The money spent in bringing good newspapers into a house is the best spent noney of the year. Besides taking your denominational paper, and paying for it like a man, or a woman, as the case may be, you need one of the great secular papers of the country. But it is important to encourage only spers with a good, healthy, moral tone, otherwise he beneficial intuence of the religious paper may be neutralized or destroyed. The Woolly Liberal and Western Advertiser, which already enjoy a circulation of 16,000 copies, takes a firm stand in favor of Order, Education, Prohibition, and Evangelia of Order, Education, Prohibition, and Evangelia of Christianity. It is, besides, a first-class paper in cervy respect—its financial and other educational column, temperance notes, and spectally edited department of "Farin, Garden, and Home," being any one of thom worth more than the subscription. The Leonard Scott Publishing Co., 41 BARCLAY ST., New York. A REPRESENTATIVE & CHAMPION OF AMERICAN ART TASTE!

Prospectus for 1875-Eighth Year.

ALDINE. \mathtt{THE} The ART JOURNAL of America. ISSUED MONTHLY.

"A Magnificent Conception Wonderfully carried out."

"A Magnificent Conception Wonderfully carried out."

The necessity of a popular medium for the representation of the productions of our great artists has always been recognized, and many attempts have been made to receit the waxt. The successive fadures which so invariably followed each attempt in this country to establish an art ournal, did not prove the indifference of the peoploof America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once railled with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellance of pure, light and graceful literature, and a collection of pictures, the rurest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is tound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE will be most appreciated after it from a price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engrevings in any other shape on number of volumes for let times its cost, and then, there is the chrome, besides!

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan While THE ALDINE is a strictly American institution, it does not conthus itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of IHE ALDINE, is a nimportant feature, and its magnificent plates are of a size nor appropriate to the satisfactory treatment of lotalist them can be afforded by any inferior

Ayer's Cathartic Pills, For all the purposes of a Laxative Medicine.

For all the purposes of a Laxative Modicine.

Perhaps no one medicine is so universally required by overybody as a cathartic, nor was ever any before so universally required by overybody as a cathartic, nor was ever any before so universally redupted into use, in overy country and among all classes, as this mild but officient purgative Plit. The obvious reasonis, that it is a more reallable and far more effect that it never fulls through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their angare coating preserves them ever frosh and makes them pleasant to take, while being purely vegetable ne harm can arise from their use in any quantity.

They operat by their powerful influence on the internal viscera to purify the blood and stimulate it into lealthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their frequilar action to health, and by correcting, wherever it by exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Plits rapidly cure:

For Dyspepsia or Endigestion, Litalessness, Languer and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and actions. Billious Headache, Sick Headache, Junnice or Green Sickness, Billious Colic and Billious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dyspepsia or Litaless, they should be continuously taken, as required, to change the diseased action of the Heaute, they should be continuously taken, as required, to change the diseased action of the system. With

me system. With such change those complaints disappear.
For Droppy and Droplical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.
For Suppression a large dose should be taken as it produces the desired effect by sympathy.
As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into heatily action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and buldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
