SAGE TEA DARKENS HAIR TO ANY SHADE.

Don't Stay Gray! Here's an Old-time Recipe That Anybody Can Apply

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Weyth's Sage and Sulphur Compound" you will get this famous old recipe which depends upon the most natural color and beauty to the hair and is splendid for dandruff, dry, flaking, itching scalp, and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning this gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft, and abundant.
