ONE CENT

RECIPROCIITY WITH CANADA
IRISH LEADER IN MONTREAL

Members of Washington Convention Devoted Last Night's Session to Its Discussion.

BOSTON DELEGATE ADVOCATES IT. RESORT TO ARMS JUSTIFIABLE.

Mr. John Charlton Urges a Canadian View—Lumber Interests Wish It on Condition.

Washington, Nov. 20.—At the forenoon session of the National Reciprocity convention today, A. B. Valentine of Bennington, Vt., president of the National Association of Kait Goods Manufacturers, offered the following resolution as representing the views of that association: "Resolved, that in the opinion of this convention the treaty known as the French reciprocity convention should not be ratified." It was referred to a committee.

Thus Sheard of Little Falls, N.Y., declared that competition was the means for solving any reciprocity into its proper class. He said the French reciprocity treaty had inflicted actually to reduce the duties on dutiable goods 2 to 10 per cent, below the rates imposed by the Wilson bill. A great deal of foreign trade was done on a profit of 5 per cent.

"What was the occasion for the change?" asked Mr. Sheard.

"Has anyone in the convention heard any explanation offered?"

The session adjourned at noon, when the officers of the convention and a committee of 10 proceeded to the White House and called on President Roosevelt.

Trade With Canada.
The session tonight was devoted mainly to the question of reciprocal trade relations with Canada. Several papers were read, after which some routine business was disposed of, and the convention finally adjourned.

The views of the Boston Chamber of Commerce on the subject of reciprocity with Canada were presented in a paper by Mr. George P. Coppick. There was, he said, from the conclusion that Canada should be included in any general scheme for reciprocity treaties, no logical excuse. We should cultivate such a good customer and not incur the hostility.

Mr. Charlton's Opinion.
Mr. John Charlton, a member of the Canadian parliament, spoke earnestly in favor of some reasonable concessions in trade relations to meet the liberal trade accorded the United States by Canada. He said, he wanted reciprocity and free trade in the natural products of both countries. Canada could not permit existing conditions to continue.

Lumber Interests.
Mr. William Irvine of Chippewa Falls, Wis., largely identified with the lumber interests, discussed the attitude of the lumber interest on the question of reciprocity with Canada. He believed that the lumbermen of the United States would voluntarily agree to the reciprocity proposed by the Canadian High Commissioner, provided those who are engaged in the manufacture of things consumed by the lumbermen in the manufacture of lumber agree to a similar reduction of their products. He also discussed the preferential duty on Canadian goods proposed from Great Britain.

Mr. W. C. Barker of New York offered the following resolution, which was unanimously adopted:

Resolved, that the Canadian Pan-American Congress, Mexico City, Mex.

The National Congress in Washington sent final greetings to the Pan-American Congress, and express the hope that the work of the Congress would lead to more intimate commercial relations between all the American peoples.

Committee on Resolutions.
George P. Sheard of Philadelphia offered resolutions favoring subsidies to American shipping and construction in Canadian waters, but the convention was not disposed to take up the question, and Mr. Sheard, in the interests of peace and harmony withdrew the resolutions.

After considerable debate a motion was adopted referring to the committee on Resolutions all resolutions not acted upon by the convention, the committee to determine the action to be taken upon them.

THE SITUATION IN AUSTRIA.
London, Nov. 20.—The Vienna correspondent of The Times says the situation in the Reichsrath, due to the violent nationality conflict going on outside, which shows no signs of abatement, is a critical one.

PERSONAL AVERSION.
London, Nov. 20.—Truth says that the hereditary Prince of Hohenzollern-Langenburg and the Prince of Hohenzollern-Hechingen visited Emperor William at Potsdam, Nov. 15, and acquiesced him with the fact that the Duke and Duchess of Hesse would be divorced on the ground of "insuperable personal aversion." All efforts to arrange a modus vivendi having failed.

SIX MEN LOST.
Boston, Nov. 20.—The long over-cue schooner, Maud of Beverly, coal laden, from New York for her home port, has foundered at sea and her crew of six are believed to have perished. Captain Howard says the schooner was wrecked in a heavy fog off Cape Cod, and that the bodies of five of the crew were seen floating in the water. The Maud is believed to have been wrecked on the coast of Nova Scotia.

Chicago, Nov. 20.—The Record-Herald's London correspondent writes: "The war with America," according to a high authority, has become the shibboleth of British foreign policy. The same authority declares that this principle directed the withdrawal of the British fleet from the Mediterranean, the withdrawal of British troops from the Sudan, and the withdrawal of British troops from the Sudan.

PROTECTION IN RUSSIA.

Only Natives to Get Contracts for Public Works.

St. Petersburg, Nov. 20.—The importation of iron, steel and other building material is likely to be practically killed by the action of the Ministry of the Interior. Peremptory orders have been sent to the municipalities and provincial councils that all contracts for public works, especially where iron and steel are employed, must be given only to Russian contractors. It is asserted that in Russian law such a measure is illegal.

NEW ORDER NOT FORMED.

Ottawa, Nov. 20.—The proposed Canadian Order of Railway Men was not formed here to-day as was expected. The meeting was still attended, and officers of the present international railway order discouraged the formation of the new order.

ITALIAN PARLIAMENT SPLIT.

Rome, Nov. 20.—The imminent re-opening of Parliament finds the various parties divided. The Socialists, owing to theoretical disagreements, are split into groups and unable to give their usual solid support to the ministry. The Monarchists of the north and south are divided, and one of the parties will necessarily join the opposition. A partial ministerial crisis or a brief and barren session is expected.

CABINET TOOK NO ACTION

But the Subject of Another Canadian Contingent Was Discussed Yesterday.

TWO COMMANDES ROUNDED UP.

Lord Kitchener Reports Capture of Fifty-Four Boers, Including Two Field Cornets.

Ottawa, Nov. 20.—At the close of to-day's cabinet meeting the Premier was asked if he had any statement to make in regard to the cables passing between the Dominion and the Imperial governments in respect to the sending out of a Canadian corps to South Africa. He replied that he had not. It is, however, understood that the subject was under consideration. The facts are pretty much as already made public, and that is that enquiries have been made from the Imperial governments in respect to the sending out of a Canadian corps to South Africa. NOT FOR THE BOERS.

London, Nov. 20.—The steamer which the government caused to be detained yesterday at Victoria docks is named the "Pickings". She had been used to carry passengers between London and Aberdeen, and was sold three weeks ago ostensibly for use in the West Indian fruit trade. It is suggested that the vessel was laden with contraband of war destined for the Boers, but it is not vaguely suggested that any contraband on board of her was intended for Colombia. Customs officers are still on board the Berang.

SMOTHERED IN GRAIN CHUTE

Thomas Allen Meets With Horrible Death at Sylvester Brothers' Elevator.

TOOK TWO HOURS TO RECOVER BODY. Believed to Have Fallen Alive and Been Drawn Into the Chute.

Sylvester Bros. large grain elevator, situated near waterfront at the foot of Church-street, was last night the scene of one of the most shocking fatalities that have taken place in Toronto in a long period. Thomas Allen, the victim, fell into a grain chute, and was literally buried alive. Two hours elapsed before the body was taken out by fellow-workmen, who made the horrible discovery. Coroner Greg is investigating the circumstances surrounding the death, and will open an inquest to-night at 8 o'clock at the Morgue.

CHARGED WITH THEASON.

London, Nov. 20.—When Dr. Krause, the former Governor of Johannesburg, was arrested Sept. 2 on a charge of high treason and inciting to murder, was brought up on remand at Bow-street today for the thirtieth time, the treasury representatives created some excitement by announcing that they withdrew the application for the prisoner's extradition to South Africa. Dr. Krause was committed to the Old Bailey on charges of high treason and incitement to murder. The treasury officials consider there is ample justification to try Dr. Krause here on the charge of inciting Dr. Cornelius Steyn to murder, the former public prosecutor of Johannesburg, who was executed Sept. 30, to murder Douglas Foster, an English lawyer, attached to Lord Roberts' staff, who was very active against the Boers. Witnesses were called to support the charges. Dr. Krause was remanded for a fortnight in £4000 bail.

TWO COMMANDES CAPTURED.

London, Nov. 20.—A despatch from Lord Kitchener, dated Pretoria, to-day, says Lieut. Colman's column has rounded up Boyers' and Badenhorst's Boer commandos, 30 miles northwest of Pretoria. The troops killed three men, wounded six and captured 54, including two field cornets. The column also captured much stock and munitions of war.

NO INTERVENTION.

The Issue, Nov. 20.—The Administrative Council for the Court of Arbitration decided to-day that it was incompetent to consider the Boer appeal for intervention to the war in South Africa.

ZURICH PRO-BOERS.

London, Nov. 20.—Notwithstanding the general sympathy in Switzerland for the Boers, says a despatch to The Times from Zurich, some Swiss object to the aggressive agitation against Great Britain carried on in that city by the Pan-German League, which convened a big pro-Boer mass meeting on Monday night. The meeting was addressed by an alleged Boer commandant named Juste and others.

MYSTERIOUS MOVEMENTS REPORTED.

British Cannot Protect the Natives From Boer Raids on Their Cattle.

New York, Nov. 20.—The Daily News prints the following from Amsterdum: There is some serious talk here of Boer advice having been received from Lorenzo Darius reporting mysterious Zulu movements antagonistic to the British in South Africa. Dinizulu, the present "captain" of the Zulu nation, is described as being covertly hostile to British rule, and to have taken courage from recent military successes on the Zululand frontier. After the annexation of Zululand, Dinizulu was confined at St. Helena. The Boers here state that since the British cannot protect the natives from Boer raids on their cattle, there are signs of a prospective outbreak, and Dinizulu may be expected to assume the offensive. It is conjectured that the object of Gen. Buller's recent movements on the Zululand frontier and the present excursions towards Vryheid and De Jagers Drift are principally to encourage and promote action among the followers of the young Zulu war party. Moderate Boers here, however, declare that Dinizulu would be the last man to avail himself of Kaffir aid. Dewet might be less scrupulous. They assert that in a general revolt of South Africa blacks the Boers would fight shoulder to shoulder with the British against the ever-constant, if lately latent, menace to white man's domination in South Africa.

TO WAR ON ANARCHISTS.

European Powers Planning a Combine to Stamp Out the Pest.

Berlin, Nov. 20.—It is stated on the most reliable authority that Germany and Russia are about to unite in assembling an international congress for the suppression of Anarchy and Anarchists. The invitation is in the course of preparation, and will probably be issued before the end of the year. While the assassination of President McKinley will be mentioned only incidentally in the circular call to the nations, there is no doubt that the proposed congress is chiefly of the nature of a war of protest that swept thru the palaces and chateaux of Europe since the Buffalo tragedy. The movement is supposed to be directly inspired by the Kefauver and Carr. The plan of meeting is left to the choice of the participating governments. Both the signatory powers desire the hospitality of their countries.

WELSH MAGISTRATES AVERT DAMAGES TO THE MINE OWNERS.

London, Nov. 20.—In fifteen test cases brought by the Coal Owners' Association against individual leaders of the miners' organization, and growing out of the action of the unions in stopping work in the mines last October in order to keep up the price of coal, and consequently, of wages, under the sliding scale agreement, the Welsh magistrates sitting at Aberdare to-day, awarded small damages to the employer in each of three cases. The magistrates also ordered that workmen, the giving notice of intention, have no right to withhold work with the object of restricting production.

EMBEZZLER ARRESTED.

New York, Nov. 20.—William E. Hardy, formerly a prominent silk merchant, was arrested at the Imperial Hotel last night, charged with embezzling some from the bankrupt firm of Worthington, Smith & Co., of which he was a trustee. He is thought to be about \$30,000 short. Hardy was married on Oct. 2, in Grace Church, to Miss Marion Sarah Von Hahn, daughter of the late Richard Von Hahn of Toronto. They spent their honeymoon at Lakewood, N.J., and expected to sail for Europe shortly.
