HERE is a plow that is just about able to run itself. Once you adjust it for width and depth of furrow, a boy can run it all day long. If the Ontario Footlift Sulky strikes a stone, the Plow rises and resets itself, thereby preventing breakages. When the end of a furrow is reached, a touch of the Footlift attachment raises the bottom for the turn. Furnished with either Judy Bottoms (cutting 7 inches to 10 inches) for clay, or No. 21 Bottoms (cutting 10 inches to 12 inches) for loam. Equipped with Rolling or Straight Colters.

You should have this plow—one of the newest and best of our extensive line. It goes to the very limit in convenient adjustments, dust-proof bearings, proper design and the best grade of material we can buy for the purpose. Mould boards are soft centre steel—the hardest, best scouring and longest-wearing material procurable—no brittleness—no breakdowns.

The Ontario Footlift will plow your land right. It is worthy of close inspection and investigation. We're always glad to give you information.
