MORISON'S UNIVERSAL MEDICINE

THE Subscribers, general agents for Morison's Pills, have appointed William Whittaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public,) the number of stamps delivered for that medicine amounted to three million, nine hander and one thou.

to three million, nine hundred and one thou-

The object in placing the foregoing power ful argument in favour of Mr. Morison's sysiem, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extend that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have tried a system of vegetable purgation to extend and in manner prescribed by the Hy-geists. How, therefore, can they (much less individually) know any thing about the exten of its properties.

So long as the principal of Life predomit es, Health is enjoyed. When the princip ates, Health is enjoyed. When the principle of Death, Sickness takes place. How is this

By the principle of Death, I mean the principle of decomposition or accay, which is each hour going on in the human frame from the hour of birth, to that of our final exit.

While the natural outlets—the pores—the
bowels—and all other directories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the

And should the cause which pro-duces this state of the body remain, and nothng be done to drive the accumulated and accuing be done to drive the accumulation in mulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life de-

PURGE!——Yes—I say Purge!
The magic in that word shall yet be understood, if this hand or brain can accomplish so stoot, if this hadd or brain can accomplish so mighty an explanation. Yes, purged be that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause,—I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposite of decomposed particles upon the organ or part where the pain is seated. And purging discharges this impurity by the bowels, and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed; even complication of di-case; and will prevent any one from becoming seriou.ly indisposed; even when in constant contact with the most ma-lignant fevers which cannot by possibility se-tiously affect the body, if we are continually careful to preserve it in a pure state, by fre-quent and effectual purgation. Hippocrates "Purgation expulses what must be ex pulsed, and patients and reflet; if, on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expulsed."

The subscriber of this has resided in every variety of chimate, and by always possessive the first appearance of sickness, has enjoyed for the last ten years, simisterrupted health, eld for the last ten years, simisterrupted health, eld for the last ten years, the state of him who is for which with the never sick more than 6 or 8 hours, about the never sick more than 6 or 8 hours, about the never sick more than 6 or 8 hours, about the never sick more than 6 or 8 hours, about the never sick more than 6 or 8 hours, and the similar than 10 more than 10 chimate, and by always purging appearance of sickness, has enjoylaking exercise at all, may lengthen his life to 60 years, by continuing to assist his natural functions with the BRANDETH VEGETA-BLE PILLS.
