MARY NIXON, *Treasurer.*

Report of "Summerholm."

This branch of our Association effort experienced a signally successful season. That the plan was well conceived, and the work needed, results attest.

"Summerholm" affords an opportunity to the members of our Association to have an outing under conditions the most favorable. The site selected on New Orchard Beach at Port Stanley has proved itself to be admirably fitted for all our requirements. We have endeavored, that while the lake breezes and out-door exercise were recuperating the exhausted physical forces, to have the home life of such a nature that it should be a factor in character building.
