that the street was to be paved at once, but the doctor has since heard that the paving of Oakwood will be postponed until next year. At the same time, he says, paving is going forward on Lander and Glenholme considerably north of the section of Oakwood that was promised a pavement this year.
