It is said the special meeting was to be called to elect a new board of directors for the balance of the year 1920, and to protest against action in cancelling a bond for \$250,000. **ACKNOWLEDGEMENT FROM MRS. JOHN**

A letter of acknowledgement of kindness and assistance has been received by the Brunswick Chapter of the I. O. O. F., from Mrs. William Ambrose John, widow of an Englishman who shot himself in St. John some time ago. The chapter opened a fund for the funeral expenses and also as a means of assistance to his wife and child. A meeting was held yesterday at the residence of Mrs. E. Cairns, West St. John, with the vice-regent, Mrs. Hetherington, in the chair. The sum of \$50 was voted to the Navy League and \$50 to the West-We-Forget fund.

The letter read from Mrs. John was as follows:

81 Kilvey Terrace, St. Thomas, Swans, Wales.  
Dear Mrs. Travers—I wish to thank you and all the kind friends who contributed to help me and my dear baby girl. I am so glad to think of the kindness without which I do not know what I should have done.

You will see I have come home to my parents and will remain with them. There was nothing else to do. They have not much to spare and are just recovering from the shock of the death of my sister, twenty-one years old. Still there will be a roof to shelter us while we need it.  
I am sorry to say I have not had any

**HARBOR MATTERS ARE TAKEN UP**

**A. R. Dufresne Addressed Board of Trade on Courtenay Bay Work—Nominations for Office.**

At the regular meeting of the Board of Trade held last night the question of harbor development was taken up, and an interesting address was given on the Courtenay Bay project by A. R. Dufresne, the resident engineer in charge of that work. The speaker in referring to the work said that the excavation had been completed in about three months and in the early spring a start would be made on the plans for the concrete work. The completion of the breakwater would be accomplished in about four months and in the meantime harbor dredging has been going on. Twenty-eight acres have been reclaimed and work started on a basin measuring 1,200 feet in the shape of a triangle, but to reclaim the area in the present plan more than 1,600,000 yards of material would be required. He said there is a seepage of about eighteen inches of sand each year and not a large fill as reported. After the dredging is completed there will be about 180 acres of valuable space at the head of the bay and this will be the natural location for the deep water wharves. A viaduct connecting East St. John with the city at Union street was also advocated but this would cost about \$1,600,000 and more than 4,000,000 yards of material would be needed.

A vote of thanks was moved by J. H. White and extended to the speaker by President H. B. Emerson. Mayor Schofield said that he thought the board of trade should take up the Dufresne plan with other boards in the province for the development of Courtenay Bay. W. F. Burditt gave an interesting talk on the development of Toronto harbor. Mayor Schofield spoke of work at this port that was being considered by the C. N. R. board. Mayor Schofield also acknowledged an appreciation by R. B. Emerson of the paving work done in Prince William street.

**TORONTO MYSTERY MAN HAD LARGE AMOUNT OF MONEY**

Toronto, Ont., Nov. 2.—Ketz Bernhart was arrested in a rooming house at 133 York street, last week, by Detectives Sullivan and McArthur on the charge of carrying a loaded revolver. Bernhart for the present is a "mystery" man to the detectives. He refuses to talk, and would not say where he got the \$2,000 in money found on him. He had \$1,065 in United States bills, \$50 in United States gold coins, some British pound notes and several hundred dollars in foreign money, including German marks.

**SULLIVAN AND McARTHUR were searching the rooming house for another man when they came in contact with Bernhart. He claims to be a Roumanian, and came to Toronto from the United States a few days ago.**
