SATURDAY MORNING

Council Objected to an Inspection in Private Car of the Metro-

Two Weston Children Locked in Trunk and Narrowly

The members of the York County Council ook a trip over the Metropolitan Railway to Newmarket yesterday afternoon, but not without a good deal of unfavorable comook the ground that they had been invited to inspect the new cars on the Metropoli-tan, and when they learned that they were to go in a private car, most of them, the orthern men especially, spoke strongly in favor of rejecting the invitation. Mr. Woodcock said that the invitation had been acepted, and the warden had invited officials and friends to accompany him on the trip. Evtn this did not prevent Councillors Lundy and Kirby from continuing their oppo-sition to the jaunt. Mr. Lundy said he would not be seen entering Newmarket in a private car of the company. The object of the trip was to see how comfortable the new cars were, and if a new car was not there, there was no object in taking the trip.

The question of removing snow from the railway tracks was brought up by the possibility of a lawsuit against the county for injuries sustained in a collision with a street car due to the impassable condition of Yonge-street. The street railway company throws the snow from their tracks on to Yonge-street. Some municipalities would like them to throw it on to the other side. Then arose the question what body can govern the removal of snow from the track. When the municipalities were handed over the roads, the act stated that bylaws must be passed to keep them in repair and in a passable condition. Mr. Hill said that there was no use having a clause in the act giving the county power to compel the Metropolitan Railway to clear away snow unless there was a penalty. York Township had intended to appoint P. S. Gibson, engineer, to look after such matters in that township, but they were advised that if they did not pass the bylaw taking over the roads that the duty of dealing with the railway company devolved upon the county. He thought it was an undecided question whether the county or the township was responsible for keeping the road spassable where a bylaw had not been passed taking over the roads. The Solicitor thought that the law was plain, and that the township were obliged to maintain the roads in a passable condition, whether the bylaw was passed or not.

During the evening the chairman made the president, John E. Rowstron, the recipient of the silver cup won by the team on Thanksgiving Day. The club was formed too late in the season to join the football deague, but had a very successful season inevertheless, winning eight games out of nine played. It will join the league this year. Another presentation made was that of a framed photograph of the members to the Railway Club. Among those who contributed to the enjoyment of the evening were: George Gibson, plano solo; A. Munro, in Scottish and Irish dances; Geo. Bain, comic songs; Mr. Allen, on the bagpipes: Lébar Bros, in sketches; Messrs. Pooley, Peterson, Farreil and Mahoney, in songs, and Messrs, Harrison, Hooker-and Sinclair, in a farce entitled, "The Music Teacher."

Harold and Marion, children of James Filligan, nearly lost their lives in a self-clasping trunk whilst playing hide and seek in an upstair room. Marion climbed unside and hid under some blankets, Harold, on finding her, was helping her out, when he accidentally fell in and at that moment the lid fell down. Their cries were too feeble to arrest attention, but their mother, suspicious of their quietness, sent their sister upstairs to see what they were doing. Noticing no one and hearing nothing she told her mother that they must have gone out. Their mother at once went upstairs, heard a faint cry, opened the trunk and found both children nearly smothered, with sweat standing out on them. They had been in the trunk half an hour.

We sell on the old basis during February—discounting our old prices for the sale—but after that we will have to follow the manufacturer's present
