To-day's Arkansas advices show the Legislature lacks only three of a quorum. After a quorum is obtained, the responsibility of recognizing either Brooks or Baxter, is transferred from the President to the Legislature. OTTAWA, May 13.

The House to-day was occupied with private bills and notices of motions of no importance. Considerable discussion arose upon Mr. Mills's bill to legalize the control and disposal of sunken timber.

Hon. Mr. Mitchell opposed the bill as a system for legalizing the plundering of the lumbering interests, and encouraging that class of private plundering. Private rights would be swamped by the bill. He would oppose any attempt to interfere with the rights of lumbermen.

The charges against the contractors on section 16 have been completely broken down, and the Ministerial journals are silent upon the subject. The members of the sub-Committee taking evidence upon the subject are all Grits except Hon. Mr. Mitchell. They spent all the forenoon re-examining their own witness Garden, assistant engineer, who testified that the work was well done, and that there is ample balance left of the original contract price to finish the work. It is clearly proved that Fizgrald embarrasied and misrepresented contractors to commissioners, in the hope of securing the contract himself. His reputation as an engineer is ruined.

Examination for Larceny.

The examination of Charles Neptune and John Dixon, charged with larceny from Capt. Calhoun's house, Leinster street, was commenced this forenoon before Judge Gilbert. Capt. Calhoun closed his house up last fall and went away. The front windows were nailed up, a board being placed across them. This probably excited the suspicion of the two youths—the oldest being only 18—and they resolved to enter, and see if they could secure any plunder. From facts that the Chief of Police has been able to gather there seems little doubt that the gather there seems little doubt that the boys are old hands at the business. The robbery occurred some time in March, the exact time not being known, and the perpetrators were discovered by their selling a lot of lead pipe and brass cocks at Holstead's junk store. The rest of the cartieles carried any or were found by the articles carried away were found by the WM. C. MORISSEY, Mrs. David Watson's, mother of Charles Funeral and Furnishing Undertaker, Neptune, a lot of the stuff was found, and the balance at the house of David Residence, Waterloo street, 2 doors north of Castle street. the goods found in the possession of the prisoners was a lot of knifes and forks which were not identified by Mr. Calhoun.

The Russian Imperial yacht Dersherva, with the Czar on board, went aground, yesterday, while leaving the harbor of Flushing, and was not floated until 11 o'clock this morning. Large crowds, not aware of his detentior, we gathered at the railway stations in this city. Flags are flying at all points. He will not reach these shores before 6 o'clock this afternoon, several hours behind the time fixed in the official programme.

The Russian Imperial yacht Dersherva, is no doubt of his guilt, as a large portion of the stolen articles were found in his possession. The articles displayed in the Police Court include guns, pistols, clothes of all kinds, table ornaments, a jewel case with chains and broaches, napkin rings and other silver ware, albums and almost everything to be found lying around loose in a house.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs.

A MONG the great disceveres of modern science, few are of more re ivalue to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trail of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that Cherry Pecroral will and does relieve and cure the a licting disorders of the Throat and Langs beyon I amy other medicine. The mest langerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most scoptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tenrulungs need this de.once; and it is unwise to without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Perroral is invaluable; for, by its timely use, multitudes are resoued from premature graves, and saved to the love and affection centered on them. It acts speedi v and surely against ordinary colds, securing sound and health-restoring sleep. No one will out this, when they know how easily they can be cured. Prepared by
