The Japanese held a big meeting at Steveston, raised by voluntary subscriptions \$4,000 for a Japanese hospital which they think may be needed, and then discussed the salmon catching situation.

Some are in favor of joining the union men in the strike. The meeting broke up without definite action.

This evening a big run of salmon is reported coming in from the south. The canners think the union men will not stand firm in view of the temptation to participate in the catching. There is renewed talk this evening of calling out the militia. Fredericton, July 11-(Special)-John tilburn, arrived home last evening from the brooks. The corporation driver, the militia.
