The Joy of Living

DO you feel like these children in the morning, full of energy and buoyant spirits?

Do you get up refreshed by your night's sleep ready for anything the day may bring forth?

You should and you may if the simple rules of health are observed.

It is possible that by some excess in eating, or over-exertion, your heart has not been working with its accustomed regularity, and you are not getting undisturbed and refreshing slumber.

Your sleep may be broken with terrible dreams, smothering spells, sinking sensations, and even fear of impending death.

Milburn's Heart and Nerve Pills have brought relief to hundreds of such cases.

Milburn's Heart and Nerve Pills enrich the blood, strengthen the heart and tone up the nerves, making the whole organization work in harmony, and bringing back in a few days that blessed condition where you sleep as peaceful as a child and hail with joy the return of another day.

Mr. Harold Acker, Springfield, N.S., writes:—"I was bothered all the time with nervous headache and dizziness. I could not stoop down at times, as everything would get black before my eyes. I could not sleep at night, and my appetite was very poor. I was almost on a nervous breakdown. I used four boxes of Milburn's Heart and Nerve Pills and they helped me fine. I would recommend them highly to any person troubled with their heart or nerves."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

False Pretences Case In Court

Further Evidence Heard Where Isaac Wolfe is Charged With Offenbe by Garson.

Herbert G. Jackson, manager of the Record Foundry, Moncton, was called as a witness in the case of Garson vs. Wolf which was continued in the police court yesterday. The suit has been brought by Frank O. Garson of this city against Isaac Wolfe of New Glasgow who he charges with obtaining $1,057.63 under false pretences by representing to sell to him a car load of machinery cast iron scrap which was worthless to him.

Shipment Unsuitable

Mr. Jackson stated that he examined a car loaded with iron and consigned to the Record Foundry at Moncton by Frank O. Garson and wired Garson that he could not accept it because it could not be used in the foundry furnace.

The contents of the car consisted of chilled steel rollers, and pieces of casting with steel shafting imbedded in them. The rollers were no good for the furnace and the smallest pieces of casting weighed over half a ton.

It was not machinery scrap for that could be broken up by a hammer. The only way the castings could be broken up was by drilling and blowing with dynamite.

He estimated the rollers as making up a quarter of the car. None of the shipment was suitable for the Record furnace nor for the purpose machinery scrap iron could be used for.

The witness stated that he had seen the contents of the car some two months before in the yards at Moncton and he thought in the same car.

Cross-Examined

Cross-examined by J. A. Barry for the defence, Mr. Jackson stated that two kinds of scrap iron could be used in the furnace, machinery scrap and stove plate scrap. It was not all broken up by hammer the drop was sometimes used. The Record drop weighed 360 pounds.

In answer to Daniel Mullin, K. C., for the prosecution he said none of the contents of the car could be broken up by the drop. It could only be done with dynamite and witness would not consider doing the job for twice what the car was worth.

Aaron Sendell Testifies

Aaron Sendell, of the Dominion Iron and Metal Co., Montreal, stated that at the complainant's request he had gone to Moncton and examined the contents of the car in dispute. He counted 27 chilled steel rollers in the consignment. He examined one carefully and found it to be chilled steel. Witness produced a chip of chilled steel in court which he stated he had cut from the roller with a hammer and chisel.

PRESENTATION AT COUNTY HOSPITAL

Mrs. J. H. Tillotson on Behalf of No. 3 Hose Co. Gave Music Box to Patients.

A most pleasing event happened at the St. John County Hospital yesterday afternoon, when Mrs. J. H. Tillotson, on behalf of No. 3 Hose Company, of the St. John Fire Department, presented to the returned soldiers and other patients a handsome music box.

The presentation took place in the reception room in the presence of about thirty returned men and others along with members of the hospital staff. In her brief address Mrs. Tillotson told of the pleasure it gave her to be picked out by the firemen to present the instrument, and she knew that the returned boys would share the music with the other patients in the institution. She then asked Miss C. M. Hall, matron of the hospital to acept the gift, who in turn called on Sergt-Major Binnie, one of the patients.

The Sergt.-Major proved an orator of no mean order, on behalf of the patients he received the present and wished on behalf of all to gratefully thank the firemen for their kindness, and was sure that all patients in the hospital would thoroughly enjoy te excellent music produced.

The boys lost no time in putting the music box in running order and by the pleased expression on their faces it carried out the remark of one soldier who said: "This is Jake."

DISCUSSED ESTIMATES.

A board meeting of the St. John County Hospital was held yesterday for the purpose of discussing the estimates for the coming year, arrangements for which were completed. The usual routine business was also transacted, and, in addition, to Dr. McDonald, who acted as chairman, there were present Dr. Farris, Mrs. E. Atherton Smith, Mrs. Frink, J. King Kelley and L. H. Sims.

STOP LOOK and LISTEN

before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.
