the hull there was some higging beembraces no settling land: and the first the hull there was some higgling be- embraces no settling land; and the first cepted. Subsequently China offere tween the Government and Mr. D. W. Clarke, of St. John, who was first se-Clarke, of St. John, who was first selected to build her. The Government would not pay what Mr. Clark considered a fair price, and eventually the construction was given to Mr. O'Brian on terms which, so far as we can gather from the reports of the Marine and Fisheries Department, have not been made public. In that, of itself, there is nothing, for we assume that Mr. O'Brian knew what he was doing, and we have no doubt that he would build a good vessel. But the Government, agree, at the cost of \$2,000 s year, to pro-

Bear Bounties. RDWARD JACK. This subject has lately been attracting good deal of attention, and the advisa ility of giving premiums for the killing bears out of season is condemned by some of our best hunters. Mr. Braithwait who condemns it in the most unqualified mer, says that the majority of bearskins which are brought into Frederictor some from distant places in the forest where there are no sheep to kill; that the main hunting operations are carried on about the blueberry plains, which are so abundant in the interior of the Province He also says that there are only a few bears which will kill sheep, and that bears are largely blamed for the depredations of dogs; in one instance which he knows of, where sheep are said to be car-ried off every fall by bears, he feels confi-dent that the depredator is a two-legged

Mr. McGoldrick, of Fredericton, say that more than 300 bear skins are obtained in New Brunswick, which are worthless, or nearly so, the same having been caught out of season. They sell at from 25 cent MILLINERY to \$1 each at the highest, and if these animals had been caught at the proper averaged, large and small, \$7 each. He further says that there must be at least 100 bear skins left to rot in the woods.
