HERRING FISHERIES.

ST. JOHN'S, N. B., Jan. 19.—An official report from Bay of Islands shows that at the conclusion of the herring fisheries this year the total catch amounted to 116,238 barrels, valued at \$452,144. Of this fifty-five American vessels took away 70,446 barrels valued at \$268,546, while forty-three colonial vessels gathered in 45,837 bar, value at \$183,546. These figures show that the fishery this year has been the largest in quantity and value in the history of the west coast herring industry, and that the colonial vessels secured a larger share of the haul and profits than ever before.

Five American and five Colonial vessels, nearly all of them with cargoes on board, were wrecked during the season. Twelve American and two Colonial vessels are at present frozen fast in the Hudson Inlets and will probably be held there until spring.

HARVARD MAN INTO THE WILDS

Dr. Hamilton Rice Starts on a Dangerous Trip Into Heart of Unknown Country.

CARACAS, Jan. 19.—Dr. Hamilton Rice, of Boston, Mass., and Professor Hiram Bingham, curators of South American history at Harvard University, left here Jan. 19 on an 800 mile journey overland to Bogota, Colombia. Prof. Bingham will spend some months at Bogota in historical research, while Dr. Rice continues into the heart of an unknown country in search of the source of the Orinoco river. Old Spanish records indicate the existence of a fresh water lake in the Parana mountains, and it is here, Dr. Rice believes, the Orinoco finds its source. The journey is a perilous one, not the least of the danger being the Indians and their poisoned arrows. Dr. Rice, however, is confident of success, and expects to emerge into civilization again within a year at the mouth of the Amazon. His force will consist only of a sufficient number of negroes to care for his baggage. He will carefully map the country through which he passes.

ANGUS CLAIMS HE FOUND THE GEESSE

But Sentence Will be Imposed Today

—Mrs. Johnson Dead

CHATHAM, Jan. 20.—Angus Ramsey was arrested on Saturday by Chief Dickson on the charge of stealing from the Bowyer House Restaurant a valuable coat was stolen from the hotel early last week. The police were notified that the coat had been rounded up six of the geese and his suspicions settled on Ramsey who he arrested last Friday night at New Brunswick. When taken before Magistrate Connors, yesterday Ramsey pleaded guilty to the charge and claims he found them. Sentence will be imposed tomorrow. William Murphy has also been arrested on suspicion of having been implicated in the theft, but was remanded.

Mrs. John Johnson died today aged sixty years.

HARVARD LEADS COLLEGES IN CUTTING FOOTBALL RECEIPTS

CAMBRIDGE, Mass., Jan. 21.—The Harvard-Yale football game will be played next fall as usual. This is practically certain after the special committee, representing the Harvard corporation and overseers, will make such report, it is expected, at a special meeting of the overseers some time next month.

The main feature of this report, however, will be an insistence on the future cutting down of the large receipts from Harvard's intercollegiate football contests. It will be the point of the report that only such receipts be allowed in the future as shall be necessary to cover the legitimate cost of supporting the football and other athletic departments of Harvard.

Until the existing debts, such as \$40,000 yet due on the stadium, are paid off one or two large intercollegiate contests will be allowed annually. But the end in view will be the abolishment of the commercial aspect of Harvard athletics as now fostered under the system of large receipts from big football games. Any arrangements with Yale or other colleges must hereafter be made with and subject to the approval of the special committee. It will also take a decided stand against the employment of professional coaches to have enticed away from Harvard their own athletes. There is no hostility to the professional coach whose duties have to do with details of the game, but the professional coach as the arbiter of any branch of Harvard sport must go, according to the committee.

THREE KILLED IN DISASTER AT SEA

ANTWERP, Jan. 20.—The Red Star line steamer Vanderland, from New York for this port, which on Sunday collided with and sank the Dundee steamer Naworth Castle, four miles east of the South Goodwin lightship, near Dover, arrived here late tonight. When the steamer entered the harbor she showed no signs of damage, the injury to her plates being below the water line.

The Associated Press correspondent interviewed the captain and officers of the Vanderland and learned that she was steaming at half speed at 2:30 o'clock Saturday morning, and, without warning, found herself upon the Naworth Castle. The Vanderland struck her near the starboard stokehole, throwing from her berths the members of the Vanderland's crew. The passengers in the forward portion of the ship felt the shock of the impact, but those that were not even awakened.

A panic ensued on board the Naworth Castle after the crash. The Vanderland kept her nose into the breach in the other vessel and, in order to facilitate the saving of life, three ladders were thrown over the Vanderland's bow. By these 17 of the Naworth Castle's crew climbed aboard. Seaman Nicholson was crushed between the vessels.

Steward Parkinson was imprisoned in the cabin and was heard to shout, "I cannot get out; I am blocked."

Engineer Lowe was killed by steam from the exploding boilers.

Captain Whitton and the crew of the Naworth Castle praise the conduct of Captain Egan and the Vanderland's officers.

PROPOSED HOLDING CO. FOR STEEL AND COAL

Plan to Settled Differences of Sydney Concerns, Said to Have Been Agreed to

MONTEAL, Q., Jan. 20.—An attempt is being made to settle the trouble between the Dominion Iron & Steel Company and the Dominion Coal Company arising out of the coal contract of the former with the latter, by means of the formation of a holding company with a capital of \$6,000,000, which will take over the assets and liabilities of both concerns, issuing stock in exchange. The plan is said to have secured the consent of the principal interests of both concerns, the details alone remaining to be worked out. The iron and steel company formerly held a lease of the coal company's property, but this was terminated three or four years ago by mutual consent. Under the new plan the interests of one would become the interest of both and thereby the price paid for coal, the cause of the dispute, would become immaterial.

NO DRUNKARDS NO BOY PROBLEM

Fine Address on Temperance Before Everyday Club, by Hon. R. J. Ritchie Last Evening

The Every Day Club's hall was last evening crowded to the doors and many were unable to gain admittance. J. N. Harvey was the chairman, and the speaker of the evening was Hon. Magistrate Ritchie, who gave one of the finest temperance addresses that has been heard here in many years. The meeting opened with the singing of the hymn, "Jesus, Lover of My Soul," and prayer by Rev. L. A. McLean. Mr. Ritchie then spoke briefly on the objects of the club, and introduced the speaker of the evening.

Judge Ritchie referred to the effect of the moderate use of liquor on the individual himself and dwell on the sin, the shame and the sorrow which follow its use. He pointed out that the army of drunkards are recruited from the ranks of the moderate drinkers who are the most dangerous class in the community.

He drew a mild picture of the home of the drunkard of the want and suffering of the wife driven out to work to support the children. He said that he would have no hesitation in saying that if there were no problem in St. John there would be no boy problem in St. John.

The speaker gave total abstinence appeal to the young men who were present in large numbers, to take the pledge and to save their wives and children. Each year, he said, we have presented to us the annual record of business failures, but no record is ever kept of the appalling number of human failures due to drink. He denounced the beer shops as the special temptation of the youth. The magistrate's address was closely followed throughout.

DOMINION HANDS OVER NIAGARA CAMP GROUNDS

TORONTO, Jan. 20.—Sir Frederick Borden had an interview with the Ontario government on Saturday regarding the Petawawa military camp. The Dominion government has agreed to hand over to the Ontario government the Petawawa military camp, which is situated on the Niagara River, and which will be included in the Ontario park scheme for a park and driveway along the side of the Niagara River from Lake Erie to Lake Ontario.

DO EARTHQUAKES AFFECT ST. PAULS?

LONDON, Jan. 19.—Regret is generally expressed among members of the learned societies that more observations were not taken in St. Paul's Cathedral to determine whether earthquakes do effect the structure. Mr. Darwin of the Cambridge Scientific Instrument Company, has just invented an instrument for judging the effects of far-distant disturbances of the earth's crust. Efforts are making to have these instruments placed not only in St. Paul's and the other public buildings of London but also upon the coast of the Continent and South America, and eventually all over the world. In this way it is felt that in the not far distant future some interesting and important data can be gleaned regarding the origin of earthquakes which will perhaps be of great value to insurance and the commercial world.

LOSS OF SEAT DUE TO FAILURE OF MOTOR CAR

MELBOURNE, Jan. 19.—M. Laurence, who attributed the loss of his seat in the last election to the failure of a motor car to work at a critical moment of the day claimed damages from the company which supplied him with the vehicle.

The court decided against him declaring that a statesman has no right to consider his election to the Chamber from a purely commercial point of view.

CONGREGATION ACCEPTS PASTOR'S RESIGNATION

Handsome Retiring Allowance Granted Rev. D. Henderson, of Chatham—Northumberland Co. Seed Fair

CHATHAM, N. B., Jan. 16.—The chief interest in the annual meeting of St. Andrew's congregation on Wednesday evening lay in the disposal of Rev. D. Henderson's resignation. This was finally effected by granting a retiring allowance of \$500 and the use of the manse until May 1st. Rev. Henderson's resignation has been accepted by the presbytery, and his annuity from aged and infirm fund will probably be \$250 per year. The ladies of the church will add \$500 to the amount voted at the annual meeting of the congregation.

The following trustees were appointed for 1907: Robert Murray, A. A. Anderson, D. P. MacLachlan, George Wattling, Howard Fleger, George Fraser and William Movatt.

At a largely attended meeting of the directors of the Northumberland Co. Agricultural Society arrangements were completed for their second annual seed fair to be held in the Temperance Hall Monday, Feb. 4th. The various committees were appointed to look after the arrangements for the fair, which promises to be even better than the last, and already they have the work in hand. A prize list will be distributed. Prof. Killock of the MacDonald College, Bellevue, Quebec, and L. H. Newman, secretary-treasurer of the Canadian Seed Growers' Association, will give lectures and will do the judging.

The fair is open for competition to Northumberland Co. farmers. No entrance fee will be charged and admission is free.

The fair is under the direction of the provincial department of agriculture and its object is a good one.

AGED CITIZEN DIES AT FREDERICTON

FREDERICTON, N. B., Jan. 20.—The death occurred at the Hotel last evening after a short illness from congestion of the lungs of Joseph Gill, in his 72nd year. Mr. Gill for many years was engaged in a successful business in this city and was well known to all classes of citizens. He leaves a widow, formerly Miss Thompson, a sister of Inspector Smithson of the post office staff, Ottawa, and also two brothers, John, of this city, and Thomas, of St. Mary's, N. B. Mr. Gill, who was 72 years of age, was confined in the hospital, suffering from a broken hip. The funeral will take place tomorrow at 3 o'clock, with interment in the old burial grounds.

The death also occurred at the morning of Mr. Allen, wife of Geo. F. Allen, deceased leaves besides her husband four sons and three daughters, one of the former, Harry Allen, the well known guide, a heavy snow storm followed by rain set in last evening. Today has been mild, registering in the above. The streets are icy and in a most disgraceful state.

SHELBURN SAILOR LOST OVERBOARD

(Special to the Sun.)

STONY, N. S., Jan. 20.—With her flag at half-mast for the loss of one of her crew, the Gloucester fishing schooner J. J. Flaherty, Capt. McLean, limped into Louisbourg (N. S.) today in a badly disabled condition. The schooner left Bay of Islands, Nfld., last Monday with a cargo of herring, and soon after leaving port ran into a terrific northerly gale, which continued until Cape North, when she was boarded by a heavy sea and drove down on her beam ends. The man at the wheel, Jesse Harding, of Shelburne, was washed overboard and was seen again. The cargo shifted and the schooner lay well down until the rigging was in the water.

The following day, the foresheet parted and the foresail was torn into ribbons. A couple of men were injured and all were more or less shaken up.

Mr. Hamilton and Miss Elliott were born in this city, their families being neighbors for many years. The two grew up together, studying the lessons from the same book, attending the same school together each week. On Hamilton's fifteenth birthday, however, just eight years ago, he left New York to go out to Utah, whither a wealthy uncle had summoned him that he might further his education in practical mining engineering.

Miss Elliott, devoted to the study of music, was forced to remain in the East. Love, however, was not interrupted by distance, and daily letters were written. A week ago Miss Elliott received a telegram from Hamilton telling her he would arrive in New York on Wednesday night. She met him at the station and they attended the theatre.

After the play they went to the Hotel Belmont, forty-second street and Fourth avenue, for supper. These it was that a proposal and acceptance were followed by a determination to be wedded at once. Mr. Hamilton called up Mr. and Mrs. R. Hamilton Ryan, cousins of his, and asked them to be witnesses at his wedding. Dr. Warren was next sought by telephone and arrangements were perfected. At about ten minutes before four o'clock yesterday morning the couple were married. They left yesterday on a honeymoon trip through the south.

SERIOUS CHARGE AGAINST MONTREAL ALDERMAN

MONTEAL, Q., Jan. 20.—On Saturday Judge Choquette issued a summons against Aldermen Pecoul, Labrecque, J. A. Martin, Lariviere and W. J. White on the complaint of Oliver Asselin, the charge being that of falsifying a public document. The case arises out of a report made by the special committee of which the accused were members on the gas question, it being alleged that the report of the committee was filed with the city clerk and later removed from his custody and recommendations made therein cut out and that they had no right to do this.

LONG APART, MEET AND WED AT DAWN

Childhood Sweethearts, Seeing Each Other for the First Time in Eight Years, Act Promptly.

NEW YORK, Jan. 19.—Sweethearts from childhood and meeting again for the first time in eight years, Wm. A. Hamilton, a mining engineer of Salt Lake City, Utah, and Miss Elizabeth L. Elliott, of No. 45 East Sixty-second street, were married shortly before four o'clock yesterday morning by the Rev. Henry Marsh Warren, in his home, at No. 48 West Ninety-fourth street. The bridegroom and bride are remote cousins.

THE NEWEST COAT SLEEVES.

6785—Many a half-worn garment needs only new sleeves to render it up-to-date and serviceable for another season. Sleeves are a feature of vast importance in the style of a coat and yet they are simply made. The sleeves shown are in leg-o-mutton style in long and elbow lengths and of the newest shape. The long sleeve may be finished with or without the cuff while the shorter one may have its cuff trimmed with a narrow braid if desired. These sleeves are not exclusively for coats but may be used for dress waists as well. The medium size calls for 7-8 yards of 54-inch material. 6785—Sleeves, small, medium and large—for Ladies' and Misses'.

WILL TOUR THE COUNTRY.

NEW YORK, Jan. 19.—Mrs. Florence Maybrick has accepted an offer from a Chicago lecture bureau and will make a tour of the country. A number of prominent Americans have taken an interest in her work.
