A LARGE, BRIGHT STOCK OF EATON-MADE CLOTHING

AWAITS YOUR INSPECTION

ONE of the wonders of modern economic manufacturing is an up-to-date Men's Clothing Factory. The handling of workers of materials and manufacturing operations on such a large scale is surely astonishing.

It is evident that this can be done only by the most rigid organization and economy of time and materials.

It has been the work of years to perfect the production of men's clothing so that it will meet the requirements of men who demand CORRECT clothing.

EATON-MADE MEN'S CLOTHING MEETS THIS DEMAND

Manufactured by us, in our own factory, where every piece of cloth is thoroughly inspected; where the cutting is done by experts, and each Suit or Overcoat tailored by the most competent and skilled tailor.

- EVERY EATON-BRAND COAT HAS HAIR-CLOTH FRONTS.
