

HAMILTON HAPPENINGS

HAMILTON LABOR COUNCIL HOLD ANNUAL ELECTIONS

Interested in Views of Technical Education Commission—An Exciting Chase.

HAMILTON, Aug. 5.—(Special.)—At the semi-annual meeting of the Trades & Labor Council to-night, the following officers were elected: Joseph Gimblett, president; C. Coutts, vice-president; Walter Rolfe, recording secretary; H. J. Halford, financial secretary; F. Williamson, treasurer; F. Dwyer, sergeant-at-arms; John P. Ryke, W. Harrower and Walter Rolfe, auditors; Charles Coutts, Alfred Wilkes and Allan Studholme, M.L.A., trustees; Joseph Gimblett, C. Coutts, H. J. Halford, F. Williamson, J. Patfield, E. Harrower, F. Dwyer, A. Studholme and S. Cowan, executive board. H. J. Halford was elected delegate to the Dominion Trades and Labor Congress, which will meet in Fort William Sept. 12. President William Glocking of the Dominion Trades and Labor Congress, addressed the meeting, on the importance of the congress to the workmen of Canada. A committee was appointed to report to the congress the views of the technical educational commission, as expressed on their visit here.

An arrest, an escape and a sensational chase, in which a detective and a champion policeman participated, created considerable excitement in the centre of the city to-night. Detective Sayer arrested Edward Watson of Detroit on a charge of stealing various sums of money from Ernest Snow, an acquaintance of his. Watson asked Sayer not to put the handcuffs on him, on account of the humiliation, as the detective consented to leave them off, on Watson promising not to try to get away. They proceeded to walk to No. 5 police station, when about a block away from it, the prisoner bolted. He ran up Rebecca-street, with Sayer close on his heels, and cut him off. Watson was therefore locked up, on the two charges, theft and escaping from custody.

Detective Cameron to-night arrested David Hill and Michael Hennessy, boarders at the City Hotel, on the charge of stealing a coat and pair of trousers from Bell's.

The fire department had a couple of small fires this afternoon. The apartments of Louis Beaudry, 230 East King-street, were damaged to the extent of \$100.

The law student who defeated the reporters in a game of baseball at the Mountain View Park this afternoon by a score of 14 to 12.

George Brown, 567 East Main-street, had the tenderest of his hair cut by a circular saw at Brown's Whip Factory this afternoon. The wounds were dressed at the City Hospital.

The city officials are having considerable difficulty in obtaining sufficient teams to promptly carry out city work. Teamsters are paid 40c per hour, but the dearth of them is beginning to be seriously felt in civic circles.

The happiest men to-day on the Grand Trunk Railway are the freight engineers and firemen, who since the commencement of the strike, have been compelled to remain idle, and at the same time, receive no pay, either from the company or the union. This morning they received notification from the local railway officials to report for duty at once.

Hon. Mr. Pursey, the minister of public works, and Hon. Mr. Brodeur, minister of mines and fisheries, were expected in the city this afternoon to look over the work necessary in the bay, but have been delayed, and will not arrive until to-morrow.

STRIKE COMMITTEE HELD AN HARMONIOUS MEETING

Members Realized Best Possible Had Been Done—G.T.R. Reorganizing Staff.

MONTREAL, Aug. 5.—(Special.)—The general meeting of the G. T. R. strike committee was in session here to-day, going over the details of the settlement the men have accepted. It was announced that the meeting had been harmonious, and that the forty-five members present realized that the best settlement possible had been secured. Vice-presidents Murdoch and Berry will continue the movement to-morrow in order to inform the committee as to all details of the strike settlement, so that they can give full statements when they reach home.

Everything indicates that the G.T.R. are quietly reorganizing their staff of trainmen; the strike is over. Five of the old staff of conductors were taken in to-day to handle the suburban service and another batch of yardmen were given employment in the P.O. St. Charles street. The G.T.R. authorities are proceeding slowly and are filling vacancies as they occur.

The situation to-day and from this on concerns those men only, who are continuing the details of the agreement their leaders have made. It is believed however, that things will come around in time, that the men who went out will have to wait a while for it.

SPANISH GOVERNMENT FEARS DEMONSTRATION

Rushing Troops to San Sebastian Where Clerical Forces Are Gathering

MADRID, Aug. 5.—Alarmed by fears that the proposed demonstration of the clerical forces at San Sebastian, the summer capital, will assume the character of an uprising, the government today commenced rushing troops into San Sebastian. A regiment of hussars left Madrid for San Sebastian this morning, followed by another regiment of cavalry and two battalions of chasseurs. A regiment of the infantry was also ordered to San Sebastian from Vittoria.

Both General Weyer, the captain-general of Catalonia, and Count Sagasta, the minister of the interior, will go to San Sebastian, to be in immediate charge in case of disorder.

The government believes that the Carlists and the members of the religious orders, which are numerous in the North, are openly inciting their followers to violence. The government of the Basque Provinces and the adjoining Province of Navarre, immediately charge to the mayors of all the municipalities in these provinces to warn the Roman Catholics against assembling or entering the city of San Sebastian with arms, and that the most energetic measures would be taken to repress any attempt at a manifestation.

Catholics Gathering.

BILBAO, Spain, Aug. 5.—Since the government has ordered the railroad companies not to furnish special trains for the proposed demonstration at San Sebastian Sunday, the Catholic adherents are already commencing to leave for the summer capital upon the ordinary trains.

Blame Freemasons.

ROME, Aug. 5.—That the Freemasons are at the bottom of the strained relations between the Vatican and the Spanish Government, and that they find in Canalejas, the Spanish premier, a ready tool, is the declaration of Cardinal Ferrari. He says: "The whole thing is the result of the anti-clerical wind which swept over France, crossed the Pyrenees, and is now blowing thru Spain. The Church has won more difficult battles in the past, and it must not be forgotten that the nations that have quarreled with her have brought on their own ruin."

LONDON PAPER TALKS OF MANIFEST DESTINY

Does Not See Anything to Fear in Canadian Reciprocity With the U.S.

(Canadian Associated Press Cable.)

LONDON, Aug. 5.—The Daily Chronicle gives prominence to the feature of the western farmers' agitation against the tariff, under the heading, "Canada's Reciprocity Blow to Balfour Bottom Knocked Out of Protection."

Editorially, the Chronicle says it is not surprised that the farmers urging the policy of reciprocity with the United States, as nature meant Canada and the United States to exchange commodities freely. "Man in his stupid folly has erected obstacles to hinder that free exchange. Wise statesmanship would seek to lower or remove the obstacles."

There are some worthy people who fear that reciprocity would tend to weaken the ties that bind Canada to the mother country. It is a foolish and unworthy fear, Canada, existing in her own neighborhood, proud of her place in the British Empire, will never merge her identity in her gigantic neighbor. If from recognition of her economic interests she enters into reciprocal relations with the United States, she believes it will not be a bad thing for the British Empire.

The Express defines the champions of free trade to seek some prop for the tottering tabernacle of their protectionist ideas. It says that the western farmers is already a movement in the direction of an imperial preference.

The News, like The Chronicle, publishes an interview with a well-known Canadian, who gives reasons why the western revolt is bound to succeed.

The Leader says there appears to be no sort of doubt now as to what it is the Canadian farmers want. The murderer is out. These Canadians are the rank and file.

Accidental Death.

Accidental death was the verdict returned by the jury at the inquest on Robert Murphy, who was killed at the foot of George-street on July 28 by wandering among the C.P.R. freight cars while under the influence of liquor.

The jury also inserted a rider that the man who was not properly protected and lifted, Murphy, was employed by the Greys Foundry.

Massacres in Syria.

COONANTOPE, Aug. 5.—Fully 1000 Christians and Mussulmans have been slain this week in the massacres in Syria, according to despatches to-day from Damascus. The situation is somewhat relieved to-day, the despatches say, owing to the arrival of the vanguard of the troops that are being despatched to the scene.

Will Manage New G.T.R. Hotel.

OTTAWA, Aug. 5.—It is likely that Arthur Guise, now controller of the governor-general's household, will be manager of the new G. T. R. hotel, the Chateau Laurier, on its completion. It is expected to be opened in about twelve months.

The weather yesterday was of a sort to make the thoughts turn to fall overcoats and wraps. It was really cool for August, as the statistics at the observatory showed, for the mean temperature of 61 was 7 degrees below the average. The highest was 69 degrees and the lowest 53 degrees.

Reports show that it is fairly cool all over Canada, including the western wheat belt. If the mercury keeps on dropping, probably crop alarmists will begin to talk of danger from frost.
