Mr. Harold Osmond, a past president of the Club who gave much of the above information, says the Prime Minister was not a charter member when the Club was incorporated in 1922. He does not know whether you were a charter member in 1903 and is doubtful whether it will be possible to find out, but will make a further try. If he is successful he will telephone me from the Minto Club this evening and I will telephone Laurier House.
