

Rogers Cement for Beautiful Houses

FOR a fire-resistant house, solid concrete is eternal. For an "artistic" house, exquisite and fire retardant, designs are possible in stucco and stucco combinations with timber.

If you are planning a home, we can assist you in many ways. With ROGERS CEMENT it is possible to build a clean, warm, vermin-proof house, using it with the ordinary building materials in wood, brick and hollow tile. The cellar can be made clean and dry. The fireplaces and flues can be made safe. The walls and ceilings can be made fire-resistant. The surrounding grounds can be beautified with walls, walks, curbs, pergolas, terraces and outdoor furniture--all in ROGERS CEMENT.

At \$1.00 we have a book, "Portland Cement on the Farm." It shows the way to improving a house you already own, even though in the city or suburbs, at a small cost. We will gladly let you have a copy at less than cost--only \$1.00.

When building, specify ROGERS CEMENT, because it is always kept uniform, which is a big virtue in cement, as builders will tell you. Send for the book.

Goes Right to the Spot

The very softest of eiderdown—cosy and warm as kitten's fur—is the Electric Heating Pad. More flexible than a hot water bottle, is more effective and quickly soothes and eases, by its grateful warmth, the most acute pain. Can be made pleasantly warm, hot, or very hot, as occasion demands, by means of a three-heat switch. Costs \$6.50 and lasts a lifetime.

A one-time use will make it indispensable to your family. Ask to see it at demonstration counter, or phone THE COMFORT NUMBER

"IDEAL" LAWN FENCES AND GATES

FOR
CHURCHES,
SCHOOLS,
PARKS,
CEMETERIES.
TOWN LOTS
AND LAWNS

Not only afford protection but add greatly to the appearance and value of the properties on which they are erected. Ideal Lawn Fence is not expensive.

It can be put up at a small cost by anyone. Will accomplish the same results in efficiency and appearance as an iron fence costing many times as much. A postal card will bring our catalogue 134 which shows and describes each Ideal Ornamental Product.
