We have a line up on top there, which says, "If it's from Oak Hall, it's a bargain." We don't put it there because we think it's particularly clever or smart. We are very serious about it. We believe it is true. The word "bargain" has almost lost its meaning in some stores. It is generally tacked on to some cheap stuff, "Bait" would be a better word in such cases.

We sell good trousers, good suits, good pea jackets, good overcoats, good clothing generally. We add a fair profit—the smallest we can and pay honest expenses A good article at a fair price is our idea

For Peat Fuel.

E.J. Checkley and P. J. De Bangy of the Canadian Peat Fuel Company, Toronto, are in the city to-day. They purpose visiting the Beverly swamp to make an inspection. A plant will be established for this city as near to Hamilton as the peat beds will permit. They are anxious to get samples of swamp muck from all parts of this section of the country, with information as to the extent of the deposits of muck and nature of the growth on the surface. By a very simple process, which, however, requires an expensive plant, the swamp muck is converted into fuel, which the company claims will soon supplant coal for ordinary purposes.

The Demon Dyspepsia.—in olden time it was a popular belief that demons moved invisibly through the abient air, seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that x valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. ed
