straight through and up here.

I hope I can get in - and will try & find a patient to recruit - we have two in the hospital and Dr. Moore thinks they will be ready to come back here to the Reserve some day next week. They have had operations, at least one has. The other is a chick and not at all well - so they need some one to look after them - so I may manage to get to the City - but do such a business & fuss - Do you ever come up this way Arthur? I was so counting on Scott & Lillian making me a visit this summer but am afraid they won't be coming here now.

See you. Family - Lillian

Mother & Dad are well & well as pleased. Surprised me on last anniversary celebration - I'll always remember the party and taffy train we had in Ottawa at your Mother's 70th birthday anniversary.

See you & like my work, all the best about in, & no place to go - hope life rather nice and the year improving. Best love Arthur & come of some time if you can. Love to
