

## LETTER OF TRANSMITTAL.

DR. EUGENE HAANEL,  
Director Mines Branch,  
Department of Mines,  
Ottawa.

SIR,—

I beg to submit, herewith, a report on the investigation of the peat bogs and peat industry of Canada, during 1911-12. This report includes a detailed examination of nine peat bogs in the Province of Quebec, and an account of a preliminary investigation of a number of peat bogs situated in the immediate vicinity of Sudbury and Sellwood, in the Province of Ontario.

In addition to the foregoing, I have included profiles illustrative of the high (hochmooren) bogs frequently found in the eastern provinces of Canada; together with translations of a number of valuable official documents on the utilization of peat: dealing with recent developments in European practice.

I have the honour to be, Sir,  
Your obedient servant,  
(Signed) **A. v. Anrep.**

March 18, 1913.
