In connection with a suggestion that Union Street be widened to Waterloo Street, he made a one-way street Commissioner (Thornton) said today that he doubted if the widening would be of much use in view of the narrowness of Union street, the forbidding of all parking of automobiles along that street from Prince Edward to Germain street, thus maintaining a moving traffic all the time. As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "there has been an election in Ireland."

"How many heads was broke?" queried Hiram.

"The hospitals," said the reporter, "have reported any congestion at all."

"Must be some mistake," Hiram said. "There were Irish fellows couldn't get on out of it unless they had a ruction of some sort. I mind a feller from Limerick that used to get corned an' then trail his coat in front of the crowd an' dare anybody to tread on the tail of it. He'd rather have a black eye than a noo suit. He couldn't close some other feller's peepers. An' a quieter feller you never seen when he wasn't takin' a few. Maybe the women votin' has made a change. But they got some women fighters, too—haint they?—calulate mebbe when the men seen the way some of 'em was goin' on they'd feel like goin' away an' settin' down somewhere. Well, sir—I hope old Ireland is goin' to show the world she knows how to use the ballot as well as she ever did the shillab-yee, sir."

HILTON BELVEA ON BIRTHDAY EVE

Famous Local Oarsman will be Thirty-eight Years Old Tomorrow.

"I will be thirty-eight years old, if I live until tomorrow," was a statement made to The Times this morning by Hilton Belyea, champion single sculler of the Maritime Provinces and former Canadian champion, Hilton has defied the ravages of "Father Time" and in his race on the Kennebecasis river yesterday demonstrated his sturdiness as a sculler. Despite a strong wind and choppy water he went over the mile and a half course with a turn in the remarkably fast time of 10 minutes and forty-eight seconds. In 1921 he covered the same distance in 9 minutes and thirty-six seconds, but on that occasion both the water and weather conditions were ideal. Had he been present yesterday he could have cut many seconds off the time. The old adage that "youth must be served" seems all wrong where Hilton is concerned. His host of admirers in this city and elsewhere will unite in best wishes to him on the anniversary of his birth.

FEAR CHEFALO WILL NOT RECOVER

Performer Who was to Do Thrill at Exhibition Here.

H. A. Porter, manager of the exhibition, this morning received a copy of a newspaper from Providence, R. I., containing an account of an accident in which Chefalo, an Italian who was to have done the loop-the-loop stunt at the exhibition here next week, received injuries in the performance of his act which may result in his death. He is in a Providence hospital.

One part of his act consisted in running down a runway to get the impetus necessary for the loop. In this way the machine in which he was making the dash got out of control and was pitched to the ground with terrible force and sustained very serious internal injuries. There is little hope for his recovery. His act had excited much wonder wherever put on. Chefalo was the only man doing the act at the present time. He has a wife and three children.

Every effort is being made to replace the unfortunate performer with someone who can give an equal thrill.

WEST SIDE WATER SUPPLY
The water was turned into the section of the 36 inch concrete pipe between Robertson's and Manchester's corner, yesterday for the first time since the repairs were begun. About six hours were required to fill up the pipe. The section from Robertson's to Spruce Lake was shut off and three leaks which had developed in that section Commissioner Wigmore said would be repaired. This work would require about ten days and then the West Side residents would get the full benefit of the new main. Asked about a reported shortage of water in Lancaster yesterday the commissioner said that for a short while the water was being turned into the big main the pressure was low but was soon back to normal.

HEAVY RAINFALL
